

COME BACK HOME MUM

A mother can not abandon her children

A mother can not leave her home for ever

A mother symbolizes tolerance

A mother symbolizes common ground

Through our mother we can succeed

Through our mother we can grow up

When our mother was at home

We were playing together

When our mother was at home

We were playing together

Oh! Mum you were our happiness

Oh! Mum you were a bridge for us

Your children now say why you disappear at home

Your children now say Mum is not at home

Your children are crying for their mother

Your children are weeping for their mother

Please, listens their voice, come back home Mum

Please, have Mercy of them, come back home Mum.

**Your children's crying sounded from East to West
Your children's crying sounded from North to South
People come from America in search to bring you back home
People come from Asia in search to bring you back home
People come from Africa in search to bring you back home
People come from Europe in search to bring you back home**

**Please listen to them come back home
Please hear their voices come back home**
