

Number	Question/Statement	Answer
1	<p>Unfortunately, in your last version of request - AMENDMENT 1 TO RFQ PR4338781.pdf – I still find some confusing specification of the required machines.</p> <p>For example, in the SF-18 form it is written that you need “2x550-sheet paper tray”, while in your email you state that “four paper trays” are required. The information about the required finishers is also wrong in the last SF-18 – “office finisher with booklet function” and “internal finisher” are both stated, but it is not possible to install both of them.</p> <p>I am a little bit confused what information should I include when I fill in the SF-18. In my opinion it won't be right if I change the information in cell (11b) of the form.</p> <p>Could you, please, check and advice how I have to proceed?</p>	<p>AMENDMENT 1 TO RFQ PR4338781 was intended to change the solicitation due date. The technical questions were clarified in my email from 05/24/2015 and published on Embassy's website at:</p> <p>http://bulgaria.usembassy.gov/local_business.html.</p> <p>You can quote as per the clarified specifications and the specifications of your product.</p>
2	<p>Where can we find all clauses about our rights after participating in competitions organized from The U.S. Embassy in Sofia?</p>	<p>All solicitations and procurements of the U.S. Embassy Sofia are executed as per the FAR. This is the document that describes in detail what are the “rights” of the prospective quoters and vendors. Part 12 and Part 13 are describing the regulations for “Commercial items”.</p> <p>You can find the FAR at: https://www.acquisition.gov/far and the Department of State Acquisition Regulations at :</p> <p>http://dosar.a.state.gov/display/1/index.aspx?c=&cpc=&cid=&cat=&catURL=&r=0.481513559818268.</p>
