The Contractor is not required to move furniture within the residence after the first placing of furniture.

The Contractor shall inquire of the client at the time arrangements are made for delivery, if the shipments include large items such as pianos, freezers, refrigerators, etc. The Contractor shall have piano boards and other necessary tools and equipment on hand to open containers and safely move these items.

The Contractor shall unpack the client's household effects and remove all debris the same day the effects are delivered, or by the close of the next working day; unless the client requests removal of debris at a later date.

Non-availability of suitable vehicles shall not constitute acceptable justification for late pickup or delivery, or for additional costs to the Government.

19. COMPUTATION OF WEIGHTS

Gross Weight - see "Definitions," paragraph 2.

Net Weight - See "Definitions," paragraph 2.

Gross Weight is calculated by adding the Net Weight of the contents to the weight of the shipping container and any bracing material used to secure articles in the container. The Contractor shall designate and the COR shall approve a scale to be used for determination of shipment weights. The

scale must be officially certified by **Department, Ministry of Finance in Lao P.D.R.** as accurate and must continually display documentation in testimony thereof. All official certificates of accuracy must be periodically updated and recertified to ensure there is no lapse of certification.

The COR or an appointed representative may be present at the scale site when any shipment weight is taken to witness the accuracy of the reading. The Contractor shall submit to the COR with each invoice a weight certificate, signed by the Government employees for whom services were rendered, and the name of any Government employee who witnessed the weight reading.

When the Net Weight of a shipment has not been determined by actual measurement before shipment occurs, for payment purposes the Net Weight shall be defined as two thirds of the Gross Weight of the shipment. With the invoice for each shipment, the Contractor shall submit a written justification describing why the shipment could not be weighed before it was shipped.

20. QUALITY ASSURANCE AND SURVEILLANCE PLAN (QASP)

This plan provides an effective method to promote satisfactory contractor performance. The QASP provides a method for the Contracting Officer's Representative (COR) to monitor Contractor performance, advise the Contractor of unsatisfactory performance, and notify the Contracting Officer of continued unsatisfactory performance. The Contractor, not the Government, is responsible for management and quality control to meet the terms of the contract. The role of the Government is to monitor quality to ensure that contract standards are achieved.

Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
- (C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
