## CLAUSES INCORPORATED BY FULL TEXT

### 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (APR 2010)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are ( ) are not ( ) presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ( ) have not ( ), within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation); and

(C) Are ( ) are not ( ) presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision.; and

(D) Have [ballot], have not [ballot], within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples. (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has ( ) has not ( ), within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) Principal, for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

(B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIS as required through maintaining an active registration in the Central Contractor Registration database at <http://www.ccr.gov> (see 52.204-7).

(b)(1) The Contractor will receive notification when the Government posts new information to the Contractor's record.

(2) The Contractor will have an opportunity to post comments regarding information that has been posted by the Government. The comments will be retained as long as the associated information is retained, i.e., for a total period of 6 years. ## **52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)**

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

- a. Technical
- b. Past Performance

Award will be made to the lowest priced, technically acceptable proposal.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. (End of provision)

## **ADDENDUM TO FAR 52.212- 2 EVALUATION – COMMERCIAL ITEMS**

### **A. BASIS OF AWARD**

1. The Government anticipates awarding a Requirements type contract resulting from the RFQ solicitation followed by subsequent FFP TOs, as applicable; and reserves the right to not award a contract at all depending on the quality of proposals received and availability of funds. Requirements contract necessitates that the Government acquire all of its requirements for specific services during a specified period of time from a single contractor. Contract award will contain a realistic *estimate* of services that will be required since the precise service requirements cannot be pre-determined.

2. In accordance with FAR Clause 52.212-2, Evaluation – Commercial Items, award will be made to the responsible offeror whose proposal conforms to the solicitation, meets the Government's requirements and offers the best value to the Government from a lowest price, technically acceptable (LPTA) standpoint. Appropriate consideration shall be given to three (3) evaluation factors: Technical Acceptability, Past Performance and Price.

3. The Government contemplates contract award **without discussions** with Offerors, except for clarifications as described in FAR Subpart 15.3. Offeror's initial proposal should include accurate, estimated price and the best technical terms and conditions. The Government also reserves the right to conduct discussions, if the Contracting Officer determines discussions are necessary.

### **B. FACTORS AND SUB-FACTORS TO BE EVALUATED**

1. Factor I - Technical Acceptability. Proposals will be rated on an "Acceptable", or "Unacceptable" basis. In order to be considered for award, a proposal must have an "Acceptable" rating for each of the technical sub-factors

and an overall “Acceptable” technical rating. Any “Unacceptable” rating on any of the sub-factors will result in an overall technical rating of “Unacceptable”.

2. The following sub-factors shall be used to determine technical acceptability. Non-submission of any of these elements shall render the proposal technically unacceptable and shall not be considered for award. All of the sub-factors shall be clearly addressed in the proposal. The two technical sub-factors are as follows:

a. Sub-factor 1 Offeror’s Capability and Technical Approach

The offeror shall describe the company’s capabilities and the offeror’s methods and technical approach to meeting the PWS requirements in a timely and acceptable manner. The offeror shall include the following plans with the proposal:

(1) Transition Plan (Phase-in / Phase-out) Describe actions to be taken to ensure a smooth transition to assume full responsibility for performance (phase-in) and transfer of contract responsibility (phase-out) with minimal disruption to the mission.

(2) Training Plan Describe training requirements and how the offeror will initially acquire and sustain the level of training required to perform the required services.

b. Sub-factor 2 Overall Management and Staffing Plan

The offeror will provide and discuss an overall management plan for all programs and services that will be followed during contract performance. The plan shall include a comprehensive Staffing Plan and organizational chart, the number of personnel assigned (indicate if full-time or part-time) and their authority/responsibility and functions. The plan shall identify how personnel will be staffed for all functions identified in the PWS and provide a detailed narrative explanation with supporting documentation in the form of tables, charts or any other form of support that fully explains and justifies each position and the basis upon which the proposed staffing was determined. The basis of providing staffing must conform to the workload stated in the PWS. The contractor shall clearly address all of the above elements in order for the proposal to be considered technically acceptable.

c. Sub-factor 3 Key Personnel

The offeror will submit the resume of the individual proposed to fill the Lead Dispatcher position with the proposal. Resume shall include, at a minimum, the following information: name and educational background, employment history giving the name of each employer, period of employment and title, history of applicable experience only, to include name of company, period of time of experience, description of duties, level of responsibility and title. The resume must indicate whether this is for a current employee of the firm or a proposed new hire and must be accompanied by a letter of commitment from the candidate stating their intent to work for the Contractor. Resume shall clearly address and meet the minimum qualifications specified in the PWS in order to be considered technically acceptable.

2. Factor II – Past Performance: Proposals will be rated on an “Acceptable” or “Unacceptable” basis. The Government will consider three relevant past performance information (not older than three years) on “same or similar” contracts obtained from the Government and commercial sources provided by the prospective contractor. The Government may also use any other past performance information obtained from other sources during this process. There are two aspects to the past performance evaluation:

(a) Recency and Relevancy. The first aspect is to evaluate whether the offeror’s present/past performance is relevant or not relevant to the effort to be acquired. To be relevant, the effort must be the same or similar in nature, scope, size, magnitude and complexity to the services being procured under this solicitation and shall have been performed in the last three (3) years.

(b) Contractor Performance. The second aspect of the past performance evaluation is to determine how well the contractor performed on the contracts. The past performance evaluation performed in support of a current

source selection does not establish, create, or change the existing record and history of the offeror’s past performance on past contracts; rather, the past performance evaluation process gathers information from customers on how well the offeror performed those past contracts. Responses to the past performance questionnaire in the following areas will be considered in evaluating past performance information.

- (1) Quality of Service: A pattern of successful completion of tasks of good quality
- (2) Schedule/Timeliness of Performance: A pattern of submitting deliverables/completing tasks that are timely
- (3) Business Relations: A pattern of cooperativeness and teamwork with the Government at all levels (task managers, contracting officers, auditors, etc.)
- (4) Management of Personnel: A pattern of effective hiring and retention practices
- (5) A respect of stewardship of Government funds

c. In addition to the Past Performance Questionnaire, the Government may review any other sources of information for evaluating past performance. Other sources may include, but are not limited to past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) or Contract Performance Assessment Reporting System (CPARS) using all CAGE/DUNS numbers of team members (partnership, joint venture, teaming arrangement, or parent company/subsidiary/affiliate) identified in the Offeror’s proposal, inquiries of owner representative(s) and any other known sources not provided by the Offeror.

3. Factor III – Price

a. Price will not be assigned an adjectival rating; however, proposed prices evaluated as unreasonably high may be grounds for eliminating a proposal from the competitive range. Price will be evaluated to determine if the offeror’s proposed price is fair, reasonable, and balanced utilizing price analysis techniques in accordance with the guidelines in FAR 15.404-1(b). The Government will award contracts to offerors whose technically acceptable proposal represents the lowest price to the Government.

b. Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. As part of the price evaluation, the Government will evaluate the Option to Extend Services under FAR Clause 52.217-8 by adding one-half of the offeror’s final option period price to the offeror’s total price. Thus, the offeror’s total price, for the purpose of evaluation will include the prices for the base period, first option, second option and one-half of the second option. DBA insurance and travel will not be included in evaluating price. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

**C. EVALUATION APPROACH**

All proposals shall be subject to evaluation by a team of Government evaluators. Each factor and sub-factor shall be evaluated using the following assessment approaches:

1. Technical Evaluation Approach. Proposals will be rated on an “Acceptable” or “Unacceptable” basis. All technical sub-factors will receive an “Acceptable” or “Unacceptable” rating.

Rating	Description
Acceptable	Proposal clearly meets the minimum requirements of the solicitation
Unacceptable	Proposal does not clearly meet the minimum requirements of the solicitation

2. Past Performance Evaluation Approach. Proposals will be rated on an “Acceptable” or “Unacceptable” basis.

Rating	Description
Acceptable	Based on the offeror’s performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offeror’s performance record is unknown.
Unacceptable	Based on the offeror’s performance record, the Government has no reasonable expectation that the offeror will be able to successfully perform the required effort.

Note: In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance IAW FAR 15.305 (a)(2)(iv)). Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability / unacceptability, “unknown” shall be considered “acceptable.”

3. Price Evaluation Approach. Total evaluated price shall be determined by adding the total price for all options to the total price for the basic requirement. plus one-half of the offeror’s final option period price. DBA insurance and travel will not be included in evaluating price.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American Act. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that --

(1) The offeror and/or any of its principals ( ) are, ( ) are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency,

(2) ( ) Have, ( ) have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) ( ) are, ( ) are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ( ) Have, ( ) have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
