State Department Travel Guidance Remains in Place for Algeria

The travel guidance for U.S. citizens traveling to Algeria remains the same. The Department of State's latest [Travel Warning for Algeria](#) and Algeria [Country-Specific Travel Information](#) are available on-line.

The State Department changed its evaluation system for allowances for its personnel, which include hardship and danger pay. Under the new system, the danger pay in Algiers was cancelled but hardship pay increased. U.S. diplomats in Algeria continue to receive danger pay in many areas outside Algiers.
