

**Funding Opportunity:** Job Fair for Young Women Journalists  
**Funding Opportunity Number:** SCAKAB-16-GR-002-SCA-03102016

**Questions and Answers**

**Question 1:** The project includes four, one-week training sessions of 25 women each. Do you have any preferences regarding number of hours of training per day?

**Answer:**

Our preference would be a minimum of four hours of training per day. To the extent possible, applicants should strive to schedule the training courses during hours that do not conflict with regular university class hours and should also strive to schedule them at times that maximize the women's ability to attend and participate.

**Question 2:** The project includes the selection of 100 female participants. Do you have a preference regarding whether the participants come from Kabul or from across the country?

**Answer:**

Our preference would be that participants include university female journalism students and recent university journalism graduates from a wide variety of provinces across Afghanistan, but it is not a requirement.
