Ambassador Announces New American Corner Stip Location

On March 1, Ambassador Wohlers was joined by Stip Mayor Aleksov, Rector of Goce Delcev University Mitrev, and Director of Goce Delcev Library Lazarova, to announce the future move of American Corner Stip to a new space within the Goce Delcev Library in Stip. The Ambassador also met separately with Mayor Aleksov to discuss the excellent partnership between the U.S. Embassy Macedonia and the Municipality of Stip. Later, the Ambassador visited and presented certificates of completion to participants of an embassy-sponsored women's empowerment project, implemented by NGO Sinergija. In addition, several

American Corner Stip members and Peace Corps Volunteers met informally with the Ambassador at a local cafe in Stip to discuss project ideas. The Stip visit concluded with a tour of the Johnson Controls which has started producing car covers in a temporary facility; the plant will eventually employ 500 people.
