2. Delivery and installation of a separate Point-to-Point fiber optic terrestrial link between:
  - the U.S. Embassy Blvd du Régent 27, 1000 Brussels and
  - the Logistics Service Center (Warehouse), Fabriekstraat 13, 1930 Zaventem.

Speed: 50 Mbps symmetrical.

Point-to-Point circuit interface connectors: RJ-45 with 10/100BaseT Interface

  - NATO HQ Blvd Leopold III, 1110 Brussels.

Speed: 50 Mbps symmetrical.

5. A separate Point-to-Point connection between the American Embassy, NATO HQ and the Logistics Service Center (Warehouse) – Cambridge solution at 2Mbps for voice.

- These are 4 independent circuits are not linked with each other with one exception: The public subnet assigned to the Embassy internet connection must be routable to the public subnet assigned to the NATO HQ location.
- Neither of the two high speed internet connections should be linked in any way so one connection malfunction or failure does not affect the other.
- No link to the Internet connection for the connection between the Embassy and the Warehouse so that an outage will not affect all 3 circuits at the same time.

- The Embassy does not require a VPN service. The Embassy handles the encryption for out traffic.
6. Circuit Specifications:

7. Quality of Service for Service Level Agreement
- Availability should not be less than 99.9%.
  - Latency should be less than 200ms

## **B. Circuit Downtime and Credits**

Credits shall be assessed against the Contractor in those instances where the circuit during any given month or year that fail to achieve and sustain the minimum acceptance standards stated above.

### 1. Definitions:

**Circuit Availability Acceptance Level:** Yearly Circuit Availability Acceptance Level is computed by 365 calendar days times 24 (hours per day) times 99.5% acceptance level equals 8,716.20 hours annum. ( $365 \times 24 = 8760 \times 99.5\% = 8,716.20$ ). Monthly Circuit Availability is computed by the calendar days per month times 24 (hours per day) times 99.5% acceptance level (example:  $31 \times 24 = 744 \times 99.5\% = 740.28$ )

**Downtime:** That period of time when the circuit becomes non-operational or unusable for communication or transfer of data or failures to meet the minimum acceptance standards. The maximum cumulative Annual downtime that shall be acceptable for corrective or preventative maintenance is 43.80 hours ( $8760 \times .5\%$ ). The maximum cumulative Monthly downtime that shall be acceptable for corrective or preventative maintenance shall be .5% of the total available hours for the month (example:  $31 \times 24 = 744 \times .5\% = 3.72$ ).

**Period of Downtime:** Downtime shall commence at the time first attempt for contact is made by the Government (or its representative) to the Contractor's Point of Contact and shall be annotated on the Remedy Ticket and shall continue until the circuit is returned into Service by the Contractor.

**Downtime Credits:** Monetary value returned to the Government for failure to meet the Circuit availability requirements. Downtime Credits shall be assessed based on cumulative downtime time with the minimum assessment being one hour. Downtime credit shall be computed as an hourly portion of the monthly subscription rate (subscription rate ÷ 30/31 days ÷ 24 hrs. = hourly rate). There are two (2) situations when circuit Downtime Credits can be accumulated:

- 1) Below Availability Level,
- 2) Extended Downtime.

## 2. Credit for Circuit Downtime by Situation

**Below Availability Level:** If the downtime accumulated for a circuit adds up to 43.80 (8760 x .5%) cumulative hours or more during any one contract year (365 calendar days) or depending on the number of hours for the month (example 744 x .5%) cumulative hours per month (example: 31 calendar day month) the Contractor shall grant a hourly credit to the Government for each hour of downtime. Each additional one hour increment or portion thereof will be assessed as an additional hour.

**Extended Downtime Credit(s):** Cumulative time of more than 18 hours but not greater than 24 hours for any one outage shall be assessed at a daily rate. Any increment of 24 hours beyond the initial 24 hours of any one outage shall be assessed at the standards for the hourly rate up to 12 hours, however between 12 and 24 hours the credit shall be assessed at the daily rate.

## 3. Exceptions to Cumulating of Downtime

Cumulating of circuit downtime shall include all unscheduled downtime deemed to be the responsibility of the Contractor, with the following exceptions:

a. When the failure to perform arises out of causes beyond the control and without the fault or negligence of the Contractor or Sub-contractor as defined in the Termination for Default clause in Section I of this contract.

b. Malfunction of equipment, frequency fading and interference, errors of commission and/or omission by the Contractor or Sub-contractor, and commercial power surges or failures are considered to be normal hazards of the industry and therefore do not qualify as causes beyond the control of the Contractor or Sub-contractor. The Contractor shall be charged with credits for all reported outages determined "no trouble found" or "came clear while testing" but which exceed 45 minutes.

The Contracting Officer shall make final determination as to whether downtime is the responsibility of the Contractor. If requested by the Contracting Officer, the Contractor shall provide documentation to support claims of excusable downtime. For downtime

determined to be the Contractor's responsibility, the Contracting Officer may elect to assess a credit for each instance of non-performance.

4. Payment Reduction for Downtime Credits

When Circuit Downtime credit(s) is due to the Government, the total number of creditable hours shall be accumulated for the month and will be deducted from the payment due the Contractor in the month they accrued.

5. Trouble Escalation Procedure

a. The Government shall refer the problem to the carrier after performing tests as prescribed in the Trouble Analysis procedure. Obtain the name of the carrier test person and a carrier ticket number, record this information on the Government's Remedy Ticket.

b. After the trouble has been referred to the carrier for two (2) hours, recall the carrier for an update on the current trouble. Record the carrier's response, the name of the individual you talked with, and the carrier ticket number on the Remedy Ticket.

c. After the trouble has been referred to the carrier for four (4) hours, recall the carrier for an update on the current trouble. If the carrier's response is not satisfactory escalate the trouble to the carrier's management. Record the carrier's response, the name of the individual you talked with, and the carrier ticket number on the Remedy Ticket.

d. After the trouble has been referred to the carrier for six (6) hours, escalate the trouble to the carrier's manager, notify ENM (Enterprise Network Management) at DTS-PO (Diplomatic Telecommunications Service Program), and the Operations Manager at BIMC (Beltsville Information Management Center). Record the carrier's response, the name of the individual you talked with, the carrier ticket number, and the names of the DTS-PO and BIMC managers that were notified on the Remedy Ticket.

e. Continue to status the carrier for the remainder of the outage or until you have received a solid loop from the carrier's distant end location. All further escalation shall be performed by the DTS-PO.

(3) Complying or agreeing to comply in the normal course of business with the unilateral and specific selection by a boycotting country, or national or resident thereof, of carriers, insurance, suppliers of services to be performed within the boycotting country or specific goods which, in the normal course of business, are identifiable by source when imported into the boycotting country;

(6) Compliance by a U.S. person resident in a foreign country or agreement by such person to comply with the laws of that country with respect to his or her activities exclusively therein, and such regulations may contain exceptions for such resident complying with the laws or regulations of that foreign country governing imports into such country of trademarked, trade named, or similarly specifically identifiable products, or components of products for his or her own use, including the performance of contractual services within that country, as may be defined by such regulations.

(1) o Are, o are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) o Have, o have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) o Are, o are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) o Have, o have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products (Executive Order 13126)*.
