AMERICAN WEEK AT THE SULTAN CENTER

U.S. Ambassador to Oman Dr. Richard J. Schmierer inaugurates American Week

The U.S. Agricultural Trade Office in Dubai, in cooperation with the U.S. Embassy in Muscat, The Sultan Center (TSC), and Delta Airlines organized American Week from September 28 to October 4, 2011. The event was inaugurated by H.E. Richard J. Schmierer, U.S. Ambassador to Oman, at TSC's outlet in Qurum. The event showcased nearly 4,000 U.S. products ranging from food to sports and household goods. The event included a special display of U.S. products, a tasting activity, and an all-American menu that was served at Jeans Grill Restaurant. Also, TSC loyalty customers who purchased any two American products qualified for an electronic draw to win two roundtrip tickets to the continental U.S. on Delta Airlines. The event was a great opportunity to showcase American products.

American Week Celebration at The Sultan Center Outlet in Qurum

Klein Tools Exhibits at Infra Oman

Klein Tools, Inc. produces various hand tools used in construction, electrical and telecommunications, mining, and general industries. Klein's products are available around the world through a well-established network of agents and distributors who stock products required for their particular markets. Klein Tools visited Oman to identify potential agents in-country.

Emily Shaffer, Economic and Commercial Officer at U.S. Embassy Muscat, meets with a representative of Klein Tools

Medi-Dyne Explores Omani Market

Medi-Dyne exhibits at MedHealth and Wellness Exhibition at the Oman International Exhibition Center

Medi-Dyne Healthcare Products is a global health care company dedicated to providing innovations in pain prevention. Medi-Dyne's contributions to the health care market include over 60 patented foot care, blister care, stretching, and strengthening innovations. Medi-Dyne currently does business in 70 countries and is planning to enter the Omani market.

PetroTel Awarded Its Second Concession in Oman

The subsidiary company of the Texas-based company PetroTel was awarded a license to explore hydrocarbons in Block 40 of northern Oman. PetroTel Oman Offshore, LLC signed an Exploration and Production Sharing Agreement (EPSA) with the Ministry of Oil and Gas. PetroTel has committed to invest USD35 million in a number of activities during the appraisal phase. Block 40 was previously explored by other companies without any successful commercial discoveries.

CoreSulphur to Jointly Establish Sulphur Bentonite Fertilizer Project in Oman

A proven partner for fertilizer manufacturers, refineries and sulphur producers

The California-based company CoreSulphur along with the two Oman-based companies, Awtad Projects and Development and Takamul Investment Company, has formed Sohar Sulphur Fertilizer, LLC to develop a major sulphur bentonite and micronutrient complex in Oman. The plant will be located in Sohar and the basic input for the project - sulphur - will be sourced from the Sohar Refinery. The plant is expected to be operational by the end of the second quarter of 2012.

GlassPoint to Build Solar EOR System in Oman

The California-based company GlassPoint Solar won a contract to build a seven-megawatt, solar-enhanced oil recovery (EOR) system for Petroleum Development Oman (PDO). The system will be used for one of the pilot projects in southern Oman and is expected to reduce the natural gas requirement for EOR by up to 80%. This will help Oman use natural gas for other applications and hence spur economic and industrial development.

International WorkBoat Show 2011, November 30 to December 2 in New Orleans, LA

The International WorkBoat Show is the largest commercial marine trades show in North America serving people and businesses working on the coastal, inland, and offshore waters. This trade show showcases the leading commercial marine manufacturers, boat builders, distributors, and service providers as well as the latest technologies and thousands of products for offshore supply vessels, tugs, barges, boat building, marine construction, passenger vessels, commercial fishing vessels, and more.
