Worldbex 2010 Showcases Major U.S. Suppliers of Building Products and Construction Equipment

U.S. suppliers of building products and construction equipment will showcase their products at the U.S. Pavilion of Worldbex 2010, the 15th Philippine World Building and Construction Exposition to be held on March 17-21 at the World Trade Center Metro Manila.

The U.S. Embassy will host a Catalog Show at Booth No. 725 with brochures about the products and services of U.S. companies for possible agents, distributors and buyers.

The products and services of these U.S. companies include: hot mix asphalt equipment; portable and stationary asphalt facility equipment; soil remediation equipment; portable, stationary and roller compacted concrete mixing plants; used construction equipment; plumbing, air conditioning, ventilating, electrical, lighting, security and other builders' hardware items; maintenance supplies; spray polyurethane insulation that can improve energy efficiency and protect against sound, dust and pests; 5005 alloy anodized sheet and coil; cold formed steel trusses, wall panels and floor systems, and metal or plywood decking for non-combustible buildings.

In addition, the U.S. Pavilion will feature exciting offerings from brand-name manufacturers such as water meters from Badger Meter; Bomanite stamped concrete; Delta faucets; Detex security door hardware; Dolt Best paints; Drylock paints; Durolast roofings; Franklin Electric pumps; In-Sink-Erator food waste disposer; Masonite doors; Pentek filters; Simpson Strong-Tie structural connectors, shearwalls, anchors and fastening systems; Solar Guard window films; Xtraseal sealants; and Zar paints and varnish removers.

Admission at Worldbex 2009 is free. For inquiries about the Catalog Show of the U.S. Commercial Service, please contact Lolit Rivera at 888-6077/888-4088.
