SCOPE OF WORK

Product/service required:

Design Build Awning for Embassy Compound Dispensers.

Date needed by:

Close of Business at your location on Friday, March 25th 2016.

Detailed Description:

The US Embassy Libreville has a requirement for a design build awning for its dispensers.

The awning should cover the dispensers including two parking slots for vehicles refill. The covered area is 8150mm*6000mm. The awning shade should be high enough for big trucks.

Designer/Fabricator/Constructor to verify all dimensions and configuration for structural integrity and constructability.

The suggested awning should be covered with heavy duty tarp (color white) attached to the structural braces within metal wires. All structural material... should be rust resistant or galvanized material.

Yellow paint should be use to match existing buildings color.

Awning structure should be grounded and bounded to the existing grounding.

Contractor may use the design below as reference.

Contractor should make sure that the awning structure does not alter the driveway or parking slots.

As necessary, drawings related to the existing underground piping will be provided to the contractor in order to avoid any damage.

Picture below are provided for reference.

The vendor is required to provide work methodology and documented experience in similar type of work (working on/around flammable location).

Pricing should be provided by line item showing a per item price multiplied out by the requested quantity.

The total order price should be summarized as one price for parts and one price for installation.

Contract vehicle: Open Market

Set-aside restrictions? There are no set-aside restrictions for this procurement

Meet or Exceed? Offers must meet or exceed requested specifications described here

Award type: Government Purchase Order

Evaluation criteria: lowest price, technically-acceptable
