

Community Solutions Program Information Session

Are you currently engaged in community development work? Do you have the potential to be a leader and change-maker in your community? Are you looking for a career development opportunity to increase your professional skills, experience and networks? If you answered yes to the above questions then please stop by the Environmental Camps for Conservation Awareness (Jwagol, Kupondol-10, Lalitpur) on Wednesday, May 1st from 9AM until 12PM to learn more about how you can take part in the [Community Solutions Program](#).

The [Community Solutions Program](#)—a program sponsored by the U.S. Department of State’s Bureau of Educational and Cultural Affairs—is a US-based professional development program for young leaders from around the world who are engaged in and committed to community development work and have experience in one of the following four areas: Transparency & Accountability, Tolerance and Conflict Resolution, Women’s Issues and Environmental Issues. The program brings over 60 community leaders a year for a four-month period to the US for a hands-on fellowship with a community development organization and intensive online leadership and management courses.

For more information about the [Community Solutions Program please visit the program website](#) (<http://irex.org/project/community-solutions>) and see the attached flyer. For questions about Community Solutions Program technical eligibility requirements please click [here](#). Please direct any questions you may have about the Information Session on May 1st to Tom Kelly at tkelly@irex.org.
