

Solicitation No. SGT50016Q0037
Questions and Answers # 2

1. There are new doubts emerged analyzing drawings. The dashed line, in the topographical draw, where are marked "monumentos" is actually the property limit?

The dashed line _____ is the property line showing the landmarks or "monumentos" The fence should follow the property line except where the property includes a right of way or "derecho de via hacia Kanajuyu" and then the fence should follow the right of way to Kanajuyu.

2. So the fence should be three meters inside the dashed line. According to the amendment 2, the clean distance is three meters per side?

No. The fence shall follow the property line or the right of way to Kanajuyu as stated above. The clearing of the land or any brush, small trees, shrubs and debris shall be three meters on EACH SIDE of the FENCE. This is to comply with security requirements.

3. Should the limit of Derecho de Via be outside or inside of the fence?

See item number 1.

4. At the plot where exist sharp slope, in the way to Kanajuyu, is needed to do earthwork in the cleaning and construction of the fence.

Agreed.
