HOW AN FOREIGN ENTITY APPLIES FOR AN NCAGE CODE

NCAGE CODE

- Use Internet Explorer for better results

NCAGE CODE

- All primary foreign entities are required to register in NCAGE
- Are given a 5-character code (includes numbers and letters)
- Takes 4-5 business days to process
- Can begin the registration in NCAGE while waiting for the D&B DUNS number

NCAGE CODE

- Legal Business Name and Address must match the information entered in D&B DUNS
  - If punctuation, spelling, or other is different from when inputting data into the systems, (D&B DUNS, NCAGE, and SAM)
    - Registration in SAM will fail
  - If unsuccessful in SAM, follow instructions provided, which may indicate that you do not have a D&B DUNS number or NCAGE Code, or information does not match exactly

Welcome to the online CAGE/NCAGE Code request tool.
STEP 1 : Screening/search on existing CAGE/NCAGE Codes (activated with).

CAGE/NCAGE/SAM Procedures
This link is to a document that explains CAGE/NCAGE procedures as they relate to registering in and updating data in U.S. System for Award Management (SAM) system. Registering in SAM is complicated, so we highly recommend organizations trying to do business with the U.S. Federal government read the document and follow the instructions. The document also contains points of contact for CAGE/NCAGE matters for the National Codification Bureaus.

You may perform a wildcard search on a company name by placing a "?" after the name. BINCS will search by each individual word (up to three words). Example: WOOD WORKING? partial company name must contain at least 3 characters in addition to the "?" The company name field will ignore common words such as "the" and "and." Example: ASP?

The phone number must contain at least 6 digits. The phone number field must include the area code and the exchange code. Example: 616555

When entering Company or SIC you may further narrow the search by selecting the corresponding state field. Searching by the state alone does not constitute valid search criteria.

NOTE: Using partial searches will increase processing time and may time out the page.
