

Ambassador discusses integrated education

October 20, 2011

On October 20th, Ambassador Wohlers met with OSCE High Commissioner on National Minorities Vollebaek, Deputy Prime Minister Arifi, Minister of Science and Education Kraleov, Deputy Minister Neziri, and representatives of other organizations to discuss the issue of integrated education in Macedonia's schools.

Underscoring the US government's support, Ambassador Wohlers noted that integrated education will help to ensure that all children in Macedonia, regardless of ethnic group, receive a quality education that promotes respect for diversity and a stable multi-ethnic environment.

He also announced that USAID will launch a 4-year, \$5.2 million project in November to promote and support integrated education.
