Boulevard 15 Octobre -Tabarre 41

Sincerely,

JAMarten 12/3/15

John A. Marten
Contracting Officer

# United Stated Embassy, Port-au-Prince Haiti
# Request For Information

This request for information is for informational purposes only. This is not a request for proposal. It does not constitute a solicitation and shall not be construed as a commitment by the government. Responses in any form are not offers and the government is under no obligation to award a contract as a result of this announcement. Any information submitted by respondents to this technical description is strictly voluntary.

The intent of this document is to acquire information on local service providers and the types of services available. The United States Embassy in Port-au-Prince, Haiti has two housing complex with a total of 150 housing units and additional individuals residences not in a complex, see item six (6) below. Each unit is fully independent and requires personal commercial television bundles, telephones, and Internet services. In addition, the service provider would have access to all residences to offer service without a guarantee that all customers will take advantage of services offered.

Please respond to the following questions with details covering all aspect of the item addressed in the question. However, clear and concise responses would be great.

1- Can the company provide telephone service that is not dependent on the Internet? If yes, please provide details.

2- Can the company provide PABX/PBX services? If yes:

   a. How? What equipment will have to be installed, maintenance, support, etc.

   b. Has the company already implemented this service in the local market?

   c. Roughly, what would be the cost for 100 extensions?

3- Can the company provide Internet service with different speeds, based on customer needs?

4- Can the company provide commercial television services with different channel bundles based on customer requirements?

   a. If yes:

i. What will you install on the customer side?

ii. How does the customer connect his/her brand new Digital TV to it?

iii. How does the customer connect his/her old school TV that has a coax connector to it?

5- What is an approximate cost for all three services combined?

6- Can you provide all three services in the following areas?

a. Belvil
b. Bellevue
c. Vivy Mitchell
d. Route de Frères
e. Morne Calvaire
f. Juvenat
g. Tabarre
h. Pacot
