Section 00100 - Bidding Schedule/Instructions to Bidders

INSTRUCTIONS TO OFFERORS**1. DELIVERY OF OFFER:** All responses shall be in English and legible.

Electronic submission. The Contractor shall provide one copy of their offer as an electronic file (acceptable electronic submissions are: Microsoft WORD, EXCEL, and Adobe PDF only). The preferred method is by email, but a CD delivered before the closing date/time is fine for very large files. The offer shall be submitted to Michael.haydo@tsc.southcom.mil and rosalba.mateus@tsc.southcom.mil before 10:00 AM (Local Bogota Time) on 24 July 2013. No fax copies will be accepted. Separate the technical proposal section from the price proposal section.

b. Solicitation Questions: Questions regarding this solicitation shall be submitted in writing to the Contracting Specialists by email at Michael.haydo@tsc.southcom.mil or rosalbe.mateus@tsc.southcom.mil. **The Government will answer all questions received by 3:00 PM (Local Bogota Time) on 17 July 2013.** The Government reserves the right not to respond to any questions received concerning this solicitation after the question receipt date and time above. Accordingly, Contractors are encouraged to carefully review all solicitation requirements and submit questions to the Government before the closing of questions.

c. Amendments prior to date set for receipt of offer. The Government reserves the right to amend the solicitation specifications and/or drawings prior to receipt of offers via formal Amendment. The Contracting Officer will send all information relating to this solicitation, including pertinent changes/amendments and information, to all interested parties prior to the offer due date.

2. CONTENTS OF OFFER: The offeror shall submit the following with its offer:

- Section 00100 - **This is a fixed price contract payable in United States Dollar (USD) for companies based in the United States (or other country outside of Colombia), and Colombian Pesos for companies based in Colombia (see FAR clause 52.225-17).** Although the contract will be awarded as a lump sum project, the offeror is required to provide a **detailed price breakdown** with their offer of the price elements included in the lump sum. Price all individual line items that go into the final price on the attached "Breakdown of Pricing Worksheet" - Complete all applicable portions of this form in each relevant category (such as labor, materials, etc.).

- Section 00600 - Representations and Certifications- Insert the required Certifications and Representations and return only those shown in section 00600.

- Section 00700 – 252.229-7001, Tax Relief – Offerors will complete and submit with their offer.

- Amendments – Acknowledge by signing any amendments issued to the solicitation. Amendments may also be acknowledged in block 19 of the SF 1442.

- Contractor is to provide a list with the description of materials and products to be used to assure the Contractor understands the required compliance for this project.

3. EVALUATION OF OFFERS: Offers will be evaluated using past performance and price as evaluation criteria. The Government will review the "Breakdown of Pricing Worksheet" to determine the reasonableness of the proposed price.

Past Performance: The Government will evaluate the Construction projects or contracts submitted in order to evaluate past performance. Past performance relates to how well a Contractor has performed. The Government may contact references to verify the Contractor's past performance. In conducting the Past Performance evaluation, the Government reserves the right to use both the information provided in the offeror's Past Performance submittal and information obtained from other sources, such as the Past Performance Information Retrieval System (PIRS) or similar systems, Defense Contract Management Agency (DCMA) and commercial

sources. If the Government is aware of contracts that meet the requirements of this solicitation but have not been included in the three (3) contracts submitted, it may evaluate those contracts in addition to those submitted. In the event an Offering Contractor has no relevant past performance, they may submit past performance information for the key personnel proposed. If an Offeror, or the proposed employees for the Offeror do not have a past performance history relating to this solicitation, the Offeror will not be evaluated favorably or unfavorably on this factor. In order to be considered for award, the Offeror's past performance risk rating must be evaluated as "acceptable" or "unknown" risk.

Past performance will be evaluated as either acceptable or unacceptable based on the following criteria:

ACCEPTABLE – Based on the Offeror's performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort.

UNACCEPTABLE – Based on the Offeror's performance record, the Government has no reasonable expectation that the Offeror will be able to successfully perform the required effort

UNKNOWN – In the case of an Offeror with a record of relevant past performance or whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the Offeror may not be evaluated favorably or unfavorably on past performance. Therefore, the Offeror shall be determined to have unknown past performance and shall be considered "acceptable."

4. AWARD. Subject to the provisions contained herein, the Government intends to award a single contract resulting from the solicitation, to the Offeror whose response conforms to the Statement of Work, has acceptable past performance and provides the lowest total price for the actual contract line items awarded considering available funding.

CLAUSES INCORPORATED BY FULL TEXT

52.204-6 DATA UNIVERSAL NUMBERING SYSTEM NUMBER (DEC 2012)

(a) Definition. Data Universal Numbering System (DUNS) number, as used in this provision, means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities, which is used as the identification number for Federal Contractors.

(b) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS+4" followed by the DUNS number or "DUNS+4" that identifies the offeror's name and address exactly as stated in the offer. The DUNS number is a nine-digit number assigned by Dun and Bradstreet, Inc. The DUNS+4 is the DUNS number plus a 4-character suffix that may be assigned at the discretion of the offeror to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see Subpart 32.11) for the same concern.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number--

(i) Via the Internet at <http://fedgov.dnb.com/webform> or if the offeror does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The offeror should indicate that it is an offeror for a U.S. Government contract when contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business name.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company physical street address, city, state and Zip Code.

(iv) Company mailing address, city, state and Zip Code (if separate from physical).

(v) Company telephone number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(End of provision)

CLAUSES INCORPORATED BY FULL TEXT

52.233-2 SERVICE OF PROTEST (SEP 2006)

(a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from the Chief of Contracting Office.

Regional Contracting Office – Bogota
U.S. Embassy – Bogota
MILGP Unit 5140
APO AA 34038-5140

(b) The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

(End of provision)

CLAUSES INCORPORATED BY FULL TEXT

52.236-28 PREPARATION OF PROPOSALS--CONSTRUCTION (OCT 1997)

- (a) Proposals must be (1) submitted on the forms furnished by the Government or on copies of those forms, and (2) manually signed. The person signing a proposal must initial each erasure or change appearing on any proposal form.
- (b) The proposal form may require offerors to submit proposed prices for one or more items on various bases, including--
- (1) Lump sum price;
 - (2) Alternate prices;
 - (3) Units of construction; or
 - (4) Any combination of paragraphs (b)(1) through (b)(3) of this provision.
- (c) If the solicitation requires submission of a proposal on all items, failure to do so may result in the proposal being rejected without further consideration. If a proposal on all items is not required, offerors should insert the words "no proposal" in the space provided for any item on which no price is submitted.
- (d) Alternate proposals will not be considered unless this solicitation authorizes their submission.
- (End of provision)

CLAUSES INCORPORATED BY FULL TEXT

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

www.acquisition.gov/far

(End of provision)

STATEMENT OF WORK

**STATEMENT OF WORK (SOW)
CONSTRUCT CAFETERIA FOR THE SCHOOL AT LA JULIA, META**

PART 1

1. GENERAL: Under this contract, the Contractor shall design and construct a cafeteria, located in the municipality of La Julia, Meta, Colombia in accordance with (IAW) the Statement of Work (SOW). The Government shall not exercise any supervision or control over the contract providers performing the tasks herein. Such contract employees shall be accountable solely to the Contractor who, in turn is responsible to the Government.

1.1 Description of Services: The Contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to execute the terms of this statement of work. The cafeteria building shall be one story with approximate dimensions of 16.3m by 12.37m. The cafeteria shall consist of the dining room and small kitchen area, storage area, and sidewalks. The construction of sidewalks shall be as shown in the attached conceptual plan. The work executed by the contractor shall include but is not limited to:

- Project site localization and layout.
- Provisional fencing and camp.
- Stripping topsoil, all excavation, backfill and compaction.
- Foundation beams, compacted fill, proper concrete mix for the footings, footing beams, aerial beams, columns, lintels, slabs and sidewalks.
- Conventional masonry.
- Metallic structure and roof materials.
- Potable water distribution system, sanitary system and storm water system.
- Electrical distribution system and accessories.
- Interior and exterior stucco, interior plaster, paint on interior and exterior walls, floor tiles, wall tiles, windows, doors, bathrooms, kitchen, handrails and sink.
- Commemorative plate, flags area, informative banner and clean-up.

Note: The Contractor shall verify all dimensions and/or quantities on site before commencing.

The Contractor and their subcontractors shall comply with Colombian Safety regulations and laws. Where project activities are not governed by Colombian regulation, the contractor shall comply with safety and health requirements as established by EM 385-1-1, by U.S. Army Corps of Engineers.

1.2 Background: The project is part of US Southern Command's Humanitarian Assistance Program and complements the Colombian Army's (COLAR) Civil Affairs requirements.

1.3 Objectives: The objective is to provide a cafeteria to the municipality of La Uribe, which requires an appropriate place to cook, storage and consumption of food for school students

1.4 Scope: The Contractor shall provide all design drawings/specifications and labor required to construct a Cafeteria, located in the municipality of La Uribe, Meta.

1.5 Required Performance: The work shall begin within ten (10) days after the Contractor receives the contract award, and the project shall be completed in 210 days or less from receipt of contract award. This delivery time includes clean-up of the site area.

1.6 General Information:

1.6.1 Quality Control (QC): The Contractor shall develop and maintain an effective quality control program to ensure services are performed in accordance with this SOW and applicable regulations. The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The Contractor's quality control program is the means by which he assures himself that his work complies with the

requirement of the contract. The Contractor shall deliver a Quality Control Plan (QCP) to the U.S. Military Group Project Engineer (PE) and Contracting Officer (KO) for approval within 30 days of contract award. The Contractor shall have five (5) working days to submit any changes for PE and KO acceptance.

1.6.2 Recognized Holidays: The Contractor is not required to perform work on Colombian holidays.

New Year's Day	Feast of Saints Peter and Paul
Epiphany	Independence Day
St. Joseph's Day	Battle of Boyacá
Holy Thursday	Assumption Day
Good Friday	Discover of America
Labor Day	All Saints Day
Ascension Day	Cartagena's Independence Day
Corpus Christi	Immaculate Conception
Fest of the Sacred Heart	Christmas Day

1.6.3 Hours of Operation: The Contractor shall execute work within the following work schedule: Monday through Friday, 7:00 a.m. through 5:00 p.m. and Saturdays 8:00 a.m. through 3:00 p.m., except Colombian holidays or when the local Government facilities are closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. The Contractor must at all times maintain an adequate workforce for the uninterrupted performance of all tasks defined within this SOW when the Government facility is not closed. When hiring personnel, the Contractor shall keep in mind that the stability and continuity of the workforce are essential.

1.6.4 Place of Performance: The work to be performed under this contract will be performed in the municipality of La Julia, Department of Meta.

1.6.5 Type of Contract: The Government plans to award a Firm Fixed Price contract for this requirement.

1.6.6 Special Qualifications: Not Applicable

1.6.7 Post Award Conference/Periodic Progress Meetings: The Contractor agrees to attend any post award conference convened by the contracting activity or contract administration office in accordance with Federal Acquisition Regulation Subpart 42.5. The KO, PE and other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings the KO will apprise the Contractor of how the government views the Contractor's performance and the Contractor will apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the Government.

1.6.8 Key Personnel: The follow personnel are considered key personnel by the government: The quality control representative, the project engineer/architect, field engineer/architect, project superintendent/foreman and any other engineers leading design (plans or calculations) efforts related to the project. The Contractor shall provide a project engineer/architect who shall be responsible for the performance of the work. The name of this person and an alternate who shall act for the project engineer when they are absent shall be provided in writing to the KO within ten (10) days of contract award. The project engineer shall have full authority to act for the Contractor on all contract matters relating to daily operation of this contract. The project engineer or alternate shall be available between 8:00 a.m. to 4:30 p.m., Monday thru Friday except Federal and Colombian holidays or when the government facility is closed for administrative reasons.

Qualifications for all key personnel are listed below: The project engineer/architect shall have a bachelor's degree in engineering/architecture and maintain a valid Colombian government professional registration, and at least ten (10) years of experience. Field and design engineers/architects shall have a bachelor's degree in engineering/architecture and maintain a valid Colombian professional registration, and at least five (5) years of experience with projects of a similar type and magnitude. The project superintendent/foreman shall have at least

three (3) years or three (3) projects of experience with projects of a similar type and magnitude. The Contractor's quality control representative shall have at least five (5) years as a quality control inspector.

1.6.9 Identification of Contractor Employees: The Contract personnel attending meetings, answering Government telephones, and working in other situations where their Contractor status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public that they are Government officials. They must also ensure that all documents or reports produced by Contractors are suitably marked as Contractor products or that Contractor participation is appropriately disclosed.

1.6.10 Contractor Travel. Not applicable.

1.6.11 Data Rights: The U.S. Government has unlimited rights to all documents/materials produced under this contract. Any documents, designs, drawings, test outcomes, survey maps, belong to the U.S. Government and shall be turned over to the PE upon completion of the project. All documents and materials produced under this contract shall be Government owned and are the property of the Government with all rights and privileges of ownership/copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the Contractor without written permission from the KO. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

1.6.12 Laws and Regulations.

1.6.12.1 Compliance Required. The Contractor shall, as a minimum, and without additional expense to the U.S. Government, be responsible for complying with all Colombian laws, codes, ordinances, and regulations applicable to the performance of the work, including those of the host country, and with the lawful orders of any governmental authority having jurisdiction. In the event that a Colombian law or regulation does not exist for a particular event, then the U.S. version of at least equal coverage will be specified by the U.S. Government in the particular section of this SOW. In the event of a conflict between the contract and such laws, regulations and orders, the Contractor shall promptly advise the KO of the conflict and of the Contractor's proposed course of resolution.

1.6.12.2 Labor, Health and Safety Laws. The Contractor shall comply with all local labor laws of Colombia, regulations, customs and practices pertaining to labor, safety, and similar matters, to the extent that such compliance is not inconsistent with the requirements of this contract. The practices outlined in the Colombian regulation "Normatividad Salud Ocupacional y Seguridad Industrial" are the minimum acceptable standards. The Contractor is responsible for training all personnel to recognize fire and safety hazards. The Contractor shall encourage personnel in the performance of their duties to report fire, safety hazards and unsafe conditions to their supervisor. In the event that a Colombian law or regulation does not exist for a particular event, then the U.S. version that covers that particular event will be specified in the particular section of this SOW.

1.6.13 Licenses and Permits.

1.6.13.1 Contractor Licenses and Permits. The Contractor shall, at no additional cost to the U.S. Government, obtain all licenses and permits required for performance of work. Contractor shall comply with all applicable Colombian laws, rules, and regulations. The Contractor shall submit proper documentation and evidence satisfactory to the KO or the PE demonstrating compliance with this requirement when directed by the KO or PE.

1.6.13.2 Subcontractor Licenses and Permits. The Contractor shall inform the PE and KO in writing that all subcontractors and others performing work at the worksite have obtained all requisite licenses and permits. The Contractor shall submit proper documentation and evidence satisfactory to the KO demonstrating compliance with this requirement when directed by the KO.

1.6.14 Environmental Protection.

1.6.14.1 In order to present and provide for abatement and control of any environmental pollution arising from the activities in the performance of this contract, the Contractor shall comply with all applicable pollution control and abatement policies, and all applicable provisions of the Colombian Codes and Military Base regulations/laws.

1.6.14.2 Environmental protection action required by this section shall consist of furnishing all labor, materials, and equipment and performing all work required for the abatement and prevention of pollution during and as the result of construction operations under this contract. For the purpose of this specification, environmental pollution is defined as the presence of chemical, physical, or biological elements or agents which adversely affect human health or welfare; unfavorably alter ecological balances; detrimentally impact on biological species and/or their habitat; or degrade the aesthetic and recreational value of the area.

1.6.14.3 The Contractor shall not pollute storm or sewer lines; or swales with fuels, oils, bitumen, calcium chloride, acid, construction wastes; or other harmful materials. It is the responsibility of the Contractor to investigate and comply with all applicable Colombian laws concerning pollution of river and streams. All work under this contract shall be performed in such a manner that objectionable conditions shall not be created in streams through or adjacent to the project areas.

1.6.14.4 Waste material is defined as any material for which no use or reuse is intended and which is to be discarded. Disposal of hazardous waste, containers or components thereof, shall be in a hazardous waste disposal site only and no other location shall be utilized for such disposal. Only hazardous waste sites which are permitted by the US Environmental Protection Agency (EPA), and/or the Government of Colombia shall be utilized for such disposal actions. Contractor shall coordinate with Colombian environmental agencies for disposal/storage activities.

1.6.15 Personnel Safety. The Contractor shall ensure the safety of their personnel in accordance with Colombian law section Normatividad Salud Ocupacional y Seguridad Industrial. The Contractor shall immediately correct all safety deficiencies upon notification of such deficiencies by the KO/PE and shall notify the KO/PE of the corrective action taken. The Contractor shall be responsible for the safety of their workers and all visitors at each work site; and ensure that all personnel are wearing appropriate safety gear at all times (i.e. safety glasses, helmet, harness, gloves, and safety shoes).

1.6.15.1 Accident Protection (AP) and Emergency Medical Treatment (EMT). The Contractor shall have competent personnel licensed by the Colombian government to be trained and capable of dealing with minor personnel injuries. The personnel shall be qualified to provide first aid in case of emergency. The number of AP and EMT shall be sufficient to care for the number of employees at the site in the case of an emergency.

1.6.15.2 All work crews, Contractor management personnel, and the PE shall be provided with information pertaining to the Contractor's arrangements for emergency medical treatment five (5) days prior to the start of work. This information shall include the following:

Local Hospital:	Name	Phone No.
Local Ambulance:	Name	Phone No.
Local Doctor:	Name	Phone No.

1.6.16 Marking of Work Zones. The Contractor shall mark all work zones using two lines of plastic yellow security ribbon. Yellow security ribbons shall be at least 8 cm wide and supported on very stable stakes. Likewise, the project excavation or high accident risk zones shall be signaled with warning signs or fences as protective measurements by the Contractor.

1.6.17 Construction Operations and Storage Areas.

1.6.17.1 Confinement to Authorized Areas. The Contractor shall confine all operations (including storage of materials) on to areas authorized or approved by the PE from information received by local authorities. U.S. Government agencies shall have access to the premises for official fire, safety, and security inspections and/or to conduct site visits as authorized by the PE.

1.6.17.2 Access to Contractor Storage Yard. The Contractor shall only store materials and equipment for the cafeteria project at La Uribe, Meta. The specific worksite location will be coordinated with La Uribe Department of Public Works or equivalent office during the pre-performance conference or at a later date.

1.6.18 Contractor Vehicles.

1.6.18.1 Vehicular Access. The Contractor shall, and in accordance with any regulations specified by the municipal authorities, use only established site entrances and roadways at both worksite locations.

1.6.18.2 Vehicle list. Not applicable

1.6.19 Unforeseen Conditions: The Contractor shall conduct aerial, surface, underground or embedded interference survey to avoid damage to pipes, boxes, cables, utility poles, hoses, wells or other elements in the work area. If a potential interference is found, the Contractor shall promptly give written notice to the KO/PE in accordance with FAR Clause 52.236-2, and prepare information for possible alternatives.

PART 2

2. DEFINITIONS AND ACRONYMS:

2.1 Definitions.

2.1.1 Calendar Days. Any reference in the Statement of Work to “days” refers to calendar days, rather than business days, unless otherwise specified.

2.1.2 Contractor. A supplier or vendor awarded a contract to provide specific supplies or service to the Government. The term used in this contract refers to the prime.

2.1.3 Contracting Officer. A person with authority to enter into, administer, and or terminate contracts, and make related determinations and findings on behalf of the government. Note: The only individual who can legally bind the government.

2.1.4 Defective Work. A task output that does not meet the standard of performance associated with the SOW.

2.1.5 Deliverable. Anything that can be physically delivered, but may include non-manufactured things such as meeting minutes or reports.

2.1.6 Key Personnel. Contractor personnel that are evaluated in a source selection process and that may be required to be used in the performance of a contract by the Key Personnel listed in the SOW. When key personnel are used as an evaluation factor in best value procurement, an offer can be rejected if it does not have a firm commitment from the persons that are listed in the proposal.

2.1.7 Physical Security. Actions that prevent the loss or damage of Government property.

2.1.8 Quality Control. All necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract requirements.

2.1.9 Subcontractor. One that enters into a contract with a prime Contractor. The Government does not have privity of the prime’s contract with the SubContractor.

2.1.10 Work Day. The number of hours per day the Contractor provides services in accordance with the contract.

2.1.11 Work Week. Monday through Friday, unless specified otherwise.

2.1.12 Project Engineer/Architect: The person who is the technical representative for the Contractor in all phases of the project, from design to final execution. This person will be responsible for design and materials submittals and will attend meetings as required for the project. The experience required is defined in Section 1.6.10.

2.1.13 Field Engineer/Architect. It is the onsite technical representative overseeing the engineering aspects of the project. This person will ensure proper work execution with regards to project designs, technical standards and project schedule. This person can also establish quality control construction processes. The experience required is defined in Section 1.6.10.

2.1.14 Project Superintendent/Foreman (Maestro de Obra). Person trained in all aspects of construction management with specific knowledge of construction processes. The experience required is defined in Section 1.6.10.

PART 3

3. GOVERNMENT FURNISHED ITEMS AND SERVICES.

3.1 Services. Not applicable.

3.2 Facilities. Not applicable.

3.3 Utilities. Not applicable.

3.4 Equipment. Not applicable.

3.5 Materials. Not applicable.

PART 4

4. CONTRACTOR FURNISHED ITEMS AND RESPONSIBILITIES.

4.1 General. The Contractor shall furnish all supplies, equipment, facilities and services required to perform work under this contract as outlined within this SOW. All work shall be performed in accordance with manufacturer specifications and instructions for the products and/or materials to be used, and performed by certified personnel such as professional electrical engineers, electricians, and civil engineers. The Contractor shall verify existing conditions prior to actual installation of the equipment. The Contractor shall comply with special considerations, safety program, required insurance and Military Base regulations.

4.2 Secret Facility Clearance. Not applicable.

4.3 Materials. The Contractor shall provide cement, aggregates, concrete, reinforced steel, metallic structure, welding materials, masonry, bath apparatuses, electrical materials, wall tiles for bathrooms and kitchen, floor tiles, paint, stucco, ceiling dry wall, windows and doors and all related materials for the construction.

4.4 Equipment. The Contractor shall provide all required construction equipment to construct the cafeteria, including excavator, concrete mixer, lifting equipment, trucks to transport debris, etc to construct and install what is included in this contract.

4.5 Responsibilities of Contractor.

4.5.1 Damage to Persons or Property. The Contractor shall be responsible for all damages to persons or properties at the worksite that occur as a result of the Contractor's own fault or negligence. The Contract shall take proper safety and health precautions to protect the work sites, the workers, the public, and the property of others.

4.5.2 Responsibility for Work Performed. The Contractor shall be responsible for all materials delivered and work performed until final completion and acceptance of the entire project, except for any completed unit of work which may have been accepted in writing under the contract.

4.6 Contractor Records/Progress Reports. The Contractor shall certify all completed work on bi-weekly basis and provide bi-weekly progress report to the PE and KO. Bi-weekly report is due **every other Tuesday**, no later than **1300 hrs** (1:00 p.m. CST).

4.7 Contractor Work Schedules. Offerors shall include in their technical proposal a complete project management schedule utilizing the Critical Path Method (CPM), Program Evaluation & Review Technique (PERT) or Gantt Chart showing major construction phases (i.e. clearing site, site prep, foundation, concrete structure, metallic structure, water lines, sanitary lines, electrical system, drainage system, roof tiles, masonry, stucco, floor tiles, wall tiles, bathrooms, windows, doors, tests, cleaning, final inspection and punch list corrections). These items will become part of the contract at award. Sufficient float time shall be incorporated in the schedule to account for down days due to inclement weather. Contractor shall include quality assurance inspections performed by QA rep at each worksite.

4.8 Progress Meetings. The Project Engineer/Architect may be required to meet at least weekly with the KO and/or the PE during the first month of the contract and then as required throughout the period of performance. The Contractor shall be responsible for keeping minutes of these meetings. The written minutes of these meetings shall be signed by the Project Engineer/Architect, KO and/or the PE, and any other individuals in attendance.

4.9 Repair. The Contractor shall repair any damage to the existing grounds, facilities or property incurred during the course of construction at La Uribe to its original pre-existing conditions.

4.10 Safety. The Contractor is responsible for the safety of workers and visitors to the work sites. The Contractor shall ensure that all personnel wear appropriate safety gear at all times in compliance with all Colombian Occupational Safety & Health regulations and ensure all local safety regulations are followed at all times. The Contractor shall provide sanitation for workers in accordance with the latest edition of corps of Engineers Safety and Health Manual EM 385-1-1 and Colombian safety and health laws. Contractor shall comply with safety and health requirements as established by EM 385-1-1. Information about how to obtain electronic and/or hard copies of this manual is located at the following website: <http://www.usace.army.mil/CESO/Pages/EM385-1-1.aspx>

4.10.1 Prohibition on Asbestos and Lead Based Paints. The Contractor shall not use materials containing Asbestos or Lead Based Paints in this construction project. Upon completion of each construction project, the Contractor shall submit two copies of a Certified Letter to the PE stating that no lead based paints or materials containing asbestos were used in this project at La Uribe. One copy of the letter shall be filed with project documents in the Resident Engineer's Office and second copy filed in the PE's project folder.

4.11 Utilities Connections and Excavations

4.11.1 The U.S. Government will not provide any utility connections. It is the Contractor's responsibility to provide any generators required to operate any of its own equipment at its own expense. The Contractor shall be also responsible for providing potable water daily at the construction worksite for all employees at Contractor's own expense. If a water tank truck is planned for this purpose, the Contractor shall be responsible for providing registration information that must be included with Contractor's equipment listing.

4.11.2 The Contractor shall be responsible for coordinating excavation with local utility companies and shall take every precaution to avoid damage to underground utilities. The Contractor shall be responsible for any damages they incur to the underground utilities and shall repair any construction damages at the La Uribe worksite at own expense. The Contractor shall be responsible for coordinating the connection of potable water, sewage (if available), and electrical power with local utility companies.

4.12 Interruption of Utility Services. Any planned interruptions of utility services (electrical power, water, natural gas, etc.) shall be detailed and coordinated by the Contractor. If the outage affects only the facilities in this contract, the request shall be submitted at least three (3) working days before the planned outage. The Contractor shall not interrupt service(s) until approval has been granted by the La Uribe Department of Public Works or equivalent entity. Requests shall include facility/facilities affected, date of scheduled outage, and duration. Requests for interruption of service(s) will not be approved unless all equipment and materials required for the applicable/particular phase of work are on the job site (s). Interruptions will be granted Monday through Friday for the following times: 7:15 A.M. until 11:00 A.M. and 12:30 P.M. until 4:00 P.M. If weekend (Saturday and Sunday) outages are required or are preferred, such outages shall be coordinated as specified above.

4.13 Contractor Personnel The Contractor shall provide sufficient number of personnel, properly trained and qualified (i.e. civil engineer, architect, geotechnical engineer, electrical engineer, certified electricians and foremen), to perform the requirements of this contract at the worksite location. All non-laborer Contractor employees on this project shall maintain a proficiency license from the Colombian or an equivalent license from a foreign entity if the Contractor is based in a country other than Colombia La Uribe worksite location.

4.13.1 Project Engineer/Architect Superintendent/Foreman.

4.13.1.1 The Contractor shall provide a Project Engineer/Architect who shall be a licensed engineer or architect and responsible for the performance of all work. The name of this person and an alternate(s), who shall act in behalf of the Contractor when the Project Engineer/Architect is absent, shall be designated in writing to the KO at least ten (10) days prior to contract performance. The Contractor shall not replace, substitute, or remove key personnel without prior written consent from the KO. In the event that the Contractor removes key employees, replacement personnel must be equally or better qualified.

4.13.1.2 The Field Engineer/Architect and Superintendent/Foreman shall be designated in writing to the KO at least ten (10) days prior to contract performance. These key personnel shall be physically present at the worksite between the hours of 7:30 am to 4:30 p.m., excluding Colombian holidays, and any other time work is being performed at the site, as coordinated between the Contractor and PE. The Contractor shall provide to the KO and PE the phone numbers of the Project Engineer/Architect and alternate(s), Field Engineer/Architect and Superintendant/Foreman to be available during duty and non-duty hours (to include evenings, holidays, and weekends).

4.13.1.3 The Project Engineer/Architect shall be responsible for overall management and coordination of this contract; directing the onsite work; acquiring materials; able to resolve construction issues; and provide information about work progress to the PE. The Project Engineer/Architect shall be highly knowledgeable of the project progress and have a good working knowledge of Spanish be able to communicate effectively. By Good Working Knowledge the employee should be able to read/speak English and understand agency regulations, operating instructions, memoranda, and related material concerning the field of work, to prepare correspondence and standardized reports, and to communicate effectively with Spanish speaking staff members and the general public, including both Spanish speaking and non-Spanish speaking persons. The Project Engineer/Architect or their designated alternate shall be available to meet with U.S. Government personnel, or the KO, within 30 minutes unless otherwise coordinated with such designated personnel. After duty hours, the Project Engineer/Architect or designated alternates shall be available within two (2) hours in case of emergency.

4.13.2 Personnel Listing.

4.13.2.1 After award of the contract, the Contractor shall have five days to submit to the KO a list of workers and Project Managers assigned to work at La Uribe (Biographic Data on Personnel). Required information for each individual on the personnel list for La Uribe shall include:

- Full Name
- Place and Date of Birth
- Current Address
- Identification number

4.13.2.2 Failure to provide any of the above information may be considered grounds for rejection and/or re-submittal of the application(s).

4.13.3 Contractor Employee Uniforms. The Contractor shall provide to each employee a shirt (all shirts must be the same style and color) with the Contractor's name/logo. The shirt shall be worn at all times while working at the project site.

PART 5

5. SPECIFICATIONS

General: The Contractor shall furnish all labor, transportation, equipment, materials, and any other items and services necessary to execute the terms of this statement of work. The approximate dimensions of the project land area are 16.30m x 12.37m. The cafeteria will consist of one building of one story that will include the dining area, a small kitchen and storage area. Construction shall include sidewalks as shown in the attached conceptual plan. The Contractor shall be responsible for the development of a material list for PE review. The Contractor shall provide a draft list with PE responding technical information for review no later than five (5) business days after Government approval of the Contractor's designs. Upon approval of the material list by Government, the contractor shall provide sample materials as identified in the approved material list. The Contractor shall ensure that materials for project shall be environmentally friendly IAW paragraph 1.6.18.

5.1 Plans: All structural, architectural, hydro-sanitary, and electrical plans shall be provided to the PE for approval within 45 days of award. All plans shall be developed by an engineer certified in that particular discipline, and comply with appropriate codes. Once approved all shall become part of the contract specifications.

5.1.1 Structural and Architecture Design: Plans shall comply with "Norma Sismo Resistente" (NSR) – 2010 code.

5.1.2 Hydraulic, Sanitary and Storm water Design: Plans shall comply with Colombian codes "Norma Tecnica Colombiana" (NTC) – 1500.

5.1.3 Electrical Designs: Plans shall comply with NTC 2050 and RETIE. Designs shall include the electrical consumption of the building plus an additional 30%. The Contractor shall verify that the value of the resistance is the required value of (<25 ohms). The contractor shall review conditions and availability in the electrical power line and shall include and install the required indoor/outdoor transformer. The Contractor shall include a Lightning Protection System Study IAW NTC 4552. The electrical designs shall include the lighting calculation.

5.1.4 Soil Study: The Contractor shall provide a soil study for PE approval within ten (10) days of contract award, and before any structural design may begin. The soil study shall be IAW NSR-10.

5.1.5 Surveying: The Contractor shall perform all surveying required for the project and use the data collected in every aspect of the project (i.e. storm water system and drainage).

5.1.6 Surveying and Layout: A field book shall be kept on the T-shaped rod sighting points and grade (niveletas) levels, while allowing for ground settlement. The Contractor shall be responsible for surveying the terrain levels from the Bench Mark Survey (BMS), base lines, topographical points, perimeter limits, and other control elements necessary to identify the terrain localization and/or elevation.

5.1.7 Natural Ventilation and Natural Lighting: The Contractor shall create a ventilation and lighting design that incorporates as much natural ventilation and lighting as possible, while taking into consideration the amount of heat generated. An example of the use of natural lighting would be the incorporation of sky lights. Sky light designs should show an installation that increases natural lighting, while taking into consideration the local horizon to minimize direct sunlight and heat retention. The same type of consideration should be taken with incorporating as much natural ventilation as possible, while not creating unnecessary weather exposure to the inside of the building.

NOTE: All contractor designs shall comply with all requirements and regulations of local authority's having jurisdiction over the project site.

5.2 Excavation: All vegetation and top soil shall be removed from site, compacting the exposed surface to at least 95% Proctor Standard (per NSR-2010 code), before beginning backfill. The Contractor shall also provide Proctor Standard results to PE for approval before starting backfill. This includes backfilling and leveling the ground (0,50 mts over level 0,0 or existing level) according to the recommendations given in the soil study, and their reasonable proximity to the alignment and gradient shown in the plans or set by the PE. The Contractor shall remove excess materials, and debris to an area authorized by local authorities.

5.3 Concrete Structures: This section refers to the fabrication, transportation, pouring, and respective reinforcement elements required in accordance with structural plans. The Contractor shall include with their proposal a per line item breakdown on the attached Price Breakdown Schedule.

- Concrete footing and foundation beams
- Concrete slabs for the building.
- Concrete columns, aerial beams, roof beams, lintels and confinement structure for walls.
- Concrete slab sub floor.
- Perimeter channel in concrete for water collecting.
- Sidewalks for the entrance of the building shall be constructed and shall be at least 1.00 m wide.
- Seating tiers that surrounded the central performance area in the amphitheater.
- Concrete mix design shall comply with 3000 psi at 28 days strength.

5.3.1 Concrete Forms: The PE will approve the formworks and molds, steel reinforcement, rebar arrangement, overlaps, and all related details, seven (7) days prior to the actual pour date. The forms and supports shall have the necessary resistance and rigidity to support concrete, without localized settling over 1 mm. The supports shall be arranged to never stress the completed parts of the project at a level higher than one third (1/3) of the design stress. The joints in the forms shall not have slits bigger than 3 mm to avoid grout losses, but still have enough room to avoid boards (when using wood) from shrinking and deforming due to inclement weather.

5.3.2 Concrete Pour: The Contractor shall ensure that all forms and molds are cleaned, and dampened with a non petroleum based stripper. Concrete pours shall be in one continuous operation per section. All soft concrete shall be compacted, preferably with a vibrator to ease it around embedded installations. For initial installation of clean concrete, the Contractor shall ensure the poured concrete creates a clean area of thickness = 0.05m. The Contractor shall install the reinforcement for footing and concrete IAW the approved designs. The pour shall be protected from weather and ensure the exposed concrete surface is kept constantly damp for the first seven (7) days.

5.3.3 Repairing Concrete Defects: The Contractor shall repair all defects by cutting out the defective surface, cleaned with compressed air, and filled with epoxy based concrete or mortar, per manufacturer's instructions. The Contractor shall submit epoxy specifications for PE approval, before repairs can begin. The Contractor shall not make repairs using common concrete or mortar.

5.3.4 Concrete Testing: The Contractor shall prepare and properly mark six (6) concrete test cylinders per nine (9) cubic yard batches or single mixture in strict accordance with Colombian Law 400 of 1997, and NSR-2010. The Contractor shall conduct the quality tests of concrete used. The Contractor shall provide mix design for PE approval before concrete pour. The samples shall be tested in accordance with the C39/C39M-10 Norm of the ASTM. The Contractor shall submit Laboratory Certificates including calibration of equipment to be used for all tests. All certificates/calibrations shall not be older than six months from the time the certificate is required.

5.3.5 Rebar and Ties: The Contractor shall bend the rebar with no variations greater than one centimeter. The rebar shall be tied to the formwork with wire, concrete, or stone plugs; and among themselves with iron annealed No. 16 wire. Separation between parallel rebar shall have a minimum separation equal to the diameter 1 1/3 of the greater diameters of the coarse aggregate used. Their position shall be adjusted according to the indications in the

PE approved drawings and instructions. The arrangement shall be reviewed by the PE before the pour, and any modifications noted. The Contractor shall not bend rebar in the field. Rebar in a packet shall be tightly tied together forming a single unit. Packets with more than four (4) rebar are not permitted. It may be required that the framework functions below two-thirds (2/3) of its admissible tension either by overlap or welding. The overlap of rebar packets shall be based on the packet length required, increased by 20% for three (3) rebar packets and 33% for four (4) rebar packets. The centers of the ties shall be more than 40 diameters (40 D) throughout the length of the piece. When the use of mortise is permitted, the diameter shall not be smaller than the main reinforcement.

5.3.6 Embedding: The Contractor shall ensure that for elements not exposed to the weather or ground, the minimum embedment shall be: slabs: 2 cm (0,8 in); beams and columns: 3 cm (1,2 in).

5.4 Conventional Masonry: The Contractor shall ensure that all walls be conventional masonry in No. 5 type bricks. Walls shall be plumb, seating brick in mortar at a 1:4 ratio, forming joints not thicker than 1.5 cm. Blocks with strengths and dimensions specified by structural drawings shall comply with quality and standard dimensions. The “Normas Técnicas Colombianas” (NTC) applicable to masonry, applies to this project. All bathroom divisions for shower or toilets shall be masonry. A sample of block shall be provided for PE approval a minimum of eight (8) working days prior to installation.

5.5 Metallic Structure: The Contractor shall ensure that all materials, equipment, tools, and labor are provided for the complete installation of the metallic roof structure. This shall include but not limited to the supply and installation of the required anchors to support covered areas. All metal work shall be painted with industrial anticorrosive paint at 3mils thick, and 3mils thick enamels. The Contractor shall provide, for PE approval, paint colors, patterns for placement, anchor and bolt examples, and all steel elements to be embedded in the concrete, 8 days before installation. The design of welded connections, electrodes, filler metal, labor, inspections, and tests shall follow standards determined by the latest American Welding Standards (AWS) and American Institute of Steel Construction (AISC) editions. Welding samples, methods, and electrodes shall be approved by the PE, before installation may begin. If doubts arise about a weld sample, the PE shall order trepanning tests at no cost to the government. If deficiencies are found, then all welds shall be checked, and re-welded. The joint plates for columns shall be joined by welding each side of the plate, with a minimum length of ½ the length of the plate. This includes the pergola roof in the main building.

5.6 Roof: The Contractor shall install a thermo acoustic roof tile, galvanized steel and aluminum foil tied to the metallic structure. In addition, the Contractor shall install rain gutter and downspout. The Contractor shall seal roof overhang using fascia or screens. The Contractor shall anchor the new roof frame structure to the bond beam rebar where required IAW the Contractor’s drawings. This item includes the pergola roof in the main building.

5.7 Commemorative Plate: The Contractor shall supply and install a plaque in “piedra muñeca” or a marble stone of equal color and quality of 0.50 m by 0.40 m. The text of the commemorative plate will be provided to the Contractor after final designs are approved. The final design of the plate shall be submitted to PE for approval, before the plate is produced.

NOTE: Piedra muñeca is a Colombian tan/brown marble stone used in building construction.

5.8 Flag Area: The Contractor shall design and construct a flag plaza at the cafeteria. The Contractor shall submit the design and paint colors to the PE for approval, before the flag plaza is produced. The flag area shall consist of three (3) flagpoles of 2 in diameter by 4 m high painted with minimum 3 mils each of anticorrosive and enamel paint.

5.9 Informative Banner: The Contractor shall provide and install an informative banner at the project site. The banner shall be installed within five (5) work days after the award and removed when the project is finished. The banner fabric shall be 13 oz, printed with #4x0 ink, 1.200 DPIs, and finished with metallic reinforced eyelets. The banner dimensions are 3.00 m wide and 2.00 m long. The banner shall be installed in a metallic support structure of 3.00 m wide and 5.00 m long. The banner shall include the shield of Colombia and the logotypes of the “Unidad Administrativa para la Consolidación Territorial” and “Prosperidad para Todos”. It shall also include the following

text ““Esta obra se construye para el disfrute y beneficio de la comunidad de La Uribe gracias a la gestión de su alcaldía municipal y la gobernación, en el marco de la Consolidación Territorial”. The banner shall fulfill the “Manual de Identidad corporativa” of the “Unidad Administrativa para la Consolidación Territorial”.

5.10 Provisional Fencing and Camp: The Contractor shall install provisional fencing and a camp at the start of the project development stage. Upon project completion, fence materials shall be taken down and removed from the site area, and debris shall be taken to an area indicated by the PE with information received from local authorities.

5.11 Electrical Network

5.11.1 Electrical System: The Contractor shall construct all internal electrical systems in accordance with the electric regulations in effect in Colombia, National Electric Code (NEC)/American National Standards Institute (ANSI)/Energy Information Administration (EIA)/Telecommunications Industry Association (TIA)/National Fire Protection Association (NFPA), and allow for a 30% capacity above the maximum normal usage of all electrical systems simultaneously. All designs and systems shall conform to International Electrotechnical Commission (IEC) 61024-1-2, NTC 4552, NTC 2050 and “Reglamento Técnico de Instalaciones Eléctricas” (RETIE). The system shall contain a grounding system suitable for the grounding resistance required at the project site.

NOTE: Wiring shall fulfill the following requirements:

All energy cables shall be American Wire Gauge (AWG) and have isolation Thermoplastic Heat and Water Resistant Insulated Wire (TWH) of the caliber specified and calculated IAW the calculated electric bulging loads, subject to the following color code:

- Green: Earth.
- White: Neutral.
- Black: Not regulated.
- Yellow, red, blue: Regulated.
- This code shall flow from the electrical board of distribution to the final point of exit. Joints within the system are not allowed. They shall only be in the boxes.
- Protection elements shall be from a national and recognized manufacturer, all of the same brand preferred.
- All cable ends or joints shall have the appropriate terminals or spring-like connectors for the conductors.

All electric conductors to be installed in the layout conduit shall meet the following material and installation requirements: All metallic conduits installed underground shall be painted with asphalt based paint before being covered with concrete. All exposed conduits shall receive two (2) coats of anticorrosive paint, as well as supports, accessories, and register boxes. All metallic surfaces of electronic equipment with scratches shall be repainted similar to the original.

5.11.2 Electrical House Connection: The Contractor shall provide underground Polyvinyl Chloride (PVC) pipe and include a distribution switchboard and other elements in approved drawing. The main electrical feed and entire distribution system shall comply with Colombian Electrical Code (NTC-2050).

5.11.3 Transformer: The Contractor shall transport, supply, and install one (1) transformer at the electrical power line. This transformer shall be sized IAW electrical calculations and drawings for the electrical requirements of the project. This transformer shall be used to lower the electrical voltage at the end of the electrical line connection and feed the electrical distribution panel boards in order to distribute power to the future Facilities. The transformer shall comply with Colombian Electrical Code (NTC-2050). Electrical system conditions shall be verified on site by the Contractor. The Contractor shall comply with electrical distributors/utility system requirements.

5.11.4 Internal Electrical Installations: The Contractor shall ensure that all electrical networks are in accordance with NTC-2050. Cable shall be Thermoplastic Heat and Water Resistant Nylon Coated (THWN). The Contractor shall provide calculation records showing actual load and estimated reserve charge with cable caliber for PE approval before contract acceptance. All outlets shall be grounded, and ensure they meet the needs of the project. The installation of all electrical system conduits and cabling system wires shall be of Electrical Metallic Tubing (EMT) ducts or conduits and/or metal cable trays, if they are exposed. If not, PVC conduits shall be used.

5.11.5 Grounded system and lightning protection system: The Contractor shall ensure that grounding and lightning protection system is installed IAW approved designs (paragraph 5.1.3).

5.11.6 Lighting: The Contractor shall ensure all internal and external lighting provides a minimum of luxes as required for each in “Reglamento Técnico de Iluminación y Alumbrado Público” RETILAP. For internal lighting, switches shall be located as a room is entered on the doorknob side of each door 20cm from the edge of the frame and 1.2M above finished floor level. Both the internal and external lighting systems and their accessories shall be firmly attached or embedded using installation procedures designed for that particular type of surface. Embedded lights shall be flush so that light is not filtered through around the edges or through the external slab and the molding. External lighting lux levels shall be verified at least one (1) hour after dark.

5.11.7 Electrical Outlets: The Contractor shall deliver and install the electrical outlets to include a minimum of electrical outlets as requested in the NTC-2050 and RETIE. These outlets shall be distributed in all facilities. Non-regulated power circuit shall be installed with ground connection, observing the following conditions:

- Each circuit shall be conformed to support a maximum of ten (10) double power outlets.
- Each double power outlet shall be fully identified.
- The inlet and outlet of circuits shall have on the end pressure connector or non-welded terminal.
- In each inlet only one cable shall be installed.
- Double power outlets shall be isolated polo hospital type in white color.
- All double power outlet located in wet zones shall be GFCI type.

5.11.8 Testing and launching: The entire electrical system shall be verified in the following aspects:

- Voltage Levels (phase to phase, phase to neutral)
- Continuity
- Resistance Grounding (IAW RETIE Table 24) Phase Sequence

5.12 Hydraulic, Sanitary and Storm Water Network: The Contractor shall ensure that all materials, equipment, and labor are provided for the complete installation of a potable water distribution network and wastewater drainage systems, IAW National Plumbing Code (NPC), the American Water Works Association (AWWA), and NTC 1500.

5.12.1 Main Water Feed: The Contractor shall construct the main water feed to the existing aqueduct (10 mts aprox). The Contractor shall provide and install (7) seven elevated tanks, 1000 liters each, “Colempaques” type or similar with respective floats, above bath area, and include the elevated reinforced concrete tank base. The Contractor shall construct the house connections in PVC IAW diameters provided in the Contractor’s drawings, and the manufacturer’s instructions. The Contractor shall meet established norms in plumbing code NTC 1500, and be responsible for the inspection of all plumbing materials. The Contractor shall ensure each end of the pipe is secured. The water network shall be subject to three hydraulic tests of constant pressure of 150 psi not less than 12 hours for approval by the PE. The first test shall be accomplished prior to filling trenches or covering pipe, the second test shall be done after filling, and the final shall be executed 15 days before completion of the project. Pipe to be used shall be PVC RDE 21 or better. A register (water valve) shall be installed.

NOTE: Colempaques are Colombian plastic water tanks that are normally installed as a back-up water source for buildings.

5.12.2 Hydraulic/Water Network: The Contractor shall construct all the internal hydraulic networks for the bath and kitchen areas, according to PE approved drawings provided by the contractor. After approval, they shall become part of the contract specifications. This includes all hydraulic networks (pipes, fittings, valves, outlets, and accessories) needed for the bathroom area.

5.12.3 Storm Water Network: The Contractor shall ensure that the network shall be an easy to maintain system. Concrete gutters shall be on the contiguous slope and drain to the site as indicated in the Contractor's drawings.

5.12.4 Sanitary/Sewage Network: The Contractor shall install a sanitary network, including sewage collector, internal networks for the baths and kitchen, and ventilation; IAW the Contractor's drawings. The Contractor shall build a discharge section, constructing boxes for suitable operation and respective discharge points.

5.13 Finishings: All finishing work to include the veneers, tiles, plaster, windows and doors, and paint.

5.13.1 Floor Tiles: The Contractor shall install floor tiles made for high traffic. All areas shall have broom guard using the same material. This includes all necessary door stick downs. Colors, styles, types and sizes shall be approved by the PE a minimum of eight (8) working days prior to installation.

5.13.2 Wall Tiles in kitchen and baths: Wall tiles shall be in "Ebro 972" type 20 cm x 20 cm or similar up to a height of 1.80 m. The Contractor shall provide and install metallic end caps in a professional manner. Colors, styles, types and sizes shall be approved by the PE a minimum of eight (8) working days prior to installation.

5.13.3 Stucco: Stucco shall have a 1:3 mix ratio and a minimum thickness of 1.5 cm. Within the interior of the facility, the Contractor shall apply waterproof stucco in all wall areas up to a height of 0.3m and non-waterproof stucco for the rest of the walls. Within bathrooms and the kitchen, water-proofed stucco shall be installed at full wall height. The Contractor shall install waterproof stucco on the exterior walls of the facilities throughout.

5.13.4 Drop Ceiling / Interior: The Contractor shall provide and install a drop ceiling of dry wall. The drop ceiling will be horizontal. Material shall be 11 mm minimum with metallic screws and metallic supports and tape-mesh between tiles and mastic. Colors, styles, types and sizes must be approved by the PE a minimum of eight (8) working days prior to installation.

5.13.5 Exterior and Interior Painting: The Contractor shall paint all exposed walls, exposed columns, exposed beams and exposed concrete structures with three layers of "Vinilo Eco-paint type" (or similar) paint for interiors and "Koraza" (or similar) for exteriors. This also includes a general cleaning of all existing masonry in the Facades. Ceilings, eaves, and any other part specified in the plans shall have two (2) coats of acrylic high quality weather resistant paint. All paint specifications and colors shall be approved by the PE, before application.

5.13.6 Windows: The Contractor shall provide and install as a minimum galvanized cold rolled 18 gauge laminate windows, coated with a minimum of 3 mils of anti-corrosive paint. The concept drawing shows four (4) windows, but the Contractor's design may contain more or less as long as the design allows for the maximum use of natural light. This includes installation, finishing, accessories, security bars and lintel (alfajia). All windows shall include galvanized steel security bars at a minimum of ½ inch thick, painted with anti-corrosive primer and two coats of enamel paint. Between each coat, the surface shall be lightly sanded with a fine sandpaper No.6/0, 200 or finer.

5.13.7 Doors: The Contractor shall provide and install one (1) main entrance door and one (1) rear emergency exit door with doorframes to include supply, transport, installation, all finishing accessories, and lintel, as is shown in the attached drawing. The Contractor shall install cold rolled laminate caliber 18 doorframes and doors in metallic painted with anticorrosive and enamel paints at a minimum of 3 mils thick. Between each coat, the surface shall be lightly sanded with a fine sandpaper No.6/0, 200 or finer. The style and type shall be approved by the PE a minimum of eight (8) working days prior to installation.

5.13.8 Kitchen: The Contractor shall construct the kitchen with build-in storage and apparatuses and all connections and fittings required for sink. The Contractor shall provide and install plastic protections in all the corners of the kitchen walls.

5.13.9 Concrete polished granite tables: The Contractor shall provide and install the reinforced concrete polished granite table “meson”, bear with walls, in the kitchen and restrooms area, as shown in attached schemes. This item also includes the wall to bear the tables in concrete polished granite.

Where countertop lengths greater than 1.00 m, the countertop will be cut in order to control the expansion of the material. The cuts will be covered with either a plastic or metal “T” in order to keep the surface smooth.

The Portland cement type used is gray or white, according to the specified color, the dyes are minerals special. The sand is washed coarse type, sifted and free from impurities.

The caliber of the granite shall be as specified in designs and color combinations thereof, this work must be performed by skilled labor with a minimum of 5yrs experience executing this type of work.

5.13.10 Kitchen Sinks: The Contractor shall provide all materials for the installation of one (1) stainless steel sink with one bowl for the kitchen as identified in the request for proposal drawings 55 cm X 43 cm minimum size. Style and type shall be approved by the PE a minimum of eight (8) working days prior to installation.

5.14 Equipment Calibration

5.14.1 The Contractor shall ensure all equipment used to measure any quantity needs to have a calibration date within 6 months of the date used.

5.14.2 The Contractor shall submit the calibration certificate and the certificate of the calibration agency to the PE for approval.

NOTE: Contractor shall submit drawings, materials, procedures, tests, laboratory equipments for test, laboratories to be used, material samples, etc. to the PE for approval, at least 15 days before their desired use.

5.15 Material Specifications

5.15.1 Cement: The Contractor shall ensure that the cement used in the cement mixtures shall be Type 1 Portland cement (normal) and meet all ASTM C150/C150M-09. If the project site has high sulfate content, Type V Portland cement shall be used. The Contractor shall provide additive specifications where required, before cement work is initiated.

5.15.2 Concrete: The Contractor shall ensure that all recommendations of the ACI Committee Report 301M-99 (Specifications for Structural Concrete for Buildings) or equivalent Colombian specification (NSR-10) shall be followed. All other concrete operations shall follow the Building Code Requirements for Reinforced Concrete ACI 318M-08. All the standards of the ASTM are mandatory. The specified compression resistance shall be measured at the rupture in cylinders measuring 15cm x 30 cm (6 in x 12 in), after 28 days, according to the ASTM C39/C39M-10 standards. The concrete shall have an overlap no greater than three (3) inches. Concrete used for the foundation formworks, columns, retaining walls, joints tied to the foundation, load and tie joints and remaining structural elements, shall have a compression resistance of 210 Kg/cm² (3000 lb/in²). The resistance to fluid concrete for filling the reinforced masonry blocks shall guarantee a minimum resistance of 140 Kg/cm² (2000 lb/in²).

5.15.3 Aggregates: The Contractor shall ensure that aggregates are classified by size, and stored to avoid foreign matter. They shall follow ASTM C33/C33M-11. Sand shall not contain deleterious substance in excess of the following percentages: Clay clods - 1%, Pit Coal and Lignite - 1%, Material passing #200 Screen - 3%. The size of

the crushed stone shall not be larger than 1/5 of the greatest separation from the sides of the formwork; 1/3 of the slab, or 3/4 of the free space between individual rebar or rebar ties. It shall meet the ASTM C33 standards, with its maximum dimension in accordance with Section 33 of the ACI 318M – 08 Regulation. The Contractor shall submit sample of the aggregates and the concrete mixtures, before concrete is poured.

5.15.4 Reinforced Steel: The Contractor shall provide rebar with patterns to assist adhesion. All steel shall be new billet steel conforming to ASTM A615/A615M-09b Grade 60. Rebar grade shall be 60 (420 for metric). Minimum yield strength shall be 420 MPa (60,000 psi). All dirt and non-adhered advanced state oxidation shall be removed. The rebar for setting bolts and tie anchors shall be corrugated and comply with the specifications for steel bars and smooth ingots to reinforce concrete, including complementary requirements ASTM A615/A615M-09b or NSR-2010.

5.15.5 Metallic Structure Materials: The Contractor shall ensure that the steel meets ASTM A36/A36M – 08, ASTM C500/C500M-10a and ASTM C501-07 specifications for welding structural steel, according to ASTM A755 / A755M - 03(2008). All steel shall be hot galvanized. All metal scratches and welding burrs shall be removed, and surfaces dry before anti-corrosive paint is applied. The Contractor shall provide, for PE approval, patterns for placement, anchor and bolt examples, and all steel elements to be embedded in the concrete, 8 days before installation.

5.15.6 Welding: The Contractor shall ensure that all electrodes be class E60 x AWS for structural steel and class E70 x AWS for rebar with a stress flow of 2,800 Kg/cm² (40 ksi). All structural steel elements shall be joined with the electric arc process using E 60 xx electrodes that comply with the ASTM-233 specifications. For rebar welding if required, welded ties shall conform to AWS D 1.4/D 1.4M standards, and develop at least 125% of the flow resistance specified.

5.15.7 Laminated Structural Steel: The Contractor shall ensure all structural steel, is new and complies with “Design Specifications, Fabrication and Erection for Structural Steel Buildings” of the AISC or NSR-2010 and shall be type ASTM A36/A36M-08 as certified by a laboratory, with stress in the flow limit of 2,531 Kg/square cm (36,000 lbs/in²). Structural cross-sections shall be bent cold, and parts cut when indicated. Cuts shall be with fine nozzle oxyacetylene, preferably with a saw for cross-sections.

5.15.8 Masonry Unit Blocks: The Contractor shall ensure masonry blocks are No.5 type with uniform size, color, and texture. The NTC regulation is applicable for all masonry on this project. The compression resistance shall be $f_m = 95 \text{ kg/cm}^2$ (1,350 ksi). The Unit Blocks shall be suitable for load bearing applications, and free of defects. Minor cracks from manufacturer or minor chipping from handling are not grounds for rejection. Five percent with chipping of less than 25.4 mm (1 in) in any dimension, or cracks not wider than 0.5 mm (0.02 in) but not longer than 25% of the nominal height of the unit are permitted. A sample of the block shall be provided for PE approval a minimum of eight (8) working days prior to installation.

5.15.9 Bathroom Fixtures: Not Applicable

5.15.10 Electrical Materials: The Contractor shall ensure that all materials be new and from accredited manufacturers. All work shall be performed according to the best trade practices, using specialized personnel. All defective or damaged materials and equipment shall be replaced at no cost to the government. The manufacturer data for the panels and sub-panels, conductors, layout conduit and accessories, light switches, wall sockets, controls, inside and outside lights, transformers, and medium frequency structural elements shall be given to the PE for approval, before installation. All materials used must be certified according to the separated RETIE 2.3.

5.15.10.1 Internal Electrical Installations: The Contractor shall ensure that all electrical networks are in accordance with NTC-2050. The Contractor shall provide electrical calculation showing actual load and estimated reserve load. The Contractor shall submit conductor size for PE approval before material purchase. The installation of all exposed electrical systems shall be Electrical Metallic Tubing (EMT) or metal cable trays or galvanized conduit if required IAW designs and NTC 2050. In all other installation, electrical PVC conduits schedule 40 shall be used.

5.15.10.2 Distribution Panel: The Contractor shall ensure the distribution panel(s) supplied is (are) installed according to the panel schedule design. The panel (s) used shall be complete with buss bars for phase(s), neutral, and ground. The circuit breakers shall be compatible with the panel used. All panels shall have balanced loads. The panel shall be embedded correctly and only accessible through the front. The circuit protection devices shall be thermo-magnetic for 60 cycles at capacities indicated in the plans, but never lower than 10,000 amps in a short circuit. All boards shall include signs to identify each circuit or feeder. Outlets for 220 volts shall also include separate identification. The end-user shall be given two (2) sets of instructions.

5.15.10.3 The Contractor shall supply and install the Bare Continuity Conductors IAW: NTC 2050 and RETIE.

5.15.10.4 Layout Conduit: The Contractor shall paint all metallic conduits installed underground with asphalt based paint before being covered with concrete. All exposed conduits shall receive two (2) coats of anticorrosive paint, as well as supports, accessories, and register boxes. All metallic surfaces of electronic equipment with scratches shall be repainted similar to the original.

5.15.10.5 Register Boxes: The Contractor shall ensure that the boxes have the appropriate size and type to hold the amount of conductors in accordance with Colombian regulations. Unnecessary perforations of the boxes and accessories shall be filled. Circular outlet boxes are not allowed. All boxes and accessories shall be galvanized steel, and be octagonal, square, or rectangular. All boxes exposed to the weather, shall be weather resistant. Outlet boxes for lighting units shall be installed on the surface, and be 4' x 4'' octagonal or square. Lights embedded in concrete or masonry shall be level, and the unit boxes installed during laying operations. When lights are installed on false ceilings, one register box shall be attached to the conduit, and another to the light unit. When the unit box allows, a metal flexible unit may be installed.

5.15.10.6 Conductors: The Contractor shall ensure all conductors with a minimum gauge for interior electrical systems shall be copper No. 12 AWG, and are used according to the conditions listed below:

THW (Thermoplastic Insulation, Heat Resistant (75°C), Suitable for Wet Locations) insulated cables/wires shall be used in building wiring, feeder and branch circuits, and internal secondary industrial distribution.

THHN/THWN and THWN-2 cables and wires shall be used in building wiring, feeder and branch circuits, and internal secondary industrial distribution. Thermoplastic Insulation, High Heat Resistant (90°C), shall be used in dry locations only; nylon jacket, thermoplastic insulation, heat resistant to 75°C is suitable for wet locations, nylon jacket, thermoplastic insulation, heat resistant to 90°C is suitable for wet locations; nylon jacket-2: 90°C is suitable for wet and dry locations)

These types of conductors shall be designed for use up to 600 volts. All conductors shall be copper. All conductors shall conform to the American Wire Gauge system. For identification, the same colors shall be used in the different phases and a uniform color throughout the building, according to the National Electric Code. Conductors in only one color shall be covered with colored tape. Splices within conduit are authorized (conductors shall be continuous from box to box). All underground splices shall be approved by the PE. Contractor shall only submit UL listed material for approval. All outlet or splice boxes shall have at least 20 cm of slack conductor available.

5.15.10.7 Light Switches: The Contractor shall provide all light switches for the electrical outlets IAW the electrical drawings approved by PE. All shall be with "on" in the up position. Switches shall never interrupt the neutral conductor. Light switches shall be at a height of 1.20 m above the finished floor. Light switches shall be single pole grounded and moved two ways, for 15 amps, 120 volts, AC, lever operation, National Electrical Manufacturers Association (NEMA) standard, Specification Grade, silent type.

5.15.10.8 Lights: The Contractor shall ensure that lights and accessories be firmly attached to the surfaces of the building with the correct suspension system. Embedded lights shall be flush so that light is not filtered through the slab and the molding. Fluorescent lights shall be equipped with a electronic ballast with a high power factor (0.9 or unity) approved for service at the indicated voltage. Cool white lamps shall be used. The lighting shall be

wraparound, fluorescent T5 2x32W and resistant against dust, moisture and humidity. Ballasts with two (2) tubes are preferred whenever expedient and have protection. Energy saver light bulbs shall be approved for 120-volt service and equipped with sockets. All lamps used during construction shall be replaced with new lamps, during the final contract acceptance.

5.15.10.9 Circuit Breakers: All main circuit breakers shall be molded type. Main circuit breakers shall have 25,000 amp capacity for symmetrical short circuit at 220 volts. All circuit breakers shall include name of the manufacturer, listing agency, amperage and nominal voltage ratings. All miniature circuit breakers shall have 10,000 amp capacity for symmetrical short circuit at the corresponding voltage.

5.15.10.10 Outlets: The Contractor shall provide and install outlets required IAW final electrical drawings. All receptacles shall be polarized, molded plastic and equipped with their respective cover. The normal single phase outlets shall be double, grounding two-pole, three-wire, 15 A, 125 V AC, NEMA 5-15R and white color. Wires shall be connected with appropriate polarity.

5.15.10.11 Grounding System: The Contractor shall provide and install grounding (2.4 m and 5/8") bars copper-copper type, coupled with exothermic welding.. Minimum resistance acceptable shall be IAW RETIE (chapter 15, table 24). When the resistance is not acceptable, the Contractor shall use gel to get required resistance.

5.15.11 Waste and Potable Water Equipment: The Contractor shall ensure that the systems be constructed with PVC Schedule 40, specifications ASTM D3034-08, ASTM D2729-11 and ASTM D2241-09. Accessories shall be IAW ASTM D2655-10. All valves shall be free of defects and have manufacturer label. The Contractor shall include water saving devices or flow control vales or similar devices for all water points. Bathroom fixtures shall be porcelain and shall be Lavatory Nova Type 07388 /102 or similar, toilets of type "Avanti-Ganamax" or similar (Toilets with Dual Flush: 4.5 lts flush liquids / 6lts flush solids) pedestal type and low flow type porcelain urinals wall hung type. Sinks shall be porcelain wall sink type. Additionally the contractor shall include heavy duty faucet type with aerators or water saving devices for the project. Colors, styles, types and sizes must be approved by the PE a minimum of eight (8) working days prior to purchase/installation.

5.15.12 Tiles: The Contractor shall ensure that ceramic tiles of 0.30m x 0.30m for floors be high quality, sufficient to withstand heavy traffic, with common shape and dimensions, and no defects. For bathroom floors, the tiles shall be a high quality nonskid type. PE approval is required eight (8) days prior to installations for tiles, and color selections. For wall tiles on restroom areas the Contractor shall use 0.20m x 0.20m first class, white tiles or similar. Portland ASTM C150/C150M-09 type II cement shall be used with the tiles to include whitewash with white marble dust.

5.15.13 Paint: The Contractor shall ensure that the paint manufacturers are national industries of high quality, anti-corrosive paint and enamel paint shall be type low VOC (Volatile Organic Compound) or zero VOC, also called environmentally friendly. Materials and paint brands shall be submitted for PE approval, before paint is applied. All paint shall be delivered in its original unopened packaging with labels intact. Paints shall be kept protected against fire, and damage. Ceilings, eaves, and any other part specified in the plans shall have two (2) coats of acrylic high quality weather resistant paint. The Contractor shall provide samples of wall colors, for PE approval, before paint may be applied.

5.15.14 Varnishes: The Contractor shall ensure that the cabinets, furniture, and any other element specified (for indoor use) shall be given two (2) coats of varnish. Between each coat, the surface shall be lightly sanded with a fine sandpaper No.6/0, 200 or finer.

PART 6

6. APPLICABLE CODES & STANDARDS. The design and construction shall be in accordance with established construction practices, and the latest revision/edition of the following referenced codes and standards, where

applicable. UFC 1-300-09N, Design Procedures, provides design guidance and contains references to other UFC's and codes that are to be used for this contract. UFC 1-200-1, General Building Requirements, is the building code guide and contains references to other UFC's and codes that are to be used in this contract.

- American National Standards Institute Standards (ANSI)
- American Society of Testing and Materials (ASTM)
- National Electrical Manufacturers Association (NEMA)
- International Building Code (IBC)
- Electronic Industries Alliance (EIA)
- Federal, State, County, and local environmental regulations.
- National Fire Protection Association (NFPA)
- IEEE C2, National Electrical Safety Code
- National Electric Code 2011 (NEC)
- Norma Sismo Resistente 2010 (NSR 10)
- Normas Técnicas Colombianas (NTC)
- National Fire Protection Association (NFPA)
- International Electrotechnical Commission (IEC)
- Reglamento Técnico de Instalaciones Eléctricas (RETIE)
- Reglamento Técnico de Iluminación y Alumbrado Público (RETILAP)
- Underwriters Laboratories (UL)

Where discrepancies in the referenced standards and the contract requirements occur, the more stringent requirements shall govern. If this occurs, the contractor shall immediately notify the PE.

PART 7

7. ATTACHMENT/TECHNICAL EXHIBIT LISTING

7.1 Technical Exhibit 1 – The Deliverables schedule.

7.2 Technical Exhibit 2 – Information sketch.

DELIVERABLES SCHEDULE

<u>Deliverable</u>	<u>Frequency</u>	<u># of Copies</u>	<u>Medium/Format</u>	<u>Submit To</u>
Contractor shall provide a copy of the QC plan. See paragraph 1.6.1 for additional information.	Deliverable after Contract Award	One copy, 10 days after contract award	Electronic copy, MS Word, Excel, or pdf.	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Surveying, soil study, drawings (architectural, structural, water, sanitary, storm water and electrical)	Within 30 days of contract award	1 original and 1 copy	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18

<u>Deliverable</u>	<u>Frequency</u>	<u># of Copies</u>	<u>Medium/Format</u>	<u>Submit To</u>
Submittal with the resume for all designers used for all drawings and calculations, before they start to work on those.	Within 5 days of contract award	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submittal for all materials or mix of materials to be used for the project	15 days before required use on project site	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submittal for all procedures to be used to construct the project.	15 days before required use on project site	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submittal for all tests (water pressure test, stagnant test, concrete test, backfill density test, electrical test).	Within 7 days after test is performed on site or is receive by the laboratory	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submittal for the laboratory and equipments used for all tests	15 days before required use of laboratory	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submittal for all material samples to be used on the project	5 days (min) before installation (to be submitted after material submittal is approved)	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submittal with memo about not using asbestos for any material of the project	15 days after award	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submittal for the Project Engineer/Architect, Field Engineer/Architect and Superintendent/Foreman	15 days before first construction activities	1 original	Paper (hard copy) and digital (CD)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Submit payment request IAW project inspection (to be agreed between contractor and PE previously to the submission)	Every month	1 original and 1 copy	Paper (hard copy)	Submit to the PE at the PE office located at the El Dorado Airport, Hangar 18
Reports during designs or construction (including meeting minutes)	Every two weeks	1 original	Digital (by email) and signed by Project Engineer/Architect and Field Engineer/Architect	Electronically to the PE and KO.
Final Report	For final payment	1 original	2 Digital in English	Submit to the PE at

<u>Deliverable</u>	<u>Frequency</u>	<u># of Copies</u>	<u>Medium/Format</u>	<u>Submit To</u>
			and 1 Digital in Spanish	the PE office located at the El Dorado Airport, Hangar 18

ADDENDUM TO 52.233-2

52.233-4703 HEADQUARTERS PROTEST

If you have complaints about this procurement, it is preferable that you first attempt to resolve those concerns with the responsible contracting officer. However, you can also protest to Headquarters, AMC. The HQ, AMC-Level Protest Program is intended to encourage interested parties to seek resolution of their concerns within AMC as an Alternative Dispute Resolution forum, rather than filing a protest with the General Accounting Office or other external forum. Contract award or performance is suspended during the protest to the same extent, and within the same time periods, as if filed at the GAO. The AMC protest decision goal is to resolve protests within 20 working days from filing. To be timely, protests must be filed within the periods specified in FAR 33.103. Send protests (other than protests to the contracting officer) to:

Headquarters U.S. Army Materiel Command
Office of Command Counsel
4400 Martin Road
Rm: A6SE040.001
Redstone Arsenal, AL 35898-5000

Fax: (256)450-8840

Section 00600 - Representations & Certifications

CLAUSES INCORPORATED BY REFERENCE

52.209-5 Certification Regarding Responsibility Matters

APR 2010

CLAUSES INCORPORATED BY FULL TEXT

52.203-11 CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (SEP 2007)

(a) Definitions. As used in this provision--"Lobbying contact" has the meaning provided at 2 U.S.C. 1602(8). The terms "agency," "influencing or attempting to influence," "officer or employee of an agency," "person," "reasonable compensation," and "regularly employed" are defined in the FAR clause of this solicitation entitled "Limitation on Payments to Influence Certain Federal Transactions" (52.203-12).

(b) Prohibition. The prohibition and exceptions contained in the FAR clause of this solicitation entitled "Limitation on Payments to Influence Certain Federal Transactions" (52.203-12) are hereby incorporated by reference in this provision.

(c) Certification. The offeror, by signing its offer, hereby certifies to the best of its knowledge and belief that no Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on its behalf in connection with the awarding of this contract.

(d) Disclosure. If any registrants under the Lobbying Disclosure Act of 1995 have made a lobbying contact on behalf of the offeror with respect to this contract, the offeror shall complete and submit, with its offer, OMB Standard Form LLL, Disclosure of Lobbying Activities, to provide the name of the registrants. The offeror need not report regularly employed officers or employees of the offeror to whom payments of reasonable compensation were made.

(e) Penalty. Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by 31 U.S.C. 1352. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure required to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.

(End of provision)

52.204-3 TAXPAYER IDENTIFICATION (OCT 1998)

(a) Definitions.

Common parent, as used in this provision, means that corporate entity that owns or controls an affiliated group of corporations that files its Federal income tax returns on a consolidated basis, and of which the offeror is a member.

Taxpayer Identification Number (TIN), as used in this provision, means the number required by the Internal Revenue Service (IRS) to be used by the offeror in reporting income tax and other returns. The TIN may be either a Social Security Number or an Employer Identification Number.

(b) All offerors must submit the information required in paragraphs (d) through (f) of this provision to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d), reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M, and implementing regulations issued by the IRS. If the resulting contract is subject to the payment reporting requirements described in Federal Acquisition Regulation (FAR) 4.904, the failure or refusal by the offeror to furnish the information may result in a 31 percent reduction of payments otherwise due under the contract.

(c) The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the offeror's relationship with the Government (31 U.S.C. 7701(c)(3)). If the resulting contract is subject to the payment reporting requirements described in FAR 4.904, the TIN provided hereunder may be matched with IRS records to verify the accuracy of the offeror's TIN.

(d) Taxpayer Identification Number (TIN).

TIN:-----

TIN has been applied for.

TIN is not required because:

Offeror is a nonresident alien, foreign corporation, or foreign partnership that does not have income effectively connected with the conduct of a trade or business in the United States and does not have an office or place of business or a fiscal paying agent in the United States;

Offeror is an agency or instrumentality of a foreign government;

Offeror is an agency or instrumentality of the Federal Government.

(e) Type of organization.

Sole proprietorship;

Partnership;

Corporate entity (not tax-exempt);

Corporate entity (tax-exempt);

Government entity (Federal, State, or local);

Foreign government;

International organization per 26 CFR 1.6049-4;

Other-----

(f) Common parent.

Offeror is not owned or controlled by a common parent as defined in paragraph (a) of this provision.

___ Name and TIN of common parent:

Name-----

TIN-----

(End of provision)

252.225-7031 SECONDARY ARAB BOYCOTT OF ISRAEL (JUN 2005)

(a) Definitions. As used in this provision--

(1) Foreign person means any person (including any individual, partnership, corporation, or other form of association) other than a United States person.

(2) United States means the 50 States, the District of Columbia, outlying areas, and the outer Continental Shelf as defined in 43 U.S.C. 1331.

(3) United States person is defined in 50 U.S.C. App. 2415(2) and means--

(i) Any United States resident or national (other than an individual resident outside the United States who is employed by other than a United States person);

(ii) Any domestic concern (including any permanent domestic establishment of any foreign concern); and

(iii) Any foreign subsidiary or affiliate (including any permanent foreign establishment) of any domestic concern that is controlled in fact by such domestic concern.

(b) Certification. If the offeror is a foreign person, the offeror certifies, by submission of an offer, that it--

(1) Does not comply with the Secondary Arab Boycott of Israel; and

(2) Is not taking or knowingly agreeing to take any action, with respect to the Secondary Boycott of Israel by Arab countries, which 50 U.S.C. App. 2407(a) prohibits a United States person from taking.

(End of provision)

252.247-7022 REPRESENTATION OF EXTENT OF TRANSPORTATION BY SEA (AUG 1992)

(a) The Offeror shall indicate by checking the appropriate blank in paragraph (b) of this provision whether transportation of supplies by sea is anticipated under the resultant contract. The term supplies is defined in the Transportation of Supplies by Sea clause of this solicitation.

(b) Representation. The Offeror represents that it:

___ (1) Does anticipate that supplies will be transported by sea in the performance of any contract or subcontract resulting from this solicitation.

___ (2) Does not anticipate that supplies will be transported by sea in the performance of any contract or

subcontract resulting from this solicitation.

(c) Any contract resulting from this solicitation will include the Transportation of Supplies by Sea clause. If the Offeror represents that it will not use ocean transportation, the resulting contract will also include the Defense FAR Supplement clause at 252.247-7024, Notification of Transportation of Supplies by Sea.

(End of provision)

DEC 1991

CLAUSES INCORPORATED BY FULL TEXT

52.202-1 DEFINITIONS (JAN 2012)

(a) When a solicitation provision or contract clause uses a word or term that is defined in the Federal Acquisition Regulation (FAR), the word or term has the same meaning as the definition in FAR 2.101 in effect at the time the solicitation was issued, unless--

- (1) The solicitation, or amended solicitation, provides a different definition;
- (2) The contracting parties agree to a different definition;
- (3) The part, subpart, or section of the FAR where the provision or clause is prescribed provides a different meaning; or
- (4) The word or term is defined in FAR Part 31, for use in the cost principles and procedures.

(b) The FAR Index is a guide to words and terms the FAR defines and shows where each definition is located. The FAR Index is available via the Internet at <http://www.acquisition.gov/far> at the end of the FAR, after the FAR Appendix.

(End of clause)

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract within ten (10) calendar days after the date the Contractor receives the award, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than 180 calendar days. The time stated for completion shall include final cleanup of the premises.

(End of clause)

52.216-1 TYPE OF CONTRACT (APR 1984)

The Government contemplates award of a Firm Fixed Price contract resulting from this solicitation.

(End of provision)

52.225-17 EVALUATION OF FOREIGN CURRENCY OFFERS (FEB 2000)

If the Government receives offers in more than one currency, the Government will evaluate offers by converting the foreign currency to United States currency using the Global Currency Exchange Rates Report published daily by the Charleston Financial Service Center in effect as stated below. This is the official rate to be used for all financial transactions processed by the Embassy in Bogota.

(a) For acquisitions conducted using sealed bidding procedures, on the date of bid opening.

(b) For acquisitions conducted using negotiation procedures--

(1) On the date specified for receipt of offers, if award is based on initial offers; otherwise

(2) On the date specified for receipt of proposal revisions.

(End of provision)

52.232-16 PROGRESS PAYMENTS (APR 2012)

The Government will make progress payments to the Contractor when requested as work progresses, but not more frequently than monthly, in amounts of \$2,500 or more approved by the Contracting Officer, under the following conditions:

(a) Computation of amounts. (1) Unless the Contractor requests a smaller amount, the Government will compute each progress payment as 80 percent of the Contractor's total costs incurred under this contract whether or not actually paid, plus financing payments to subcontractors (see paragraph (j) of this clause), less the sum of all previous progress payments made by the Government under this contract. The Contracting Officer will consider cost of money that would be allowable under FAR 31.205-10 as an incurred cost for progress payment purposes.

(2) The amount of financing and other payments for supplies and services purchased directly for the contract are limited to the amounts that have been paid by cash, check, or other forms of payment, or that are determined due and will be paid to subcontractors--

(i) In accordance with the terms and conditions of a subcontract or invoice; and

(ii) Ordinarily within 30 days of the submission of the Contractor's payment request to the Government.

(3) The Government will exclude accrued costs of Contractor contributions under employee pension plans until actually paid unless--

(i) The Contractor's practice is to make contributions to the retirement fund quarterly or more frequently; and

(ii) The contribution does not remain unpaid 30 days after the end of the applicable quarter or shorter payment period (any contribution remaining unpaid shall be excluded from the Contractor's total costs for progress payments until paid).

(4) The Contractor shall not include the following in total costs for progress payment purposes in paragraph (a)(1) of this clause:

(i) Costs that are not reasonable, allocable to this contract, and consistent with sound and generally accepted accounting principles and practices.

(ii) Costs incurred by subcontractors or suppliers.

(iii) Costs ordinarily capitalized and subject to depreciation or amortization except for the properly depreciated or amortized portion of such costs.

(iv) Payments made or amounts payable to subcontractors or suppliers, except for --

(A) Completed work, including partial deliveries, to which the Contractor has acquired title; and

(B) Work under cost-reimbursement or time-and-material subcontracts to which the Contractor has acquired title.

(5) The amount of unliquidated progress payments may exceed neither (i) the progress payments made against incomplete work (including allowable unliquidated progress payments to subcontractors) nor

(ii) the value, for progress payment purposes, of the incomplete work. Incomplete work shall be considered to be the supplies and services required by this contract, for which delivery and invoicing by the Contractor and acceptance by the Government are incomplete.

(6) The total amount of progress payments shall not exceed 80 percent of the total contract price.

(7) If a progress payment or the unliquidated progress payments exceed the amounts permitted by subparagraphs (a)(4) or (a)(5) of this clause, the Contractor shall repay the amount of such excess to the Government on demand.

(8) Notwithstanding any other terms of the contract, the Contractor agrees not to request progress payments in dollar amounts of less than \$2,500. The Contracting Officer may make exceptions.

(9) The costs applicable to items delivered, invoiced, and accepted shall not include costs in excess of the contract price of the items.

(b) Liquidation. Except as provided in the Termination for Convenience of the Government clause, all progress payments shall be liquidated by deducting from any payment under this contract, other than advance or progress payments, the unliquidated progress payments, or 80 percent of the amount invoiced, whichever is less. The Contractor shall repay to the Government any amounts required by a retroactive price reduction, after computing liquidations and payments on past invoices at the reduced prices and adjusting the unliquidated progress payments accordingly. The Government reserves the right to unilaterally change from the ordinary liquidation rate to an alternate rate when deemed appropriate for proper contract financing.

(c) Reduction or suspension. The Contracting Officer may reduce or suspend progress payments, increase the rate of liquidation, or take a combination of these actions, after finding on substantial evidence any of the following conditions:

(1) The Contractor failed to comply with any material requirement of this contract (which includes paragraphs (f) and (g) of this clause).

(2) Performance of this contract is endangered by the Contractor's --

(i) Failure to make progress or

(ii) Unsatisfactory financial condition.

(3) Inventory allocated to this contract substantially exceeds reasonable requirements.

(4) The Contractor is delinquent in payment of the costs of performing this contract in the ordinary course of business.

(5) The fair value of the undelivered work is less than the amount of unliquidated progress payments for that work.

(6) The Contractor is realizing less profit than that reflected in the establishment of any alternate liquidation rate in paragraph (b) of this clause, and that rate is less than the progress payment rate stated in subparagraph (a)(1) of this clause.

(d) Title.

(1) Title to the property described in this paragraph (d) shall vest in the Government. Vestiture shall be immediately upon the date of this contract, for property acquired or produced before that date. Otherwise, vestiture shall occur when the property is or should have been allocable or properly chargeable to this contract.

(2) "Property," as used in this clause, includes all of the below-described items acquired or produced by the Contractor that are or should be allocable or properly chargeable to this contract under sound and generally accepted accounting principles and practices.

(i) Parts, materials, inventories, and work in process;

(ii) Special tooling and special test equipment to which the Government is to acquire title;

(iii) Nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment, and other similar manufacturing aids, title to which would not be obtained as special tooling under paragraph (d) (2)(ii) of this clause; and

(iv) Drawings and technical data, to the extent the Contractor or subcontractors are required to deliver them to the Government by other clauses of this contract.

(3) Although title to property is in the Government under this clause, other applicable clauses of this contract; e.g., the termination clauses, shall determine the handling and disposition of the property.

(4) The Contractor may sell any scrap resulting from production under this contract without requesting the Contracting Officer's approval, but the proceeds shall be credited against the costs of performance.

(5) To acquire for its own use or dispose of property to which title is vested in the Government under this clause, the Contractor must obtain the Contracting Officer's advance approval of the action and the terms. The Contractor shall (i) exclude the allocable costs of the property from the costs of contract performance, and (ii) repay to the Government any amount of unliquidated progress payments allocable to the property. Repayment may be by cash or credit memorandum.

(6) When the Contractor completes all of the obligations under this contract, including liquidation of all progress payments, title shall vest in the Contractor for all property (or the proceeds thereof) not--

(i) Delivered to, and accepted by, the Government under this contract; or

(ii) Incorporated in supplies delivered to, and accepted by, the Government under this contract and to which title is vested in the Government under this clause.

(7) The terms of this contract concerning liability for Government-furnished property shall not apply to property to which the Government acquired title solely under this clause.

(e) Risk of loss. Before delivery to and acceptance by the Government, the Contractor shall bear the risk of loss for property, the title to which vests in the Government under this clause, except to the extent the Government expressly assumes the risk. The Contractor shall repay the Government an amount equal to the unliquidated progress payments that are based on costs allocable to property that is lost (see 45.101).

(f) Control of costs and property. The Contractor shall maintain an accounting system and controls adequate for the proper administration of this clause.

(g) Reports, forms, and access to records. (1) The Contractor shall promptly furnish reports, certificates, financial statements, and other pertinent information (including estimates to complete) reasonably requested by the Contracting Officer for the administration of this clause. Also, the Contractor shall give the Government reasonable opportunity to examine and verify the Contractor's books, records, and accounts.

(2) The Contractor shall furnish estimates to complete that have been developed or updated within six months of the date of the progress payment request. The estimates to complete shall represent the Contractor's best estimate of total costs to complete all remaining contract work required under the contract. The estimates shall include sufficient detail to permit Government verification.

(3) Each Contractor request for progress payment shall:

(i) Be submitted on Standard Form 1443, Contractor's Request for Progress Payment, or the electronic equivalent as required by agency regulations, in accordance with the form instructions and the contract terms; and

(ii) Include any additional supporting documentation requested by the Contracting Officer.

(h) Special terms regarding default. If this contract is terminated under the Default clause, (i) the Contractor shall, on demand, repay to the Government the amount of unliquidated progress payments and (ii) title shall vest in the Contractor, on full liquidation of progress payments, for all property for which the Government elects not to require delivery under the Default clause. The Government shall be liable for no payment except as provided by the Default clause.

(i) Reservations of rights.

(1) No payment or vesting of title under this clause shall --

(i) Excuse the Contractor from performance of obligations under this contract or

(ii) Constitute a waiver of any of the rights or remedies of the parties under the contract.

(2) The Government's rights and remedies under this clause

(i) Shall not be exclusive but rather shall be in addition to any other rights and remedies provided by law or this contract and

(ii) Shall not be affected by delayed, partial, or omitted exercise of any right, remedy, power, or privilege, nor shall such exercise or any single exercise preclude or impair any further exercise under this clause or the exercise of any other right, power, or privilege of the Government.

(j) Financing payments to subcontractors. The financing payments to subcontractors mentioned in paragraphs (a)(1) and (a)(2) of this clause shall be all financing payments to subcontractors or divisions, if the following conditions are met:

(1) The amounts included are limited to--

(i) The unliquidated remainder of financing payments made; plus

(ii) Any unpaid subcontractor requests for financing payments.

(2) The subcontract or interdivisional order is expected to involve a minimum of approximately 6 months between the beginning of work and the first delivery; or, if the subcontractor is a small business concern, 4 months.

(3) If the financing payments are in the form of progress payments, the terms of the subcontract or interdivisional order concerning progress payments--

(i) Are substantially similar to the terms of this clause for any subcontractor that is a large business concern, or this clause with its Alternate I for any subcontractor that is a small business concern;

(ii) Are at least as favorable to the Government as the terms of this clause;

(iii) Are not more favorable to the subcontractor or division than the terms of this clause are to the Contractor;

(iv) Are in conformance with the requirements of FAR 32.504(e); and

(v) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if--

(A) The Contractor defaults; or

(B) The subcontractor becomes bankrupt or insolvent.

(4) If the financing payments are in the form of performance-based payments, the terms of the subcontract or interdivisional order concerning payments--

(i) Are substantially similar to the Performance-Based Payments clause at FAR 52.232-32 and meet the criteria for, and definition of, performance-based payments in FAR Part 32;

(ii) Are in conformance with the requirements of FAR 32.504(f); and

(iii) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if--

(A) The Contractor defaults; or

(B) The subcontractor becomes bankrupt or insolvent.

(5) If the financing payments are in the form of commercial item financing payments, the terms of the subcontract or interdivisional order concerning payments--

(i) Are constructed in accordance with FAR 32.206(c) and included in a subcontract for a commercial item purchase that meets the definition and standards for acquisition of commercial items in FAR Parts 2 and 12;

(ii) Are in conformance with the requirements of FAR 32.504(g); and

(iii) Subordinate all subcontractor rights concerning property to which the Government has title under the subcontract to the Government's right to require delivery of the property to the Government if--

(A) The Contractor defaults; or

(B) The subcontractor becomes bankrupt or insolvent.

(6) If financing is in the form of progress payments, the progress payment rate in the subcontract is the customary rate used by the contracting agency, depending on whether the subcontractor is or is not a small business concern.

(7) Concerning any proceeds received by the Government for property to which title has vested in the Government under the subcontract terms, the parties agree that the proceeds shall be applied to reducing any unliquidated financing payments by the Government to the Contractor under this contract.

(8) If no unliquidated financing payments to the Contractor remain, but there are unliquidated financing payments that the Contractor has made to any subcontractor, the Contractor shall be subrogated to all the rights the Government obtained through the terms required by this clause to be in any subcontract, as if all such rights had been assigned and transferred to the Contractor.

(9) To facilitate small business participation in subcontracting under this contract, the Contractor shall provide financing payments to small business concerns, in conformity with the standards for customary contract financing payments stated in Subpart 32.113. The Contractor shall not consider the need for such financing payments as a handicap or adverse factor in the award of subcontracts.

(k) Limitations on undefinitized contract actions. Notwithstanding any other progress payment provisions in this contract, progress payments may not exceed 80 percent of costs incurred on work accomplished under undefinitized contract actions. A "contract action" is any action resulting in a contract, as defined in Subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes. This limitation shall apply to the costs incurred, as computed in accordance with paragraph (a) of this clause, and shall remain in effect until the contract action is definitized. Costs incurred which are subject to this limitation shall be segregated on Contractor progress payment requests and invoices from those costs eligible for higher progress payment rates. For purposes of progress payment liquidation, as described in paragraph (b) of this clause, progress payments for undefinitized contract actions shall be liquidated at 80 percent of the amount invoiced for work performed under the undefinitized contract action as long as the contract action remains undefinitized. The amount of unliquidated progress payments for undefinitized contract actions shall not exceed 80 percent of the maximum liability of the Government under the undefinitized contract action or such lower limit specified elsewhere in the contract. Separate limits may be specified for separate actions.

(l) Due date. The designated payment office will make progress payments on the 30th after the designated billing office receives a proper progress payment request. In the event that the Government requires an audit or other review of a specific progress payment request to ensure compliance with the terms and conditions of the contract, the designated payment office is not compelled to make payment by the specified due date. Progress payments are considered contract financing and are not subject to the interest penalty provisions of the Prompt Payment Act.

(m) Progress payments under indefinite--delivery contracts. The Contractor shall account for and submit progress payment requests under individual orders as if the order constituted a separate contract, unless otherwise specified in this contract.

(End of clause)

52.232-34 PAYMENT BY ELECTRONIC FUNDS TRANSFER—OTHER THAN CENTRAL CONTRACTOR REGISTRATION (MAY 1999)

(a) Method of payment. (1) All payments by the Government under this contract shall be made by electronic funds transfer (EFT) except as provided in paragraph (a)(2) of this clause. As used in this clause, the term "EFT" refers to the funds transfer and may also include the payment information transfer.

(2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--

(i) Accept payment by check or some other mutually agreeable method of payment; or

(ii) Request the Government to extend payment due dates until such time as the Government makes payment by EFT (but see paragraph (d) of this clause).

(b) Mandatory submission of Contractor's EFT information. (1) The Contractor is required to provide the Government with the information required to make payment by EFT (see paragraph (j) of this clause). The Contractor shall provide this information directly to the office designated in this contract to receive that information (hereafter: "designated office") concurrent with first request. If not otherwise specified in this contract, the payment office is the designated office for receipt of the Contractor's EFT information. If more than one designated office is named for the contract, the Contractor shall provide a separate notice to each office. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the designated office(s).

(2) If the Contractor provides EFT information applicable to multiple contracts, the Contractor shall specifically state the applicability of this EFT information in terms acceptable to the designated office. However, EFT information supplied to a designated office shall be applicable only to contracts that identify that designated office as the office to receive EFT information for that contract.

(c) Mechanisms for EFT payment. The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

(d) Suspension of payment. (1) The Government is not required to make any payment under this contract until after receipt, by the designated office, of the correct EFT payment information from the Contractor. Until receipt of the correct EFT information, any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(2) If the EFT information changes after submission of correct EFT information, the Government shall begin using the changed EFT information no later than 30 days after its receipt by the designated office to the extent payment is made by EFT. However, the Contractor may request that no further payments be made until the updated EFT information is implemented by the payment office. If such suspension would result in a late payment under the prompt payment terms of this contract, the Contractor's request for suspension shall extend the due date for payment by the number of days of the suspension.

(e) Liability for uncompleted or erroneous transfers. (1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--

(i) Making a correct payment;

(ii) Paying any prompt payment penalty due; and

(iii) Recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--

(i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or

(ii) If the funds remain under the control of the payment office, the Government shall not make payment and the provisions of paragraph (d) shall apply.

(f) EFT and prompt payment. A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(g) EFT and assignment of claims. If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall provide the EFT information required by paragraph (j) of this clause to the designated office, and shall be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.

(h) Liability for change of EFT information by financial agent. The Government is not liable for errors resulting from changes to EFT information provided by the Contractor's financial agent.

(i) Payment information. The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address in the contract.

(j) EFT information. The Contractor shall provide the following information to the designated office. The Contractor may supply this data for this or multiple contracts (see paragraph (b) of this clause). The Contractor shall designate a single financial agent per contract capable of receiving and processing the EFT information using the EFT methods described in paragraph (c) of this clause.

(1) The contract number (or other procurement identification number).

(2) The Contractor's name and remittance address, as stated in the contract(s).

(3) The signature (manual or electronic, as appropriate), title, and telephone number of the Contractor official authorized to provide this information.

(4) The name, address, and 9-digit Routing Transit Number of the Contractor's financial agent.

(5) The Contractor's account number and the type of account (checking, saving, or lockbox).

(6) If applicable, the Fedwire Transfer System telegraphic abbreviation of the Contractor's financial agent.

(7) If applicable, the Contractor shall also provide the name, address, telegraphic abbreviation, and 9-digit Routing Transit Number of the correspondent financial institution receiving the wire transfer payment if the Contractor's financial agent is not directly on-line to the Fedwire Transfer System; and, therefore, not the receiver of the wire transfer payment.

(End of clause)

52.232-36 PAYMENT BY THIRD PARTY (FEB 2010)

(a) General.

(1) Except as provided in paragraph (a)(2) of this clause, the Contractor agrees to accept payments due under this contract, through payment by a third party in lieu of payment directly from the Government, in accordance with the terms of this clause. The third party and, if applicable, the particular Governmentwide commercial purchase card to be used are identified elsewhere in this contract.

(2) The Governmentwide commercial purchase card is not authorized as a method of payment during any period the Central Contractor Registration (CCR) indicates that the Contractor has delinquent debt that is subject to collection under the Treasury Offset Program (TOP). Information on TOP is available at <http://fms.treas.gov/debt/index.html>. If the CCR subsequently indicates that the Contractor no longer has delinquent debt, the Contractor may request the Contracting Officer to authorize payment by Governmentwide commercial purchase card.

(b) Contractor payment request.

(1) Except as provided in paragraph (b)(2) of this clause, the Contractor shall make payment requests through a charge to the Government account with the third party, at the time and for the amount due in accordance with those clauses of this contract that authorize the Contractor to submit invoices, contract financing requests, other payment requests, or as provided in other clauses providing for payment to the Contractor.

(2) When the Contracting Officer has notified the Contractor that the Governmentwide commercial purchase card is no longer an authorized method of payment, the Contractor shall make such payment requests in accordance with instructions provided by the Contracting Officer during the period when the purchase card is not authorized.

(c) Payment. The Contractor and the third party shall agree that payments due under this contract shall be made upon submittal of payment requests to the third party in accordance with the terms and conditions of an agreement between the Contractor, the Contractor's financial agent (if any), and the third party and its agents (if any). No payment shall be due the Contractor until such agreement is made. Payments made or due by the third party under this clause are not payments made by the Government and are not subject to the Prompt Payment Act or any implementation thereof in this contract.

(d) Documentation. Documentation of each charge against the Government's account shall be provided to the Contracting Officer upon request.

(e) Assignment of claims. Notwithstanding any other provision of this contract, if any payment is made under this clause, then no payment under this contract shall be assigned under the provisions of the assignment of claims terms of this contract or the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727, 41 U.S.C. 15.

(f) Other payment terms. The other payment terms of this contract shall govern the content and submission of payment requests. If any clause requires information or documents in or with the payment request, that is not provided in the third party agreement referenced in paragraph (c) of this clause, the Contractor shall obtain instructions from the Contracting Officer before submitting such a payment request.

(End of clause)

52.236-2 DIFFERING SITE CONDITIONS (APR 1984)

(a) The Contractor shall promptly, and before the conditions are disturbed, give a written notice to the Contracting

Officer of

(1) subsurface or latent physical conditions at the site which differ materially from those indicated in this contract, or

(2) unknown physical conditions at the site, of an unusual nature, which differ materially from those ordinarily encountered and generally recognized as inhering in work of the character provided for in the contract.

(b) The Contracting Officer shall investigate the site conditions promptly after receiving the notice. If the conditions do materially so differ and cause an increase or decrease in the Contractor's cost of, or the time required for, performing any part of the work under this contract, whether or not changed as a result of the conditions, an equitable adjustment shall be made under this clause and the contract modified in writing accordingly.

(c) No request by the Contractor for an equitable adjustment to the contract under this clause shall be allowed, unless the Contractor has given the written notice required; provided, that the time prescribed in (a) above for giving written notice may be extended by the Contracting Officer.

(d) No request by the Contractor for an equitable adjustment to the contract for differing site conditions shall be allowed if made after final payment under this contract.

(End of clause)

52.236-3 SITE INVESTIGATION AND CONDITIONS AFFECTING THE WORK (APR 1984)

(a) The Contractor acknowledges that it has taken steps reasonably necessary to ascertain the nature and location of the work, and that it has investigated and satisfied itself as to the general and local conditions which can affect the work or its cost, including but not limited to

(1) conditions bearing upon transportation, disposal, handling, and storage of materials;

(2) the availability of labor, water, electric power, and roads;

(3) uncertainties of weather, river stages, tides, or similar physical conditions at the site;

(4) the conformation and conditions of the ground; and (5) the character of equipment and facilities needed preliminary to and during work performance. The Contractor also acknowledges that it has satisfied itself as to the character, quality, and quantity of surface and subsurface materials or obstacles to be encountered insofar as this information is reasonably ascertainable from an inspection of the site, including all exploratory work done by the Government, as well as from the drawings and specifications made a part of this contract. Any failure of the Contractor to take the actions described and acknowledged in this paragraph will not relieve the Contractor from responsibility for estimating properly the difficulty and cost of successfully performing the work, or for proceeding to successfully perform the work without additional expense to the Government.

(b) The Government assumes no responsibility for any conclusions or interpretations made by the Contractor based on the information made available by the Government. Nor does the Government assume responsibility for any understanding reached or representation made concerning conditions which can affect the work by any of its officers or agents before the execution of this contract, unless that understanding or representation is expressly stated in this contract.

(End of clause)

52.236-5 MATERIAL AND WORKMANSHIP (APR 1984)

(a) All equipment, material, and articles incorporated into the work covered by this contract shall be new and of the most suitable grade for the purpose intended, unless otherwise specifically provided in this contract. References in the specifications to equipment, material, articles, or patented processes by trade name, make, or catalog number, shall be regarded as establishing a standard of quality and shall not be construed as limiting competition. The Contractor may, at its option, use any equipment, material, article, or process that, in the judgment of the Contracting Officer, is equal to that named in the specifications, unless otherwise specifically provided in this contract.

(b) The Contractor shall obtain the Contracting Officer's approval of the machinery and mechanical and other equipment to be incorporated into the work. When requesting approval, the Contractor shall furnish to the Contracting Officer the name of the manufacturer, the model number, and other information concerning the performance, capacity, nature, and rating of the machinery and mechanical and other equipment. When required by this contract or by the Contracting Officer, the Contractor shall also obtain the Contracting Officer's approval of the material or articles which the Contractor contemplates incorporating into the work. When requesting approval, the Contractor shall provide full information concerning the material or articles. When directed to do so, the Contractor shall submit samples for approval at the Contractor's expense, with all shipping charges prepaid. Machinery, equipment, material, and articles that do not have the required approval shall be installed or used at the risk of subsequent rejection.

(c) All work under this contract shall be performed in a skillful and workmanlike manner. The Contracting Officer may require, in writing, that the Contractor remove from the work any employee the Contracting Officer deems incompetent, careless, or otherwise objectionable.

(End of clause)

52.236-7 PERMITS AND RESPONSIBILITIES (NOV 1991)

The Contractor shall, without additional expense to the Government, be responsible for obtaining any necessary licenses and permits, and for complying with any Federal, State, and municipal laws, codes, and regulations applicable to the performance of the work. The Contractor shall also be responsible for all damages to persons or property that occur as a result of the Contractor's fault or negligence. The Contractor shall also be responsible for all materials delivered and work performed until completion and acceptance of the entire work, except for any completed unit of work which may have been accepted under the contract.

(End of clause)

52.236-8 OTHER CONTRACTS (APR 1984)

The Government may undertake or award other contracts for additional work at or near the site of the work under this contract. The Contractor shall fully cooperate with the other contractors and with Government employees and shall carefully adapt scheduling and performing the work under this contract to accommodate the additional work, heeding any direction that may be provided by the Contracting Officer. The Contractor shall not commit or permit any act that will interfere with the performance of work by any other contractor or by Government employees.

(End of clause)

52.236-9 PROTECTION OF EXISTING VEGETATION, STRUCTURES, EQUIPMENT, UTILITIES, AND IMPROVEMENTS (APR 1984)

(a) The Contractor shall preserve and protect all structures, equipment, and vegetation (such as trees, shrubs, and grass) on or adjacent to the work site, which are not to be removed and which do not unreasonably interfere with the work required under this contract. The Contractor shall only remove trees when specifically authorized to do so, and shall avoid damaging vegetation that will remain in place. If any limbs or branches of trees are broken during contract performance, or by the careless operation of equipment, or by workmen, the Contractor shall trim those limbs or branches with a clean cut and paint the cut with a tree-pruning compound as directed by the Contracting Officer.

(b) The Contractor shall protect from damage all existing improvements and utilities

(1) at or near the work site, and

(2) on adjacent property of a third party, the locations of which are made known to or should be known by the Contractor. The Contractor shall repair any damage to those facilities, including those that are the property of a third party, resulting from failure to comply with the requirements of this contract or failure to exercise reasonable care in performing the work. If the Contractor fails or refuses to repair the damage promptly, the Contracting Officer may have the necessary work performed and charge the cost to the Contractor.

(End of clause)

52.236-10 OPERATIONS AND STORAGE AREAS (APR 1984)

(a) The Contractor shall confine all operations (including storage of materials) on Government premises to areas authorized or approved by the Contracting Officer. The Contractor shall hold and save the Government, its officers and agents, free and harmless from liability of any nature occasioned by the Contractor's performance.

(b) Temporary buildings (e.g., storage sheds, shops, offices) and utilities may be erected by the Contractor only with the approval of the Contracting Officer and shall be built with labor and materials furnished by the Contractor without expense to the Government. The temporary buildings and utilities shall remain the property of the Contractor and shall be removed by the Contractor at its expense upon completion of the work. With the written consent of the Contracting Officer, the buildings and utilities may be abandoned and need not be removed.

(c) The Contractor shall, under regulations prescribed by the Contracting Officer, use only established roadways, or use temporary roadways constructed by the Contractor when and as authorized by the Contracting Officer. When materials are transported in prosecuting the work, vehicles shall not be loaded beyond the loading capacity recommended by the manufacturer of the vehicle or prescribed by any Federal, State, or local law or regulation. When it is necessary to cross curbs or sidewalks, the Contractor shall protect them from damage. The Contractor shall repair or pay for the repair of any damaged curbs, sidewalks, or roads.

(End of clause)

52.236-11 USE AND POSSESSION PRIOR TO COMPLETION (APR 1984)

(a) The Government shall have the right to take possession of or use any completed or partially completed part of the work. Before taking possession of or using any work, the Contracting Officer shall furnish the Contractor a list of items of work remaining to be performed or corrected on those portions of the work that the Government intends

to take possession of or use. However, failure of the Contracting Officer to list any item of work shall not relieve the Contractor of responsibility for complying with the terms of the contract. The Government's possession or use shall not be deemed an acceptance of any work under the contract.

(b) While the Government has such possession or use, the Contractor shall be relieved of the responsibility for the loss of or damage to the work resulting from the Government's possession or use, notwithstanding the terms of the clause in this contract entitled "Permits and Responsibilities." If prior possession or use by the Government delays the progress of the work or causes additional expense to the Contractor, an equitable adjustment shall be made in the contract price or the time of completion, and the contract shall be modified in writing accordingly.

(End of clause)

52.236-12 CLEANING UP (APR 1984)

The Contractor shall at all times keep the work area, including storage areas, free from accumulations of waste materials. Before completing the work, the Contractor shall remove from the work and premises any rubbish, tools, scaffolding, equipment, and materials that are not the property of the Government. Upon completing the work, the Contractor shall leave the work area in a clean, neat, and orderly condition satisfactory to the Contracting Officer.

(End of clause)

52.236-26 PRECONSTRUCTION CONFERENCE (FEB 1995)

If the Contracting Officer decides to conduct a preconstruction conference, the successful offeror will be notified and will be required to attend. The Contracting Officer's notification will include specific details regarding the date, time, and location of the conference, any need for attendance by subcontractors, and information regarding the items to be discussed.

(End of clause)

52.242-14 SUSPENSION OF WORK (APR 1984)

(a) The Contracting Officer may order the Contractor, in writing, to suspend, delay, or interrupt all or any part of the work of this contract for the period of time that the Contracting Officer determines appropriate for the convenience of the Government.

(b) If the performance of all or any part of the work is, for an unreasonable period of time, suspended, delayed, or interrupted (1) by an act of the Contracting Officer in the administration of this contract, or (2) by the Contracting Officer's failure to act within the time specified in this contract (or within a reasonable time if not specified), an adjustment shall be made for any increase in the cost of performance of this contract (excluding profit) necessarily caused by the unreasonable suspension, delay, or interruption, and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor, or for which an equitable adjustment is provided for or excluded under any other term or condition of this contract.

(c) A claim under this clause shall not be allowed—

(1) For any costs incurred more than 20 days before the Contractor shall have notified the Contracting Officer in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from a suspension order); and

(2) Unless the claim, in an amount stated, is asserted in writing as soon as practicable after the termination of the suspension, delay, or interruption, but not later than the date of final payment under the contract.

(End of clause)

52.246-21 WARRANTY OF CONSTRUCTION (MAR 1994)

(a) In addition to any other warranties in this contract, the Contractor warrants, except as provided in paragraph (i) of this clause, that work performed under this contract conforms to the contract requirements and is free of any defect in equipment, material, or design furnished, or workmanship performed by the Contractor or any subcontractor or supplier at any tier.

(b) This warranty shall continue for a period of 1 year from the date of final acceptance of the work. If the Government takes possession of any part of the work before final acceptance, this warranty shall continue for a period of 1 year from the date the Government takes possession.

(c) The Contractor shall remedy at the Contractor's expense any failure to conform, or any defect. In addition, the Contractor shall remedy at the Contractor's expense any damage to Government-owned or controlled real or personal property, when that damage is the result of--

(1) The Contractor's failure to conform to contract requirements; or

(2) Any defect of equipment, material, workmanship, or design furnished.

(d) The Contractor shall restore any work damaged in fulfilling the terms and conditions of this clause. The Contractor's warranty with respect to work repaired or replaced will run for 1 year from the date of repair or replacement.

(e) The Contracting Officer shall notify the Contractor, in writing, within a reasonable time after the discovery of any failure, defect, or damage.

(f) If the Contractor fails to remedy any failure, defect, or damage within a reasonable time after receipt of notice, the Government shall have the right to replace, repair, or otherwise remedy the failure, defect, or damage at the Contractor's expense.

(g) With respect to all warranties, express or implied, from subcontractors, manufacturers, or suppliers for work performed and materials furnished under this contract, the Contractor shall--

(1) Obtain all warranties that would be given in normal commercial practice;

(2) Require all warranties to be executed, in writing, for the benefit of the Government, if directed by the Contracting Officer; and

(3) Enforce all warranties for the benefit of the Government, if directed by the Contracting Officer.

(h) In the event the Contractor's warranty under paragraph (b) of this clause has expired, the Government may bring suit at its expense to enforce a subcontractor's, manufacturer's, or supplier's warranty.

(i) Unless a defect is caused by the negligence of the Contractor or subcontractor or supplier at any tier, the Contractor shall not be liable for the repair of any defects of material or design furnished by the Government nor for the repair of any damage that results from any defect in Government-furnished material or design.

(j) This warranty shall not limit the Government's rights under the Inspection and Acceptance clause of this contract with respect to latent defects, gross mistakes, or fraud.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

www.acquisition.gov/far

(End of clause)

252.236-7001 CONTRACT DRAWINGS AND SPECIFICATIONS (AUG 2000)

(a) The Government will provide to the Contractor, without charge, one set of contract drawings and specifications, except publications incorporated into the technical provisions by reference, in electronic or paper media as chosen by the Contracting Officer.

(b) The Contractor shall--

(1) Check all drawings furnished immediately upon receipt;

(2) Compare all drawings and verify the figures before laying out the work;

(3) Promptly notify the Contracting Officer of any discrepancies;

(4) Be responsible for any errors that might have been avoided by complying with this paragraph (b); and

(5) Reproduce and print contract drawings and specifications as needed.

(c) In general--

(1) Large-scale drawings shall govern small-scale drawings; and

(2) The Contractor shall follow figures marked on drawings in preference to scale measurements.

(d) Omissions from the drawings or specifications or the misdescription of details of work that are manifestly necessary to carry out the intent of the drawings and specifications, or that are customarily performed, shall not relieve the Contractor from performing such omitted or misdescribed details of the work. The Contractor shall perform such details as if fully and correctly set forth and described in the drawings and specifications.

(e) The work shall conform to the specifications and the contract drawings identified on the following index of drawings:

(End of clause)

Section 00800 - Special Contract Requirements

SPECIAL CONTRACT REQUIREMENTS

1. **Type of Contract:** The purchase order resulting from this solicitation will be a firm fixed price contract payable in US Dollars for all Contractors headquartered outside of Colombia, and Colombian Pesos for Colombian Contractors. Per the local tax authority, Colombian Contractors shall submit their proposal and receive payment in the local currency. No additional sums will be payable as a result of escalations in the cost of materials, equipment, or labor due to the Contractor's failure to properly estimate or accurately predict the cost or difficulty of achieving the results required by the contract.

2. **Laws, Warranties and Insurance:** The Contractor shall obtain (at Contractor's expense) any applicable types of insurance and certifications required by Colombian law that are customary and ordinary for the type of work required in the Statement of Work (i.e., construction, electrical, communications, etc). At a minimum the policies and laws mandatory in the country of Colombia are:

2.1 **Work Quality and Stability (Warranty):** See clause 52.246-21 Warranty of Construction. This warranty shall be provided to the Contracting Officer (KO) no later than eight (8) days before the final contract acceptance date. Under this warranty, the Contractor shall be prepared to return to the work site within 48 hours after notification, without charge, to make any necessary repairs as a result of faulty workmanship.

2.2 **Wage Payment and Benefits Policy:** Shall amount to 20% of the contract value, and valid from contract commencement, to three (3) years after. The social benefits policy shall not be necessary if a certification is issued by the contractor that all staff and personnel are duly registered in a social security scheme that covers accidents, death, and hospitalization, as required by Colombian Law.

2.3 **Contract Compliance Policy:** Contractor shall provide this policy amounting to 10% of the contract value for a period up to contract term plus two (2) months.

2.4 The Contractor shall obtain adequate insurance for damage to, or theft of, materials and equipment due to transportation or storage.

2.5 **Local Laws:** The Contractor shall be responsible for complying with all local laws, codes, ordinance, and regulations applicable to work performance; to include the host country, and the lawful orders of any authority having jurisdiction. In the event of a conflict between the contract and such orders, the Contractor shall promptly advise the Project Engineer (PE) and the KO with a proposed resolution. This includes all local labor, health, environmental, and safety laws; quality assurance, and earthquake laws.

3. **Subcontractors and Supplies:** The Contractor shall satisfy all lawful claims of any persons or entities employed by them, including subcontractors, material people, and laborers, for all work performed and materials furnished under this contract. The period of coverage shall be through the warranty period. The Contractor shall not at any time permit any lien, attachment, or other encumbrance to be entered against or to remain on the building(s) , or the premises, whether public or private, or any portion thereof, as a result of nonperformance of any part of this contract.

4. **Changes to Materials or Other Items in Contractor Offer:** Contractor Proposal prices must be based on high quality materials designed for rough usage and long life. Any change in materials or other items listed in the Contractor's proposal/price breakdown worksheet requires resubmission for approval by the KO.

5. **Contractor Payments and Final Payment:** Payment will be made under Federal Acquisition Regulation (FAR) Clause 52.232-5, Payments under Fixed Price Construction. No advanced payments are authorized. Payment to all Contractors will be processed by Electronic Funds Transfer (EFT) through the US Embassy Bogota Vendor Pay section. Projects 30 days or less shall be paid in one single payment upon completion and acceptance

by the PE. If performance is greater than 30 days, progress payments for work will be authorized to be invoiced every 30 days. Final payment will be accomplished when: the work has been inspected and accepted by the Government, all submittals are presented and approved, and all work accomplished in accordance with contract terms and conditions.

6. Changes to the Contract: The KO is the only person authorized to make changes to the contract. Failure to clear changes with the KO **IN ADVANCE** of providing service shall result in the Government not being responsible for the charges, and non-payment to the Contractor. The contractor shall only take change orders from the KO. Purchases or changes from unauthorized persons may result in the contractor not receiving payment for those costs.

7. Damage to Persons or Property: The Contractor shall be responsible for all damages to persons or property as a result of negligence, and shall take proper precautions. The Contractor shall protect or repair any damage to the surrounding areas incurred during the course of the project.

8. Upon Project Completion: The following documents shall be delivered to the PE & KO prior to the Work Acceptance Document, and final payment is considered. The documents shall be in English.

8.1 Punch List: A punch list of items that need finished will be given to the contractor at inspections and they must correct any issues. A final inspection shall be completed to ensure the items were corrected.

8.2 Closing Reports and Drawings: Electronic (email/CD) closing reports of the work executed (Original and two copies, one English and one in Spanish) with: Copies of the plan, certifications, complete inventory, project description, lab test results, copy of the construction license, release of claims, maintenance manuals, and photos and video of each stage of the construction process. In the event that the requesting unit does not authorize photographs, this requirement is waived. Original and two copies of all as-built (Record Drawings) including all construction details presented on large sheets (1 m x 0, 70 m). All drawings, specifications, operation and maintenance handbooks, and any other project documents, shall belong to the United States Government upon contract completion.

8.3 Payment Certification: Written Certification of all final payments made to the suppliers, subcontractors and workers. This submission of a written certification shall be signed by an authorized representative of the company witnessing that the contractor has fully paid his suppliers, workers and subcontractors is required.

8.4 Municipality Clearance of Payments: Contractor shall submit a written certification of approval from an authorized municipality official stating that no materials and/or money are owed.

8.5 Inspection and Acceptance: A copy of the Inspection and Acceptance of the work letter signed by an authorized representative of the government.

9. Security: The U.S. Government does not provide security, therefore the responsibility for the security of contractor personnel and other construction resources are the responsibility of the contractor. The U.S. Government is not responsible for damage or loss of contractor resources due to a lack of adequate security measures.
