Fees not exceed Rp 800.000 (including physical examination, labs, x-ray, and HIV)

## **Dr. Narain Punjabi**

Jl. Jambu No. 41-B  
Tel. 021-314-1201  
Hours: 18.30-20.00, Monday, Wednesday, and Thursday (or by appointment)  
Fees not exceed Rp 800.000 (including physical examination, labs, x-ray, and HIV)

Be sure to bring the following to your medical examination:

1. The enclosed Medical History and Physical Examination Worksheet (DS-3026)
2. The enclosed Medical Examination for Immigrant or Refugee Applicant (DS-2053)
3. The enclosed Chest X-ray and Classification Worksheet (DS-3024)
4. The enclosed Vaccination Documentation Worksheet (DS-3025)
5. Your passport and passports of all family members applying for visas
6. One photograph of each applicant

All visa applicants regardless of age need a medical examination. Children under age of 15 will not need a chest x-ray or serological test unless required by the examining physician.

**Please note** that applicants must have the medical examination result ready on the interview date, or interview cannot be conducted.

Medical examinations are taken at your own expense. They remain valid for purpose of visa issuance for one year.

## **X-RAYS**

**For Pregnant Women.** If you suspect that you are pregnant, please advise the examining physician in order that special precaution can be taken if a chest x-ray is require.

**Previous X-rays.** While previous x-rays are not normally required medical clearances, applicants who have them in their possession are advised to bring them to the clinic. This will save considerable inconvenience for applicants who need their previous x-ray results, as a decided by the examining physician for comparison purposes.

## **VACCINATIONS**

If you have written record of vaccine history you may present your record to the examining physician to be determined whether you have received a complete series of each required vaccine.

## **HIV/AIDS**

A blood test for antibody to the Human Immunodeficiency Virus (HIV) is required as part of your medical examination. HIV is the virus that is the cause of the Acquired Immune Deficiency Syndrome (AIDS). AIDS is the name given to a group of illness which may occur in persons infected with HIV. Infection with HIV causes a defect in a person's natural immunity against disease. This defect leaves infected people vulnerable to serious illness that would not usually be a threat to anyone whose immune system was intact. This test is not to diagnose AIDS, but to detect antibodies to the virus. If the result is positive, it does not necessarily mean that you have AIDS or will get it.

The results of your test will be provided to a consular officer. Also, it may be necessary to report results to the health authorities in this country.

A positive test result will mean that you will not be eligible to receive a visa. A positive test result could also have other local consequences on your day to day activities in this country.

**THE HIV TEST WILL TAKE APPROXIMATELY ONE WEEK FOR PROCESSING. YOU SHOULD MAKE EVERY EFFORT TO SCHEDULE YOUR MEDICAL EXAMINATION TO TAKE PLACE ONE WEEK OR MORE IN ADVANCE OF THE DATE OF YOUR APPOINTMENT AT THE EMBASSY TO MAKE YOUR FORMAL APPLICATION FOR AN IMMIGRANT VISA**
