

The official African Delegation to POWER-GEN and DistribuTECH Africa

**Join the U.S. Embassy's African
Delegation to the POWER-GEN &
DistribuTECH Africa show during March
17-19, 2014 in Cape Town South Africa**

Enjoy this world class show from only \$560 US per delegate

POWER-GEN Africa together with the inaugural DistribuTECH Africa conference and exhibition will present for the first time, a joint conference and exhibition that covers all aspects of the power industry from generation to supply and delivery in one of the most exciting markets in the world.

The Conference

- POWER-GEN will host eminent speakers drawn from government, private enterprise and academia across the region and internationally.
- Present informative presentations and panel discussions on wide-ranging issues and challenges.
- Ministerial and governmental representatives, executive management and professionals from the entire power sector – generation, transmission and distribution – all under one roof.
- High level of attendance by industry professionals.

The Exhibition

- One of the region's largest showcases of equipment and technologies by leading energy manufacturers and suppliers.
- Over 100 exhibiting companies from around the globe.
- A unique opportunity to view first-hand, interactive demonstrations and wide-ranging display of innovative products serving the generation and transmission & distribution markets.
