

Pay the Application Fee and Schedule Your Appointment

There are two options regarding payment methods:

Credit Card Payment: If you choose to pay by credit card online, the appointment calendar will appear and you can select your preferred appointment date and time. You must print out and bring a copy of your **Appointment Confirmation** to your interview in order to enter the Consular Section. You can also pay by credit card through the call center by calling +355-044-500-037.

Cash Payment: If you choose to pay the application fee in cash, you will need to click on "Download Instructions". A pdf document named "U.S. Visa Application Fee (MRV) Cash Payment Instructions" will be downloaded in your browser or computer. Print out this document and take it along with the visa applicant's passport to a branch office of **Banka Kombetare Tregtare (BKT)** to make the application payment. Please note that cash payments may take from 4 to 24 hours to register in your online account. As a result of that you may not be able to schedule an appointment if it is not yet reflected in the online system. Once your payment is successfully registered in the online system, you can log into your account and follow the steps to schedule your appointment. You must print out and bring a copy of your **Appointment Confirmation** to your interview appointment date in order to enter the Consular Section.

Note: The current application fee is USD 160 for most visa classes. **Each visa applicant, regardless of age, is subject to paying the non-immigrant visa fee.**
