

Connect to the Online World: Basic Information Literacy Research for Technology Students

USG Websites

Science and Technology Section of the IIP Digital Collection

State Department's Bureau of International Information Programs (IIP) engages international audiences on issues of foreign policy, society and values to help create an environment receptive to U.S. national interests.

IIP communicates with foreign opinion makers and other publics through a wide range of print and electronic outreach materials published in English, Arabic, Chinese, French, Persian, Russian, and Spanish. IIP also provides information outreach support to U.S. embassies and consulates in more than 140 countries worldwide.

The AMERICAN SPACES CONNECT is the electronic information dissemination service of the Thomas Jefferson Information Center (TJIC), designed to provide current information about issues, debates and commentaries in the United States. Internet users may access the full text of some titles directly from the Internet. The TJIC is open Monday through Friday, except American and Philippine holidays, from 8:00 a.m. to 4:00 p.m. by appointment only. For inquiries, please contact us at 301-2558, 301-2561 (phone) ; 301-2469 (fax) ; mnljtjic@state.gov (e-mail)

AMERICAN SPACES CONNECT

The Official Information Dissemination Service of the Thomas Jefferson Information Center

July 25, 2013

Technology News Websites

THE NEXT WEB – This site's strength lies in providing news and views from an international perspective, with writers coming from Europe, Australasia, Middle East, Asia, Africa, North and South America. The site's informal design is a welcome respite from many of the tech sites we see every day.
<http://thenextweb.com/>

SEARCH ENGINE LAND – For search engine news and reviews, SEO, search engine marketing, and news about the three major search engines – Google, Yahoo and Bing, expect this site to provide the latest for you. <http://searchengineland.com/>

ALL THINGS DIGITAL – The Wall Street Journal's tech blog hub continues to provide us with hard-hitting, far-reaching news, opinion and commentary on the tech industry.
<http://allthingsd.com/>

THE DIGITIMES – A great source of industry news from Asia's technology hubs with most of them the US news media have not yet picked up on, with close ties to Asian component manufacturers.
<http://www.digitimes.com/index.asp>

TECH CRUNCH – Completing the web's top three widely read and major tech news site (the other two being Engadget and Mashable), Techcrunch still may be the ultimate source for anything and everything on startups, Web 2.0, social networking and of course VCs. Whether the site is breaking interesting news or providing exclusive coverage, TC is among the premiere source of information.
<http://techcrunch.com/>

Mobile Application News Websites

MASHABLE – Another widely read tech news site, Mashable clearly deserves its reputation for being among the foremost providers of in-depth news and analysis of all Web 2.0 startups and applications. The site continues to provide us with feature top lists, startup reviews, and comprehensive industry-specific comparative articles. The addition of Mashable Job Board has also been a welcome feature.
<http://mashable.com/>

GOOGLE MOBILE BLOG – If you want the latest news about the Android platform, Android tablets, Google mobile apps on both iPhone and Android devices, this site should be one of your RSS feeds.
<http://googlemobile.blogspot.com/>

INTOMOBILE – The guys running this site seem to work 24/7. Whether the site is breaking exclusive news or simply covering all mobile-related tidbits, it is gradually becoming the major source for mobile related news, views and opinions. <http://www.intomobile.com/>
