Post your questions on Google+ and Twitter by using the hashtag #GEWUSCan

Embassy experts will provide practical information for Canadian entrepreneurs traveling to or investing in the United States. The program will include discussions of U.S. Customs regulations, shipment of goods across the border, information on visas, and other information to facilitate your cross-border business.

Canadian entrepreneurs, who need to understand and comply with U.S. laws and regulations, will want to watch this program!

The United States is proud to be one of 138 countries participating in Global Entrepreneurship Week, the world's largest recognition of the innovators and job creators who launch start-ups that bring ideas to life and drive economic growth. U.S. Embassies around the world are hosting programs and events to support entrepreneurs in their efforts to create new products and services and to launch new businesses.
