Selling a Yamaha DGX-505 portable keyboard. It has an attractive, easy to use panel and a wealth of features including 88 lightly weighted piano-style keys, high resolution stereo piano sample, SmartMedia storage, USB computer connectivity, a large LCD screen capable of displaying notation and lyrics for songs. You can also record yourself playing, listen back and record over to mix tracks with other instruments. This is perfect for anyone not only looking to play the piano, but to produce and compose music with other instruments. Though I've had it for a few years it still works perfectly and I can't see any differences in the sound quality or construction from when I bought it brand new. I'm asking $500 USD or $60,000JMD which is less than half of what I paid for it. To contact me for further details or to come and look at the keyboard, please call: 775-3580
