SECTION IV EVALUATION FACTORS

52.212-2 -- Evaluation -- Commercial Items (Oct 2014)

The Government will award a contract resulting from this solicitation to the responsible offeror whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered.

The Government will determine acceptability by assessing the offeror's compliance with the terms of the RFQ. The Government will determine responsibility by analyzing whether the apparent successful quoter complies with the requirements of FAR 9.1, including:

Factor 1: Technical Capability

- Provide a brief description of how you plan to perform the work listed in the performance work statement
- Provide Schedule/Timeline for this project
- Experience/Past performance - Provide a list of contracts previously performed and points of contact with phone numbers
- Ability to comply with the required performance period, taking into consideration all existing commercial and governmental business commitments;
- Satisfactory record of integrity and business ethics;
- Have necessary qualified/certified personnel equipment and financial resources available to perform the work.
- Meet all local insurance requirements for all the personnel.
- All personnel/workers are under company's direct-hire sponsorship plan.
- Must have a valid DUNS number
- Must have active SAM registration to be eligible for award if amount exceeds US\$25,000. If SAM is not active, the offer could be deemed unacceptable and the Contracting Officer will select the next lowest acceptable bidder with active SAM, and so on.

Factor 2: Price - Prices will be evaluated for reasonableness.

Award will be made to the quoter submitting the lowest priced technically acceptable quote.

A written notice of award or acceptance of an offer mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

STATEMENT OF WORK (SOW)

Replace Cracking Concrete Sidewalks at Embassy Compound area:

1.0 INTRODUCTION:

1.1 The U.S. Embassy in Kuwait has a requirement to obtain the Services of a Contractor to replace cracking concrete sidewalks at Embassy Compound area. The contractor is required to visit the Embassy at Kuwait to inspect the existing concrete.

2.0 GENERAL REQUIREMENTS:

2.1 The work shall be executed in a diligent manner in accordance with a negotiated firm fixed price and performance period. The period of performance for the project shall be 30 working days. Work shall be performed during regular office hours. The Contractor shall not have access to the building interior except with permission by the Embassy.

2.2 The Contractor shall be required to prepare his own BOQ from the Site Visit and provide Dimensions of the elements at the location indicating for example rates in Sqm or linier meter, along with drawing and quality control schedules. These documents shall provide the necessary interfaces, coordination, and communication among the Embassy and Contractor for the delivery of the completed project.

3.0 SCOPE OF WORK:

3.1 The Contractor shall be required to prepare a price and indicate the Bill of Materials [BOM] and all product data of all materials to be used on the project. The BOM's shall list the materials in sufficient detail and specifications, so that this document can be used by the Embassy to approve the use of all materials along with presented samples.

3.2 Logistics:

- Staging/storage areas available on grounds (Limited Space availability).
- Contractor to provide all Materials, labor and Equipment necessary to complete the project.

3.3 Materials and Equipment:

All Materials and equipment required for the satisfactory completion of the project shall be considered to be included and accounted for by the contractor.

3.4 Labor:

All Labor required for the satisfactory completion of the project shall be considered to be included and accounted for by the contractor.

3.5 General Scope of replace the cracking concrete sidewalks at Embassy Compound area:

The general work required is outlined below and is not limited to the following:

- Lay out and mark all areas of replacement. Ensure area is properly cordoned off from pedestrian traffic.
- Demo existing sidewalk and remove areas to be replaced to the nearest joint or saw cut. All demolished concrete and trash will be removed from site on a daily basis and disposed of in an appropriate location as per local government guidelines.
- Cut walls of demolition to produce vertical edges.
- Compact sub-grade to ninety-five percent (95%) standard density using a steel wheel roller or vibra-plate compactor, adding cushion sand or base material as necessary.
- Install forms as necessary to retain and support concrete. Forms should be straight, free from warping, and strong enough to resist the lateral pressure of the concrete. A form release agent should be applied to ease stripping.
- Reinforce with #3 rebar at 46cm on center with dowels placed into adjacent concrete on 46cm intervals. Dowels will be inserted into existing concrete a minimum of 15cm.
- Concrete specs are as follows: Strength (25 to 35 MPa), Minimum Cement Content (333 kg/m³), Maximum Size of Coarse Aggregate (19 mm), Slump (50 to 100 mm) and air entrainment (5.5 to 8%).
- Place air entrained concrete to a minimum depth of 15cm, and make flush with existing sidewalk. Concrete should be placed continuously as close as possible to its final position and be consolidated.
- Expansion joints consisting of 12 mm of compressible material will be placed at 15-m intervals along the sidewalk and wherever the sidewalk abuts another rigid structure.
- Control joints (cut lines) should be provided at intervals of about 1.2 to 2 m transversely along the length of the sidewalk. The joint will be saw cut or trowel cut about one quarter the depth of the slab.
- Concrete surface should be light broom finish.

- Apply curing Compound and provide protection against elements necessary to promote curing of new installation.
- Remove forms and backfill adjacent disturbed areas using onsite materials. Any damages caused to the adjacent locations, areas, items (irrigation/water lines, sprinkler system, grass if any) have to be restored to its original conditions by the contractor.
- All necessary safety precautions, barricading the area with appropriate signage will be installed by the contractor to protect the pedestrian traffic.
- Anything else not mentioned above but necessary to ensure a satisfactory completion of the work and in line with on site instructions received from the Embassy / CO /POSHO/authorized representatives.
- **Warranty:**
- 2 years on the installed concrete for major cracks, damages, splinting/ chipping.
- All sample of products/materials used for this project should be submitted for review and approval.

3.6 Cleaning:

Clean area of work and restore all items to their existing conditions at the end of each day as long as they do not affect the next day progress. The work site shall always be kept clean and clear of obstructions as the residence shall be in use and the work should pose the least impact upon the general day to day use of the property.

4 CONTRACT ADMINISTRATION:

- 4.1 The Embassy does not make representations or warranties of whatsoever kind or nature, either expressed or implied, as to the quality, level of completion, accuracy, extent of compliance with the standards, codes and requirements described or referred to in this SOW, or the extent of coordination between or among the documents provided to the Contractor.
- 4.2 The Embassy has the right to inspect and test all services called for by the contract, to the extent practicable at all times and places during the term of the contract. The COR/FAC/POSHO Office will perform quality assurance inspections [QAI] and tests during installation to confirm the work is installed according to the SOW.
