

# Eastern Cards

- 1)** Eastern Cards (i.e. cards that have Ezo, Sakure and Nabandga on them) should represent 60% of the total cards made.
- 2)** Within the Eastern Card set, there are nine styles – each style has a different person, name and color on the front.
- 3)** With the Eastern Card set, each of the nine styles should be equally represented. For example, if 900,000 Eastern cards are made, there should be 100,000 of each style.
- 4)** There are two different versions of each style, each style has an individual's picture on the front while the back shows either a map or a message.
- 5)** 75% or 3 out of 4 of each style should have the map on the back while 1 out of 4 should have the message. For example, if 100,000 Eastern cards are made of style 1 (Abote), 75,000 will have a map on the back and 25,000 will have the message.
- 6)** Cards should be 3.75" x 2.5" and water-proof paper or laminated heavy-duty paper.
- 7)** All nine styles must be equally represented in each box when packaged.
- 8)** Eastern and Western cards must be packaged separately.
