

**Contractor Questions & Answers
For Solicitation No. S-CO150-12-R-N017
Mezzanine Enlargement at Hangar 2, Guaymaral
Bogota – Colombia**

August 01, 2012

Following is a list of the questions I have received from the contractors participating in the above solicitation. Each question is followed by the Government's response.

Question #1: Is it possible to get the drawings of the project in AutoCAD files version 2010?

Answer: **Yes. Please email Mr. Ivan Morales at moralesil@state.gov for an AutoCAD version.**

Question #2: Is it necessary to translate in English all the company's programs, policies, procedures, templates, etc. in safety, environmental and health?

Answer: **The only information required in English are the deliverables noted in Paragraph F.11 of the solicitation package. This is required from the awarded contractor only.**

Question #3: Is there any additional specific requirement for each work?

Answer: **I do not understand the question. I do not know what additional requirement the contractor is mentioning.**

Question #4: Which are the specific programs for the project in safety, environmental and health required?

Answer: **Refer to the answer to Question #2.**

Question #5: Since the information on safety, environmental and health is very big and coherent to the environmental policies, would it be viable that we send this information via magnetic media?

Answer: **The offeror must follow the instructions given in the cover letter and solicitation package.**
