

World AIDS Day

Ambassador joins PEPFAR, PAS in the West

Ambassador Wanda L. Nesbitt led a U.S. delegation comprising PEPFAR Coordinator Jyoti Schlesinger, CDC Chief Dr. Bruce B. Struminger, USAID Representative Dr. Sibailly Toussaint, public affairs officer Sharon White, and other staff in three days of activities marking World AIDS Day (Dec. 1) in Man and Danané. In parades, booths, and caravans, partner organizations shared some of the HIV/AIDS prevention, care, and treatment work they are doing with support from PEPFAR (President's Emergency Plan for AIDS Relief).

The delegation visited with Ivorian officials, including AIDS Minister Christine Adjobi, (above) as well as PEPFAR partners, and PAS conducted its educational HIV/AIDS Road Show.
