

USAID has a periodic need for short and long term assistance in areas related to our development portfolio including, but not limited to, health, education, management, democracy and governance, energy, economic growth, monitoring and evaluation, outreach, contracting, and program. To that end we are seeking to develop a database of candidates interested in working with us and are requesting letters of interest and resumes from eligible family members and US citizens living in Jordan. Letters of interest and resumes should be addressed to: AmmanResumesUSAID@usaid.gov. Please include start and end dates of Jordan residency.
