 - (3) The Contractor shall clearly document in the Trip Report any BAS problems that are found, the causes of these problems, proposed repairs/modifications to the BAS required to resolve these problems, parts required to correct these problems and a cost estimate for the proposed repairs/modifications to the BAS.
 - (4) The Contractor shall submit recommended modifications of the BAS to the COR for approval prior to performing any work. Modifications are changes to the BAS which deviate from the BAS Design or As-Built documents. These types of changes are typically associated with the Sequences of Operation, but could involve the addition or removal of sensors and/or controllers. Typically modifications will be made to resolve building operational issues or to improve/enhance BAS functionality.
- (d) **BAS Trend and Alarm Configuration:** The Contractor shall review the Alarm History and Trend log files which have accumulated since the previous visit to the site. Any problems noted from this review shall be investigated and reported on.

- (f) **Backup Retention:** The Contractor shall create a current backup of the data, programming, graphics and settings for all of the controllers in the BAS at the BAS Operator Workstation/Server. This backup shall be burned on to CD or DVD disks along with a backup of the BAS Operator Workstation/Server Software. Two sets of backup disks shall be created for each Building Automation System at American Center on which PM is performed. Each backup shall be configured to allow Facility Maintenance staff to recover the BAS in the event of a BAS failure. Both sets of backup disks shall be turned over to the Facility Manager before the Contractor departs American Center. The Contractor is not allowed to retain a copy of these backups.

- (g) Password Retention: The Contractor shall create a listing of the BAS usernames and passwords that exist within the BAS Operator Workstation and/or Server that are used to access the BAS. A BAS username/password listing shall be created for each Building Automation System at American Center on which PM is performed. These listings shall be turned over to the Facility Manager before the Contractor departs American Center. The Contractor is not allowed to retain a copy of these lists.

Annual PM Activities: At a minimum, the following PM Service activities are required to occur at least once a year. It is the intention of this SOW that tasks noted here, which cannot be realistically completed during a single site visit, shall be broken up to occur over multiple site visits.

- (b) Point-to-Point Checkout: Hardware points in the BAS shall be verified against actual field conditions. This checkout shall verify that each point indicated in the BAS is the actual physical point connected to the controller and the point is functioning properly. Any discrepancies shall be investigated and adjustments made as necessary so that all sensors monitored and devices controlled by the BAS match the associated points indicated in the BAS and provide the desired functionality.
- (c) Sensor/End Device Calibration Verification: The calibration of hardware points in the BAS shall be verified against actual field conditions. Where sensors, operators and other end devices are capable of being adjusted, the Contractor shall perform the calibration. Sensors shall be calibrated to within the accuracy range stated in the associated manufacturer's literature. Operators and other end devices shall be adjusted so that the BAS output signal corresponds to operator's or end device's full control range. Where sensors, operators and other end devices are not capable of being adjusted, the Contractor shall note the deviation between actual and measured value for sensors and between actual output function and commanded signal.
 - (1) Sensors, operators and other end devices which are not within manufacturers' recommended tolerances at the end of the calibration verification process shall be designated as failed and documented for submission to the COR.
 - (2) The contractor shall use calibrated instrumentation with a higher accuracy than the sensor, end device or operator being calibrated. Calibrated instrumentation used shall have been certified by an independent calibration agency within a year of the dates used. Certificates of calibration shall be submitted to the COR for each test instrument prior to use at American Center.

- (d) Confirmation of Sequences: Review the operation of BAS controlled equipment against the As-Built Sequences of Operation. Where functionality does not follow the Sequences of Operation, document the deviation for submission to the COR. Based on consultations with Facility Maintenance personnel and the COR appropriate action shall be determined and adjustments made if deemed necessary. Provide updated documentation (As-Built documents and Operation & Maintenance Manuals) for any adjustments made to the Sequences of Operation including operating schedules and trend reporting.

If the part that failed is available in the American Center's Spare Part Inventory and the COR permits the use of spare parts, the Contractor shall modify the proposal to utilize the spare part now and procure a replacement part to replenish the Spare Part Inventory later. If a American Center's Spare Part Inventory does not include the appropriate part or the COR will not allow the use of American Center's spare parts, the Contractor's proposal shall include procurement of the part needed and replacement of the failed part during the next PM visit to the American Center. If the American Center choses to procure the parts on their own, the contractor's proposal shall include only the costs to replace the failed part(s).
- (f) Replacement of Expendable Sensors: Sensors for which product data indicates there is a defined operating life expectancy shall be tracked and replaced at the time intervals recommended by the manufacturer. For HVAC applications these would typically be Humidity Sensors, Carbon Monoxide Sensors and Carbon Dioxide Sensors. There are other specialty sensors that can fall under this category and the Contractor shall make note of all expendable sensors installed when the initial Baseline for the BAS is developed. When called for by the replacement schedule, the contractor shall provide a proposal which lists the expiring parts along with the associated costs to procure and replace the part(s) to the COR for approval. These parts shall be replaced at the next PM visit to American Center. If the American Center choses to procure the parts on their own, the contractor's proposal shall include only the costs to replace the part(s).
- (g) Evaluate BAS End of Life Cycle: For each BAS review the system and provide direction with regard to the obsolescence of all or any portion of the system.
- (h) Review American Center's Spare Part Inventory: Review the BAS spare parts inventory at American Center and determine what parts need to be added to the inventory and update the list. Develop a recommended stock of spare parts if one does not already exist and provide it to the COR.

Manufacturers' Recommended PM: It is the responsibility of the Contractor to perform all manufacturers' recommended preventive maintenance. This shall be completed in addition to the tasks listed above if there are any discrepancies.

9.0 QUALITY ASSURANCE AND SURVEILLANCE PLAN (QASP)

9.1 This plan provides an effective method to promote satisfactory contractor performance. The QASP provides a method for the Contracting Officer's Representative (COR) to monitor Contractor performance, advise the Contractor of unsatisfactory performance, and notify the Contracting Officer of continued unsatisfactory performance. The Contractor, not the Government, is responsible for management and quality control to meet the terms of the contract. The role of the Government is to monitor quality to ensure that contract standards are achieved.

Performance Objective	Scope of Work Para	Performance Threshold
<u>Services.</u> Performs all services set forth in the scope of work.	As mentioned above	All required services are performed and no more than one (1) customer complaint is received per month.

9.2 Surveillance. The COR will receive and document all complaints from Government personnel regarding the services provided. If appropriate, the COR will send the complaints to the Contractor for corrective action.

9.3 Standard. The performance standard is that the Government receives no more than one (1) customer complaint per month. The COR shall notify the Contracting Officer of the complaints so that the Contracting Officer may take appropriate action to enforce the inspection clause (FAR 52.212-4, Contract Terms and Conditions-Commercial Items), if any of the services exceed the standard.

9.4. Procedures.

9.4.1 If any Government personnel observe unacceptable services, either incomplete work or required services not being performed they should immediately contact the COR.

9.4.2 The COR will complete appropriate documentation to record the complaint.

9.4.3 If the COR determines the complaint is invalid, the COR will advise the complainant. The COR will retain the annotated copy of the written complaint for his/her files.

9.4.4 If the COR determines the complaint is valid, the COR will inform the Contractor and give the Contractor additional time to correct the defect, if additional time is available. The COR shall determine how much time is reasonable.

9.4.5 The COR shall, as a minimum, orally notify the Contractor of any valid complaints.

9.4.6 If the Contractor disagrees with the complaint after investigation of the site and challenges the validity of the complaint, the Contractor will notify the COR. The COR will review the matter to determine the validity of the complaint.

9.4.7 The COR will consider complaints as resolved unless notified otherwise by the complainant.

9.4.8 Repeat customer complaints are not permitted for any services. If a repeat customer complaint is received for the same deficiency during the service period, the COR will contact the Contracting Officer for appropriate action under the Inspection clause.

Transitions/Contacts

The plan shall establish the projected period for completion of all clearances of contractor personnel, and the projected start date for performance of all services required under this contract. The plan shall assign priority to the selection of all supervisors to be used under the contract.

DAMAGE TO US EMBASSY PROPERTY:

The Contractor shall carry on the operation of maintenance and repair in such a manner that does not damage Embassy property. In the event damage occurs to government property or any adjacent property by reason of any service operations performed under this contract, the Contractor shall replace or repair the same at no cost to the Embassy. (h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) Are, are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which

entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products* (*Executive Order 13126*).
