SCHEDULE OF SUPPLIES/SERVICES, BLOCK 20  
DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

1. Overview

Installation services for shatter resistant window film (SRWF) to include the following:

- (a) Survey current condition and advise COR of any anticipated problems that would prevent installing the SRWF correctly.
- (b) Remove old film or tints when applicable if no longer serviceable and prepare/install new film on window(s).
- (c) Install shatter resistant window film utilizing the Embassy's current stock first. Once this stock is depleted, the contractor will supply the film (only "clear" 8 mil is acceptable).

2. Measurement

The Contractor shall measure the total area of window surfaces that are to receive application of shatter resistant window film (SRWF). Measurement may be performed by on-site surveying or through the use of record drawings. The Government will indicate which windows are to be covered with SRWF and provide film to be applied.

3. Installation

3.1 Examination and Preparation

- (a) The Contractor shall inspect existing surfaces of glazing sheets where application of film is required. The Contractor shall report to the COR and Contracting Officer:
  - (1) Any defective existing conditions that would impair successful installation and performance of applied film, such as loose installation of glass in frame.
  - (2) Recommended procedure for overcoming the defects.
- (b) The Contractor shall await response from COR before proceeding with application of film on such defective units of glazing. When approved to proceed, the Contractor shall:
  - (1) Remove (temporarily) existing shades, blinds, and draperies from window units
  - (2) Remove (temporarily) existing interior window grilles, if any.
  - (3) Remove existing shatter resistant window film, if any.

- (4) Clean the glass of paint, foreign compounds, smears, and spattered surfaces where the shatter-resistant window film is to be applied. After the initial cleaning, the Contractor shall further clean the surface to receive the film following the film manufacturer's instructions.

3.2 Application - After surface preparation, the Contractor shall apply the SRWF with the manufacturer's recommendations and instructions. The Contractor shall apply SRWF to the interior (room) side of the glass for both single and double glazed sheets, unless otherwise required by the Contracting Officer. Multiple applications of film to achieve specified performance are not allowed. The Contractor shall not apply the SRWF if there:

- (a) Visible dust particles in the air,
- (b) Frost or condensation on the glass
- (c) Cracks, breaks or damage on the glass surface
- (d) Any other condition such as temperature and/or humidity that will render film application unsuccessful

The Contractor shall follow the manufacturer's instructions on film application and room conditions to allow for proper curing of the adhesive.

The Contractor shall apply a scratch resistant hard coat over the film to extend the life of the film following the manufacturer's instructions, if any. In the absence of manufacturer's instructions, the Contractor shall consult with the Contracting Officer.

3.2.1. Application To New Glass Before Glazing - The Contractor shall apply SRWF to extend edge to edge of the glass sheet. The Contractor shall set the film-reinforced glass into the frame with glazing compounds or gaskets. When contact between the glazing compounds and/or gaskets and the SRWF occurs, the Contractor shall ensure compatibility. The Contractor is responsible for delivery of the SRWF to the appropriate location for application. The Contractor shall coordinate SRWF application and curing with the glass supplier and window or door manufacturer before to glazing installation.

3.2.2. Application To Existing Glass With Minor Dismantlement (preferred) - The Contractor shall apply the SRWF under the interior window frame and avoid leaving gaps between the film and the glass. Most windows in Greece allow easy temporary removal/reapplication of the interior frame. The interior frame should make full contact and apply pressure to the glass and film after reassembly.

3.2.3. Application To Existing Glass Without Dismantlement – When removal of the interior window frame is not possible, the Contractor shall apply SRWF to extend all the way to make contact with the frame. Visible unprotected glass areas around the edges are unacceptable. If this method is used, the contractor must apply a bead of clear silicon with polyurethane around the edges of the windows/doors ensuring that both frame and film make contact with the bead. The bead cannot be thicker than 1 cm in order not to ruin the aesthetics of the window/door.

3.2.4. Splicing - Splices or seams in shatter-resistant window film are permitted only when a sheet of glass has a dimension exceeding 48 inches (121.92 cm) when using the Embassy provided film. The contractor with the COR concurrence will make the determination if Vertical or Horizontal splicing is better suited for any given window/door. The determination will be made ensuring that the integrity of the film is not compromised as well as making sure that the window/door remains aesthetically pleasing when looking through it.

For contractor supplied film, splicing is only permitted when a sheet of glass exceeds 1.475 meters (58 inches) in both directions. All seams shall have a minimum overlap of 6-mm (1/4 inch). Proper care must be taken when utilizing tinted film, if the splice is noticeable, then the contractor will consult with the COR for other acceptable alternatives.

3.3. Cleaning - The Contractor shall follow the manufacturer's instructions for cleaning of the shatter-resistant windows.

4. Field Inspection/Quality Control

- (a) The applied SRWF shall be clean and free of bubbles (air), peeling, splitting, scratches, creases, wrinkles, discoloration, edge damage, foreign particles, and any other optical defects/distortions.
- (b) The film application shall be free of water bubbles after 30 days.
- (c) SRWF shall not show signs of waviness and distortion at the time the work is accepted.
- (d) The unaided eye (except for corrective prescription glasses) shall make this determination, when the film is viewed from a distance of 3 meters (10 feet) from the interior room side at angles up to 45 degrees when looking at a clear or uniformly overcast sky.
- (e) The Contractor shall remove unacceptable shatter-resistant window film applications following the manufacturer's instructions and apply new film.

5. Reinstallation - The Contractor shall reinstall any shades, blinds, draperies, and other window dressing elements that were temporarily removed to facilitate SRWF application. The Contractor shall reinstall any interior window grilles that were temporarily removed.

6. Warranty - The Contractor warrants items and services provided, following FAR 52.212-4, Contract Terms and Conditions-Commercial Items.

The Contractor shall obtain and furnish to the Government all information required to make any subcontractor's, manufacturer's, or supplier's guarantee or warranty legally binding and effective.

The Contractor shall submit both the information and the guarantee or warranty to the Government in sufficient time to permit the Government to meet any time limit in the guarantee or warranty, but not later than completion and acceptance of all work under this contract.

During the warranty period for the installation of the SRWF will require the Contractor at its own expense to replace the SRWF if cracking, crazing, peeling, or inadequate adhesion occurs.

7. Period Of Performance - After contract award and submission of acceptable insurance certificates, the Contracting Officer shall issue a Notice to Proceed. The Notice to Proceed will establish a date (a minimum of 10 days from date of contract award unless the Contractor agrees to an earlier date) on which performance shall start and shall continue for twelve (12) months.

All work under this contract, including clean up and reinstallation of window dressings will be based on the project time schedule provided by the contractor to the COR for each residence.

8. Contractor's Submission of Construction Schedules

- (a) The time for submission of the schedules referenced in 52.236-15, "Schedules for Construction Contracts", paragraph (a), is modified to reflect the due date for submission as "10 days after receipt of an executed contract."
- (b) These schedules shall include the time shop drawings, product data, samples and other submittals required by the contract will be submitted for approval.
- (c) The Contractor shall revise the schedules
  - (1) To account for the actual progress of the work,
  - (2) To reflect approved adjustments in the performance schedule, and
  - (3) As required by the Contracting Officer to achieve coordination with work by the Government and any separate contractors used by the Government. The Contractor shall submit a schedule that sequences work to minimize disruption at the job site.
- (d) All deliverables shall be in the English language, unless otherwise provided, and any system of dimensions (such as English or metric) shown shall be consistent with that used in the contract. The Government in approving the deliverables if the Contractor fails to act timely in submitting its deliverables shall allow no extension of time for a delay. The Contractor shall identify each deliverable as required by the contract.

9. Acceptance Of Schedule - When the Government has accepted any time schedule, it shall be binding upon the Contractor. The completion date is fixed and may be extended only by a written contract modification signed by the Contracting Officer. Acceptance or approval of any schedule or revision by the Government shall not:

- (a) Extend the completion date or obligate the Government to do so,
- (b) Constitute acceptance or approval of any delay, nor
- (c) Excuse or relieve the Contractor of its obligation to maintain the progress of the work and achieve final completion by the established completion date.

10. Work Hours - The Contractor shall perform all work during Monday to Friday from 08.30-17.00 hours except for the holidays identified below. The Contracting Officer may approve other hours. The Contractor shall give 24 hours advance notice to the Contracting Officer who may consider any deviation from the hours identified above. Changes, initiated by the Contractor, in work hours will not be cause for a price increase.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) *o* Are, *o* are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) *o* Have, *o* have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) *o* Are, *o* are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) *o* Have, *o* have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products* (*Executive Order 13126*). [*The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).*]

(2) *o* Outside the United States.

(k) *Certificates regarding exemptions from the application of the Service Contract Act.* (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [*The Contracting Officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.*]

(1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror *o* does *o* does not certify that—

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Act wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and
