**Amerika Haus, Friedrich-Schmidt-Platz 2, 1010 Vienna**

The issues women and girls face stretch far and wide across the globe, and progress can often feel slow when the numbers of oppressed women are so high. Sex trafficking, gender-based violence, maternal mortality, forced prostitution. How do we combat these issues? The documentary and the discussion will show that there are solutions, and ultimately hope. After all, women's rights are human rights.
