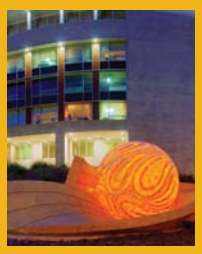
Register online at engr.iupui.edu/Sri_Lanka



IUPUI enrolls more than 30,000 students representing all 50 states and 122 countries.

IUPUI is Indiana's premier urban university, with 21 schools and academic units which grant degrees in more than 200 programs from both Indiana University and Purdue University. Its location near downtown Indianapolis facilitates advancement of research and teaching. IUPUI presents unique opportunities for internships, partnerships, and community engagement.

Energy Engineering • Motorsports Engineering • Biomedical Engineering
Electrical Engineering • Computer Engineering • Mechanical Engineering

IUPUI also offers many other degree programs in technology, health, science, arts, and business.

Professor Razi Nalim is Professor of Mechanical Engineering and Associate Dean of the **Purdue University School of Engineering & Technology at IUPUI**.

He received his early education in **Sri Lanka at Isipathana Junior School and Royal College**, and his undergraduate education at the **Indian Institute of Technology, Kanpur**.

He received his doctorate in Aerospace Engineering from **Cornell University**, **USA** and worked at **NASA** on innovative combustion systems. His research on combustion and energy efficiency of powerplants and aircraft engines has been widely recognized.
