

VISA AND PASSPORT PHOTOS

Photographs for U.S. visas and passports are not the same size or quality as photographs for French passports. Please use the following checklist for your U.S. visa photographs:

- One unsigned photograph taken within the last six months
- Size - about 2 x 2 inches (5 x 5 cm) square, with the image measured from the bottom of your chin to the top of your face, not less than 1" or more than 1-3/8" (3,5cm). There should be at least 1-1/2" (4cm) between the top of the head and the photograph's border. Do not crop the photograph.
- The photographs must be clear, front view and full face: and be printed with a white plain background. The backs must not be waxy or have a self-adhesive coating. Photos that are grainy appearance cannot be accepted.
- Photographs may be in color or in black and white, but they may not be tinted.
- Dark glasses must not be worn unless required for medical reasons
- We recommend a pleasant, relaxed pose in normal street attire, without a hat.

PHOTOGRAPHER LIST

A list of photographers in the greater Lille area is provided below. The price and the turnaround time are to be determined between the applicant and the photographer. Do not forget to specify that you wish photographs for an American visa or passport, the format being different from that of the French passport or the French national identification card.

The Consulate provides this list as a courtesy. It is not to be considered as an endorsement or recommendation.
