REQUEST FOR QUOTATIONS - CONSTRUCTION

A. PRICE

The Contractor shall complete all work, including furnishing all labor, material, equipment and services required under this purchase order for the following firm fixed price and within the time specified. This price shall include all labor, materials, all insurances, overhead and profit.

Total Price (including all labor, materials, overhead and profit)	
---	--

A.1 VALUE ADDED TAX

Value added tax is not applicable to this contract as it is not levied in Pakistan. All other applicable taxes are responsibility of the contractor.

B. SCOPE OF WORK

The character and scope of the work are set forth in the contract. The Contractor shall furnish and install all materials required by this contract.

In case of differences between small and large-scale drawings, the latter will govern. Where a portion of the work is drawn in detail and the remainder of the work is indicated in outline, the parts drawn in detail shall apply also to all other portions of the work.

C. PACKAGING AND MARKING

Reserved

## D. INSPECTION AND ACCEPTANCE

The COR, or his/her authorized representatives, will inspect from time to time the services being performed and the supplies furnished to determine whether work is being performed in a satisfactory manner, and that all supplies are of acceptable quality and standards.

The Contractor shall be responsible for any countermeasures or corrective action, within the scope of this contract, which may be required by the Contracting Officer as a result of such inspection.

### D.1 SUBSTANTIAL COMPLETION

(a) "*Substantial Completion*" means the stage in the progress of the work as determined and certified by the Contracting Officer in writing to the Contractor, on which the work (or a portion designated by the Government) is sufficiently complete and satisfactory. Substantial completion means that the property may be occupied or used for the purpose for which it is intended, and only minor items such as touch-up, adjustments, and minor replacements or installations remain to be completed or corrected which:

- (1) do not interfere with the intended occupancy or utilization of the work, and
- (2) can be completed or corrected within the time period required for final completion.

(b) The "date of substantial completion" means the date determined by the Contracting Officer or authorized Government representative as of which substantial completion of the work has been achieved.

Use and Possession upon Substantial Completion - The Government shall have the right to take possession of and use the work upon substantial completion. Upon notice by the Contractor that the work is substantially complete (a Request for Substantial Completion) and an inspection by the Contracting Officer or an authorized Government representative (including any required tests), the Contracting Officer shall furnish the Contractor a Certificate of Substantial Completion. The certificate will be accompanied by a Schedule of Defects listing items of work remaining to be performed, completed or corrected before final completion and acceptance. Failure of the Contracting Officer to list any item of work shall not relieve the Contractor of responsibility for complying with the terms of the contract. The Government's possession or use upon substantial completion shall not be deemed an acceptance of any work under the contract.

### D.2 FINAL COMPLETION AND ACCEPTANCE

D.2.1 "Final completion and acceptance" means the stage in the progress of the work as determined by the Contracting Officer and confirmed in writing to the Contractor, at which all work required under the contract has been completed in a satisfactory manner, subject to the discovery of defects after final completion, and except for items specifically excluded in the notice of final acceptance.

D.2.2 The "*date of final completion and acceptance*" means the date determined by the Contracting Officer when final completion of the work has been achieved, as indicated by written notice to the Contractor.

D.2.3 FINAL INSPECTION AND TESTS. The Contractor shall give the Contracting Officer at least five (5) days advance written notice of the date when the work will be fully completed and ready for final inspection and tests. Final inspection and tests will be started not later than the date specified in the notice unless the Contracting Officer determines that the work is not ready for final inspection and so informs the Contractor.

D.2.4 FINAL ACCEPTANCE. If the Contracting Officer is satisfied that the work under the contract is complete (with the exception of continuing obligations), the Contracting Officer shall issue to the Contractor a notice of final acceptance and make final payment upon:

- Satisfactory completion of all required tests,
- A final inspection that all items by the Contracting Officer listed in the Schedule of Defects have been completed or corrected and that the work is finally complete (subject to the discovery of defects after final completion), and
- Submittal by the Contractor of all documents and other items required upon completion of the work, including a final request for payment (Request for Final Acceptance).

E. DELIVERIES OR PERFORMANCE

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK  
(APR 1984)

The Contractor shall be required to:

- (a) commence work under this contract within Ten (10) calendar days after the date the Contractor receives the notice to proceed,
- (b) prosecute the work diligently, and,
- (c) complete the entire work ready for use not later than Seventy (70) working days after issuance of "Notice to Proceed"

The time stated for completion shall include the completion of punch list items and final cleanup of the premises.

52.211-12 LIQUIDATED DAMAGES - CONSTRUCTION (SEPT 2000)

(a) If the Contractor fails to complete the work within the time specified in the contract, or any extension, the Contractor shall pay liquidated damages to the Government in the amount of **PKR 10,000.00** for each calendar day of delay until the work is completed or accepted.

(b) If the Government terminates the Contractor's right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Default clause.

CONTRACTOR'S SUBMISSION OF CONSTRUCTION SCHEDULES

(a) The time for submission of the schedules referenced in FAR 52.236-15, "Schedules for Construction Contracts", paragraph (a), is hereby modified to reflect the due date for submission as "**Ten (10)**" calendar days after receipt of an executed contract".

(b) These schedules shall include the time by which shop drawings, product data, samples and other submittals required by the contract will be submitted for approval.

(c) The Contractor shall revise such schedules (1) to account for the actual progress of the work, (2) to reflect approved adjustments in the performance schedule, and (3) as required by the Contracting Officer to achieve coordination with work by the Government and any separate contractors used by the Government. The Contractor shall submit a schedule, which sequences work so as to minimize disruption at the job site.

(d) All deliverables shall be in the English language and any system of dimensions (English or metric) shown shall be consistent with that used in the contract. No extension of time shall be allowed due to delay by

the Government in approving such deliverables if the Contractor has failed to act promptly and responsively in submitting its deliverables. The Contractor shall identify each deliverable as required by the contract.

(e) Acceptance of Schedule: When the Government has accepted any time schedule; it shall be binding upon the Contractor. The completion date is fixed and may be extended only by a written contract modification signed by the Contracting Officer. Acceptance or approval of any schedule or revision thereof by the Government shall not:

- (1) Extend the completion date or obligate the Government to do so,
- (2) Constitute acceptance or approval of any delay, or
- (3) Excuse the Contractor from or relieve the Contractor of its obligation to maintain the progress of the work and achieve final completion by the established completion date.

#### NOTICE OF DELAY

If the Contractor receives a notice of any change in the work, or if any other conditions arise which are likely to cause or are actually causing delays which the Contractor believes may result in late completion of the project, the Contractor shall notify the Contracting Officer. The Contractor's notice shall state the effect, if any, of such change or other conditions upon the approved schedule, and shall state in what respects, if any, the relevant schedule or the completion date should be revised. The Contractor shall give such notice promptly, not more than ten (10) days after the first event giving rise to the delay or prospective delay. Only the Contracting Officer may make revisions to the approved time schedule.

## NOTICE TO PROCEED

(a) After receiving and accepting any bonds or evidence of insurance, the Contracting Officer will provide the Contractor a Notice to Proceed. The Contractor must then prosecute the work, commencing and completing performance not later than the time period established in the contract.

(b) It is possible that the Contracting Officer may elect to issue the Notice to Proceed before receipt and acceptance of any bonds or evidence of insurance. Issuance of a Notice to Proceed by the Government before receipt of the required bonds or insurance certificates or policies shall not be a waiver of the requirement to furnish these documents.

## WORKING HOURS

All work shall be performed during **0800 – 1630 hrs, from Monday through Friday**. Other hours, if requested by the Contractor, may be approved by the Contracting Officer's Representative (COR). The Contractor shall give 24 hours in advance to COR who will consider any deviation from the hours identified above. Changes in work hours, initiated by the Contractor, will not be a cause for a price increase.

## PRECONSTRUCTION CONFERENCE

A preconstruction conference will be held 10 days after contract award at **US Embassy, Islamabad or at the site** to discuss the schedule, submittals, notice to proceed, mobilization and other important issues that effect construction progress. See FAR 52.236-26, Preconstruction Conference.

F. ADMINISTRATIVE DATA

652.242-70 CONTRACTING OFFICER'S REPRESENTATIVE (COR) (AUG 1999)

(a) The Contracting Officer may designate in writing one or more Government employees, by name or position title, to take action for the Contracting Officer under this contract. Each designee shall be identified as a Contracting Officer's Representative (COR). Such designation(s) shall specify the scope and limitations of the authority so delegated; provided, that the designee shall not change the terms or conditions of the contract, unless the COR is a warranted Contracting Officer and this authority is delegated in the designation.

(b) The COR for this contract is **Senior Facilities Engineer, US Embassy, Islamabad.**

Payment: The Contractor's attention is directed to Section H, 52.232-5, "Payments Under Fixed-Price Construction Contracts". The following elaborates on the information contained in that clause.

Requests for payment, may be made no more frequently than monthly. Payment requests shall cover the value of labor and materials completed and in place, including a prorated portion of overhead and profit.

After receipt of the Contractor's request for payment, and on the basis of an inspection of the work, the Contracting Officer shall make a determination as to the amount, which is then due. If the Contracting Officer does not approve payment of the full amount applied for, less the retainage allowed by in 52.232-5, the Contracting Officer shall advise the Contractor as to the reasons.

Under the authority of 52.232-27(a), the 14 day period identified in FAR 52.232-27(a)(1)(i)(A) is hereby changed to 30 days.

Financial Management Officer, U.S Embassy, Diplomatic Enclave, Ramna-5, Sector G-5, Islamabad

G. SPECIAL REQUIREMENTS

G.1.0 PERFORMANCE/PAYMENT PROTECTION - The Contractor shall furnish some form of payment protection as described in 52.228-13 in the amount of 20% of the contract price in the form of bonds, irrevocable letters of credit, insurance guarantee or bank guarantees.

G.1.1 The Contractor shall provide the information required by the paragraph above within ten (10) calendar days after award. Failure to timely submit the required security may result in rescinding or termination of the contract by the Government. If the contract is terminated, the Contractor will be liable for those costs as described in FAR 52.249-10, Default (Fixed-Price Construction), which is included in this purchase order.

G.1.2 The bonds or alternate performance security shall guarantee the Contractor's execution and completion of the work within the contract time. This security shall also guarantee the correction of any defects after completion, the payment of all wages and other amounts payable by the Contractor under its subcontracts or for labor and materials, and the satisfaction or removal of any liens or encumbrances placed on the work.

G.1.3 The required securities shall remain in effect in the full amount required until final acceptance of the project by the Government. Upon final acceptance, the penal sum of the performance security shall be reduced to 10% of the contract price. The security shall remain in effect for one year after the date of final completion and acceptance, and the Contractor shall pay any premium required for the entire period of coverage.

G.2.0 INSURANCE - The Contractor is required by FAR 52.228-5, "Insurance - Work on a Government Installation" to provide whatever insurance is legally necessary. The Contractor shall at its own expense provide and maintain during the entire performance period the following insurance amounts:

G.2.1 GENERAL LIABILITY (includes premises/operations, collapse hazard, products, completed operations, contractual, independent contractors, broad form property damage, personal injury) :

(1) BODILY INJURY, ON OR OFF THE SITE, IN U.S. DOLLARS	
Per Occurrence	<b>50,000 PKR</b>
Cumulative	<b>250,000 PKR</b>
(2) PROPERTY DAMAGE, ON OR OFF THE SITE, IN U.S. DOLLARS	
Per Occurrence	<b>50,000 PKR</b>
Cumulative	<b>250, 000 PKR</b>

G.2.2 The foregoing types and amounts of insurance are the minimums required. The Contractor shall obtain any other types of insurance required by local law or that are ordinarily or customarily obtained in the location of the work. The limit of such insurance shall be as provided by law or sufficient to meet normal and customary claims.

G.2.3 The Contractor agrees that the Government shall not be responsible for personal injuries or for damages to any property of the Contractor, its officers, agents, servants, and employees, or any other person, arising from and incident to the Contractor's performance of this contract. The Contractor shall hold harmless and indemnify the Government from any and all claims arising therefrom, except in the instance of gross

negligence on the part of the Government.

G.2.4 The Contractor shall obtain adequate insurance for damage to, or theft of, materials and equipment in insurance coverage for loose transit to the site or in storage on or off the site.

G.2.5 The general liability policy required of the Contractor shall name "the United States of America, acting by and through the Department of State", as an additional insured with respect to operations performed under this contract.

### G.3.0 DOCUMENT DESCRIPTIONS

G.3.1 SUPPLEMENTAL DOCUMENTS: The Contracting Officer shall furnish from time to time such detailed drawings and other information as is considered necessary, in the opinion of the Contracting Officer, to interpret, clarify, supplement, or correct inconsistencies, errors or omissions in the Contract documents, or to describe minor changes in the work not involving an increase in the contract price or extension of the contract time. The Contractor shall comply with the requirements of the supplemental documents, and unless prompt objection is made by the Contractor within 20 days, their issuance shall not provide for any claim for an increase in the Contract price or an extension of contract time.

G.3.1.1. RECORD DOCUMENTS. The Contractor shall maintain at the project site:

- (1) a current marked set of Contract drawings and specifications indicating all interpretations and clarification, contract modifications, change orders, or any other departure from the contract requirements approved by the Contracting Officer; and,
- (2) a complete set of record shop drawings, product data, samples and other submittals as approved by the Contracting Officer.

G.3.1.2 "As-Built" Documents: After final completion of the work, but before final acceptance thereof, the Contractor shall provide:

- (1) a complete set of "as-built" drawings, based upon the record set of drawings, marked to show the details of construction as actually accomplished; and,
- (2) record shop drawings and other submittals, in the number and form as required by the specifications.

G.4.0 LAWS AND REGULATIONS - The Contractor shall, without additional expense to the Government, be responsible for complying with all laws, codes, ordinances, and regulations applicable to the performance of the work, including those of the host country, and with the lawful orders of any governmental authority having jurisdiction. Host country authorities may not enter the construction site without the permission of the Contracting Officer. Unless otherwise directed by the Contracting Officer, the Contractor shall comply with the more stringent of the requirements of such laws, regulations and orders and of the contract. In the event of a conflict between the contract and such laws, regulations and orders, the Contractor shall promptly advise the Contracting Officer of the conflict and of the Contractor's proposed course of action for resolution by the Contracting Officer.

G.4.1 The Contractor shall comply with all local labor laws, regulations, customs and practices pertaining to labor, safety, and similar matters, to the extent that such compliance is not inconsistent with the requirements of this contract.

G.4.2 The Contractor shall give written assurance to the Contracting Officer that all subcontractors and others performing work on or for the project have obtained all requisite licenses and permits.

G.4.3 The Contractor shall submit proper documentation and evidence satisfactory to the Contracting Officer of compliance with this clause.

G.5.0 CONSTRUCTION PERSONNEL - The Contractor shall maintain discipline at the site and at all times take all reasonable precautions to prevent any unlawful, riotous, or disorderly conduct by or among those employed at the site. The Contractor shall ensure the preservation of peace and protection of persons and property in the neighborhood of the project against such action. The Contracting Officer may require, in writing that the Contractor remove from the work any employee that the Contracting Officer deems incompetent, careless, insubordinate or otherwise objectionable, or whose continued employment on the project is deemed by the Contracting Officer to be contrary to the Government's interests.

G.5.1 If the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this contract, the Contractor shall immediately give notice, including all relevant information, to the Contracting Officer.

G.5.2 After award, the Contractor has ten calendar days to submit to the Contracting Officer a list of workers and supervisors assigned to this project for the Government to conduct all necessary security checks. It is anticipated that security checks will take 14 Days to perform. For each individual the list shall include:

- Full Name
- Place and Date of Birth
- Current Address
- Identification number
- Copy of Valid Computerized National Identity Card issued by GOP along with verification from NADRA

Failure to provide any of the above information may be considered grounds for rejection and/or resubmittal of the application. Once the Government has completed the security screening and approved the applicants a badge will be provided to the individual for access to the site. This badge may be revoked at any time due to the falsification of data, or misconduct on site.

G.5.3 The Contractor shall provide an English speaking supervisor on site at all times. This position is considered as key personnel under this purchase order.

G.6.0 Materials and Equipment - All materials and equipment incorporated into the work shall be new and for the purpose intended, unless otherwise specified. All workmanship shall be of good quality and performed in a skillful manner that will withstand inspection by the Contracting Officer.

#### G.7.0 SPECIAL WARRANTIES

G.7.1 Any special warranties that may be required under the contract shall be subject to the stipulations set forth in 52.246-21, "Warranty of Construction", as long as they are not in conflict.

G.7.2 The Contractor shall obtain and furnish to the Government all information required to make any subcontractor's, manufacturer's, or supplier's guarantee or warranty legally binding and effective. The Contractor shall submit both the information and the guarantee or warranty to the Government in sufficient time

to permit the Government to meet any time limit specified in the guarantee or warranty, but not later than completion and acceptance of all work under this contract.

#### G.8.0 EQUITABLE ADJUSTMENTS

Any circumstance for which the contract provides an equitable adjustment that causes a change within the meaning of paragraph (a) of the "Changes" clause shall be treated as a change under that clause; provided, that the Contractor gives the Contracting Officer prompt written notice (within 20 days) stating:

- (a) the date, circumstances, and applicable contract clause authorizing an equitable adjustment and
- (b) that the Contractor regards the event as a changed condition for which an equitable adjustment is allowed under the contract

The Contractor shall provide written notice of a differing site condition within 10 calendar days of occurrence following FAR 52.236-2, Differing Site Conditions.

#### G.9.0 ZONING APPROVALS AND PERMITS

The Government shall be responsible for:

- obtaining proper zoning or other land use control approval for the project
- obtaining the approval of the Contracting Drawings and Specifications
- paying fees due for the foregoing; and,
- for obtaining and paying for the initial building permits.

## H. CLAUSES

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. The following Department of State Acquisition Regulation (DOSAR) clause(s) is/are set forth in full text:

652.204-70 DEPARTMENT OF STATE PERSONAL IDENTIFICATION CARD ISSUANCE PROCEDURES (MAY 2011)

(a) The Contractor shall comply with the Department of State (DOS) Personal Identification Card Issuance Procedures for all employees performing under this contract who require frequent and continuing access to DOS facilities, or information systems. The Contractor shall insert this clause in all subcontracts when the subcontractor's employees will require frequent and continuing access to DOS facilities, or information systems.

(b) The DOS Personal Identification Card Issuance Procedures may be accessed at <http://www.state.gov/m/ds/rls/rpt/c21664.htm>.

(End of clause)

652.229-71 PERSONAL PROPERTY DISPOSITION AT POSTS ABROAD (AUG 1999)

Regulations at 22 CFR Part 136 require that U.S. Government employees and their families do not profit personally from sales or other transactions with persons who are not themselves entitled to exemption from import restrictions, duties, or taxes. Should the Contractor experience importation or tax privileges in a foreign country because of its contractual relationship to the United States Government, the Contractor shall observe the requirements of 22 CFR Part 136 and all policies, rules, and procedures issued by the chief of mission in that foreign country.

(End of clause)

CONTRACTOR IDENTIFICATION (JULY 2008)

Contract performance may require contractor personnel to attend meetings with government personnel and the public, work within government offices, and/or utilize government email.

Contractor personnel must take the following actions to identify themselves as non-federal employees:

- 1) Use an e-mail signature block that shows name, the office being supported and company affiliation (e.g. "John Smith, Office of Human Resources, ACME Corporation Support Contractor");
- 2) Clearly identify themselves and their contractor affiliation in meetings;
- 3) Identify their contractor affiliation in Departmental e-mail and phone listings whenever contractor personnel are included in those listings; and
- 4) Contractor personnel may not utilize Department of State logos or indicia on business cards.

(End of clause)

652.236-70 ACCIDENT PREVENTION (APR 2004)

(a) *General.* The Contractor shall provide and maintain work environments and procedures which will safeguard the public and Government personnel, property, materials, supplies, and equipment exposed to contractor operations and activities; avoid interruptions of Government operations and delays in project completion dates; and, control costs in the performance of this contract. For these purposes, the Contractor

shall:

- (1) Provide appropriate safety barricades, signs and signal lights;
- (2) Comply with the standards issued by any local government authority having jurisdiction over occupational health and safety issues; and,
- (3) Ensure that any additional measures the Contracting Officer determines to be reasonably necessary for this purpose are taken.
- (4) For overseas construction projects, the Contracting Officer shall specify in writing additional requirements regarding safety if the work involves:

- (i) Scaffolding;
- (ii) Work at heights above two (2) meters;
- (iii) Trenching or other excavation greater than one (1) meter in depth;
- (iv) Earth moving equipment;
- (v) Temporary wiring, use of portable electric tools, or other recognized electrical hazards.

Temporary wiring and portable electric tools require the use of a ground fault circuit interrupter (GFCI) in the affected circuits; other electrical hazards may also require the use of a GFCI;

(vi) Work in confined spaces (limited exits, potential for oxygen less than 19.5 percent or combustible atmosphere, potential for solid or liquid engulfment, or other hazards considered to be immediately dangerous to life or health such as water tanks, transformer vaults, sewers, cisterns, etc.);

(vii) Hazardous materials – a material with a physical or health hazard including but not limited to, flammable, explosive, corrosive, toxic, reactive or unstable, or any operations which creates any kind of contamination inside an occupied building such as dust from demolition activities, paints, solvents, etc.; or

(viii) Hazardous noise levels.

(b) *Records.* The Contractor shall maintain an accurate record of exposure data on all accidents incident to work performed under this contract resulting in death, traumatic injury, occupational disease, or damage to or theft of property, materials, supplies, or equipment. The Contractor shall report this data in the manner prescribed by the Contracting Officer.

(c) *Subcontracts.* The Contractor shall be responsible for its subcontractors' compliance with this clause.

(d) *Written program.* Before commencing work, the Contractor shall:

(1) Submit a written plan to the Contracting Officer for implementing this clause. The plan shall include specific management or technical procedures for effectively controlling hazards associated with the project; and,

(2) Meet with the Contracting Officer to discuss and develop a mutual understanding relative to administration of the overall safety program.

(e) *Notification.* The Contracting Officer shall notify the Contractor of any non-compliance with these requirements and the corrective actions required. This notice, when delivered to the Contractor or the Contractor's representative on site, shall be deemed sufficient notice of the non-compliance and corrective action required. After receiving the notice, the Contractor shall immediately take corrective action. If the Contractor fails or refuses to promptly take corrective action, the Contracting Officer may issue an order suspending all or part of the work until satisfactory corrective action has been taken. The Contractor shall not be entitled to any equitable adjustment of the contract price or extension of the performance schedule on any suspension of work order issued under this clause.

(End of clause)

652.242-73 AUTHORIZATION AND PERFORMANCE (AUG 1999)

(a) The Contractor warrants the following:

(1) That is has obtained authorization to operate and do business in the country or countries in which this contract will be performed;

(2) That is has obtained all necessary licenses and permits required to perform this contract; and,

(3) That it shall comply fully with all laws, decrees, labor standards, and regulations of said country or countries during the performance of this contract.

(b) If the party actually performing the work will be a subcontractor or joint venture partner, then such subcontractor or joint venture partner agrees to the requirements of paragraph (a) of this clause.

(End of clause)

652.243-70 NOTICES (AUG 1999)

Any notice or request relating to this contract given by either party to the other shall be in writing. Said notice or request shall be mailed or delivered by hand to the other party at the address provided in the schedule of the contract. All modifications to the contract must be made in writing by the Contracting Officer.

L.3. 52.225-18 PLACE OF MANUFACTURE (SEPT 2006)

(a) *Definitions.* As used in this clause—

“Manufactured end product” means any end product in Federal Supply Classes (FSC) 1000-9999, except—

- (1) FSC 5510, Lumber and Related Basic Wood Materials;
- (2) Federal Supply Group (FSG) 87, Agricultural Supplies;
- (3) FSG 88, Live Animals;
- (4) FSG 89, Food and Related Consumables;
- (5) FSC 9410, Crude Grades of Plant Materials;
- (6) FSC 9430, Miscellaneous Crude Animal Products, Inedible;
- (7) FSC 9440, Miscellaneous Crude Agricultural and Forestry Products;

- (8) FSC 9610, Ores;
- (9) FSC 9620, Minerals, Natural and Synthetic; and
- (10) FSC 9630, Additive Metal Materials.

“Place of manufacture” means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

(b) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly—

- (1)  In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or
- (2)  Outside the United States.

### STATEMENT OF WORK EXTERIOR FACADE REPAIRS AT THE US EMBASSY RESIDENCE

#### 1. BACKGROUND AND PURPOSE:

The U.S. Embassy requires repairs of perimeter wall of one of the residence located in F-7 sector of Islamabad. The building structure consists of brick wall with reinforced concrete roof slab. The exterior walls covering consists of cement plaster and few areas of old stone cladding. There is also cement screens installed on few locations which shall be removed.

#### 2. GENERAL REQUIREMENTS:

- A. The work shall be executed in a diligent manner in accordance with a firm fixed price and a fixed performance period. The period of performance for project completion shall be 70 working days from the date of NTP.
- B. Interested contractors must have successfully completed at least three similar type of projects before. The contractor must have a working knowledge of the security requirements for labor, equipment and vehicular access to the US Embassy facilities.
- C. All construction work related to this repair project must comply with the applicable International Building Codes and Tile Council of North America (TCNA).
- D. The contractor shall be required to prepare reports, bill of materials, catalog cuts, schedules and costs. These documents shall provide necessary interfaces, coordination, and communication between Embassy and the contractor.
- E. The contractor shall provide a comprehensive repair project execution plan and shop drawings based upon the project requirements. The shop drawings shall include architectural, drainage, mechanical, plumbing, HVAC and electrical re-routing details. All installed items shall comply with DOS Facilities Management office specifications and according to the item 2.C. Contractor must provide specification sheets and submittals prior to procurement of items for approval to COR.

#### 3. SCOPE OF SERVICES:

*The contractor shall provide tools, equipments, labor and supervision to complete the technical requirements in this statement of work. The approximate area to be repaired is 225Sq.m.*

*The work consists of, but is not limited to the following:*

#### 4. CONTRACT DELIVERABLES

- A. A comprehensive repair proposal which includes all requirements indicated in the scope of work.

- B. Firm Fixed prices for completing the tasks described herein. Final cost includes all delivery to site location at U.S. Embassy Islamabad, Pakistan.
- C. A schedule (bar chart) for completing the project which addresses the delivery and installation of project elements, and calendar days for completing the tasks.
- D. Sample Access process.
- E. Project Submittals.

5. **Architectural-Exterior**

- A. Remove broken/old façade; dispose waste at the same day of removal. Plaster broken area/corners of walls by installing metal lath with the thickness of not less than 25mm. This task shall cover all damage areas. The ratio of cement sand mortar for plaster shall be 1:3 for the repairs. Remove fishhook spikes and razor wire in panels and re-install after installation of new tiles. Remove lights or any other installation from wall and re-install after new tiles. Contractor is responsible for any broken item during removal and re installation.
- B. Remove all exterior paint in order to prepare surface substrates. Any liquid membrane curing compounds or other bonding substances must be addressed/removed by mechanical cleaning and profiling methods or covered with an appropriate primer. These products can prevent proper bonding of mortar to the plaster/concrete surface, so they should be removed. Laitance (a thin layer of hardened, yet weak, cement) can also affect the substrate’s bonding potential. Remove crumbling and laitance plaster/concrete surfaces which will cause weak bonding and re-plaster these areas with 1:3 ratio cement sand mortar. The surface shall be fully prepped by removing all kinds of weak substances which is often done by sandblasting/scraping.
- C. Any variation in the substrate should be corrected. An appropriate patching compound to flatten the substrate surface should be used. For tile less than 381 mm (15 in.) in size, this requirement is 6.3 mm in 3.05 m (1/4 in. in 10 ft). For tile with at least one edge over 381 mm (15 in.) in any one direction, the requirement is 3.2 mm in 3.05 m. (1/8 in. in 10 ft.).
- D. Provide waterproofing and crack isolation membranes in compliance with current revisions of ANSI A108.1 (2.7 Waterproofing) and ANSI A108.13 which shall not only help isolate substrate cracks, but also prevent in-plane cracks in the substrate from telegraphing to the tile and efflorescence which occurs when water soluble minerals dissolve and migrate to the installation surface, interrupting this process with waterproof membranes and setting materials with low absorption rates can help prevent it. Waterproofing and crack isolation membranes also prevent the passage of water into the substrate and can stop water from leaking into the mortar bed. They help prevent problems associated with saturation and moisture expansion and are applied to the substrate’s surface and allowed to cure before tiling begins. A water-resistive barrier (WRB), waterproof membrane, or vapor retarder membrane shall be required as per local building codes. Review the installation and plan the application sequence. Pre-cut LATICRETE or equivalent Waterproofing/Anti-Fracture Fabric (if required), allowing 2" (50 mm) for overlap at ends and sides to fit the areas as required. Roll up the pieces for easy handling and placement. Shake or stir LATICRETE Hydro Ban before using.

Efflorescence

- E. Provide and lay tile mortar for exteriors combine bond strength with flexibility to allow for shifts in the substrate caused by changing moisture and temperature levels. Latex/polymer-modified mortars are required. These mortars are designed to improve adhesion, reduce water absorption, and provide greater bond strength and resistance to shock and impact. A mortar complying with American National Standards Institute (ANSI) A118.15, American National Standard Specifications for Improved Modified Dry-set Cement Mortar, would be in this category. Organic adhesives are not approved for this work. According to the National Tile

Contractors Association's (NTCA's) Reference Manual, polymer modification is required for all exterior mortar installations unless other requirements are specified by manufacturers of other system components. Most current mortars have a dry form of polymer already blended in the bag, to which only water is required for mixing, but latex additives can enable unmodified mortars to meet ANSI A118.4, American National Standard Specifications for Modified Dry-set Cement Mortar. This standard denotes mortars designed for exterior conditions or for use with hard-to-bond-to substrates. The newer designation of ANSI A118.15, which indicates applications with increased bond strength requirements helps identify the best mortar types for exterior applications.

- F. Provide and lay high-performance grouts which increased bond strengths, flexural strengths, and lower water absorption to resist frost damage. Some grouts are fully submersible and offer chemical-resistance—making them suitable for virtually any type of outdoor installation imaginable. Mold and mildew resistance help exterior grouts hold up to frequent moisture exposure. Mix grout additives with cement grouts, in place of water, to create stain resistant, stronger, denser grout, which is more resistant to water penetration. Additives can also increase grout flexibility, providing crack resistance. Use high-performance grout with the polymer, in the dry form, available already blended in the bag, to which only water needs to be added. Products complying with ANSI A118.7, Polymer-modified Tile Grouts for Tile Installations, are recommended for exterior applications.

Grout shall be as per color of tiles, with un-sanded quality to fill the joint size of 1.3mm to 3mm. Grout must have ability to control efflorescence

- C. Fill all substrate cracks, cold joints and control joints to a smooth finish using a LATICRETE latex-fortified thin-set or equivalent. Alternatively, a liberal coat of LATICRETE Hydro Ban applied with a paint brush or trowel may be used to fill in non-structural joints and cracks. Apply a liberal coat of LATICRETE Hydro Ban approximately 8" (200 mm) wide over substrate cracks, cold joints, and control joints using a paint brush or heavy napped paint roller.

- G. For thick bed (mortar bed) ceramic and stone tile installations and self-leveling methods: maximum allowable variation in the installation substrate to be 1/4" in 10' (6 mm in 3 m); To fully evacuate water, shower pan membranes and bonded waterproofing membranes in wet areas must slope to and connect with a drain. Plumbing code typically requires membranes to be sloped a minimum of 1/4" per ft (6 mm per 300 mm) and extend at least 3" (75 mm) above the height of the curb or threshold. Account for the perimeter floor height required to form adequate slopes. Membranes must be installed over the other horizontal surfaces in wet areas subject to deterioration.
- H. Provide and install porcelain tiles (Spanish) unglazed on all exterior of the perimeter wall including under shades, and window/door trims with the purchase range of PKR 350 per square foot. Tiles shall be with the property of a solar reflective index (SRI) of 29 or greater which shall contribute toward compliance in Leadership in Energy and Environmental Design (LEED) by complying with New Construction (NC) Sustainable Sites (SS) Credit 7.1, Heat Island Effect—Non-roof.
- I. Install tiles in accordance with current versions of American National Standards Institute, Inc. (ANSI) "A108 American National Standard Specifications for Installation of Ceramic Tile" and TCNA "Handbook for Ceramic, Glass, and Stone Tile Installation" Cut and fit ceramic tile neatly around corners, fittings, and obstructions. Perimeter pieces to be minimum half tile, brick or stone. Chipped, cracked, split pieces and edges are not acceptable. Make joints even, straight, plumb and of uniform width to tolerance +/- 1/16" over 8' (1.5 mm in 2.4 m). Install divider strips at junction and dissimilar materials. Tiles shall be installed in different color tone on different areas.
- J. Provide and apply sealer over the tile installation to prevent penetrating moisture. Sealer shall be of SIKA grout or HILTI and application shall be as per manufacturer recommendations.
- K. Remove plumbing piping in order to repair façade and re install after completion of work. Make necessary temporary arrangements so the all systems remain operational during the execution of work.

- L. Remove electrical piping in order to repair façade and re-install after completion of work. Make necessary temporary arrangements so the all systems remain operational during the execution of work.

**General Project Requirements**

- A. Contractor is responsible for repairing all damaged utilities.
- B. The contractor shall maintain a clean worksite at all times and remove any equipment or materials from driveways throughout the work day.
- C. The contractor is responsible to provide all equipment, construction materials, tools and labor in support of the repair project.
- D. Embassy shall provide electricity and water.
- E. The Contractor shall review all requirements associated with the job. Contractor shall provide all product submittals to Project Facilities Manager. Facilities manager shall review all project submittal.

**Project Completion Requirements.**

- A. The Contractor shall provide 3D view and As-Built Drawings of the project.
- B. The Contractor shall provide 2 CDs and 2 printed copies of all detailed/shop drawings in AutoCAD 2010 to Facilities. All documents become the property of the US Government.

**8. QUALITY ASSURANCE:**

The contractor shall perform the job in accordance with U.S. Codes and standards and local host country codes, whichever are most stringent.

Install all elements of the project in strict accordance with the International Building Codes.

**9. PERTINENT SCHEDULE OF MILESTONES**

Award – Notice to Proceed	NTP
Contractor Mobilization	03 working days
Remove paint	10 working days
Remove crumbling surfaces	03 working days
Repair Cracks	03 working days
Repair Crumbling surfaces	05 working days
Utility piping adjustment	03 working days
Waterproofing and moisture barrier	10 working days
Tile installation	20 working days
Grouting	05 working days
Sealer	05 working days
Final cleanup	02 working days
Final Completion	01 working day
TOTAL	70 working days

The working hours shall be 0800 to 1630 Monday through Friday.

Final completion – means all repair works are completed and punch items, if any, are rectified.

10. **SAFETY REQUIREMENTS:**

Contractor shall comply with the following applicable safety requirements as stated in DOSAR 652.236-70 ACCIDENT PREVENTION:

- 1) Any work at heights above two (2) meter requires additional safety measures described as follows:
  - a. Workers shall not be permitted to work at heights over 1.5 meters without fall protection.
  - b. Fall protection shall consist of scaffolding, work platforms, and full body harnesses.
  - c. All work platforms over 1.5 meters tall (including scaffolding) shall have handrails.
  - d. Full body harnesses shall be attached to an object capable of resisting 5000 lbs of force.
  - e. Contractor will request POSHO office for an inspection before the use of scaffold.
- 2) The Contractor must provide proper PPE's (Personal Protective equipment's i.e. Hard Hats, Safety Goggles, Gloves, respirators, Safety Shoes, ear plugs and items required as per job requirement) to his employees and ensure that while performing work they are using the proper PPE's.
- 3) The Contractor is to ensure that his employees are provided proper training to perform the job safely and will be responsible for any accident/incident happened on work place.
- 4) Embassy POSHO or designate can perform random inspections and the contractor and his employees have to follow their recommendations.
- 5) The Contractor will be responsible for the medical insurance of his employees and will be responsible to provide medical assistance in case of any injury, illness, accident and incident.
- 6) The Contractor will convey his employees to hospital in case of any accident, incident or injury and there will be no responsibility of US Government what so ever. However, the contractor is responsible to inform POSHO office regarding any injury, accident and incident happening at the work place and abide by the corrective action recommended by the POSHO office.
- 7) While painting the painters must use Respirators along with other PPE's.
- 8) While working on elevation, the contractor must provide By Part fiber glass ladders and the ladder must be in serviceable condition. No Steel, wooden/bamboo ladder will be allowed to use.
- 9) Contractor is to ensure that during the work no damage to the property and will be responsible to repair/replace or refund of damaged item.
- 10) While working on Electrical circuit, the contractor is to ensure proper Lock out Tag out procedures are implemented.
- 11) Confined space entries like underground /overhead water tanks will be performed on the entire responsibility of contractor and he is to provide all confined space rescue equipment's.
- 12) Electrical Wirings and Grounding: All Electrical Equipment's (Panels, receptacle, connectors and any other metallic part connected to power supply) must be properly grounded.
- 13) All electrical cables/wires connected to Fans, Panels, receptacle, connectors and any other metallic part connected to power supply must not be broken/spliced/taped. Damaged cable insulation or any indications of possible internal damage of equipment or wiring should not be used.
- 14) Each cord set, attachment cap, plug, and receptacle of cord sets, and any equipment connected by cord and plug must be properly secured.
- 15) All entry points for Plumbing, air conditioning, and electrical etc. must be sealed and properly closed.
- 16) Contractor is to accept and abide by all safety instructions, recommendation by the POSHO's as per the job site requirements.

11. **ATTACHMENTS:**

- A. Direct Adhered Ceramic Tile, Stone, Masonry Veneer, and Thin Brick Facades – Technical Manual of LATICRETE. This attachment is for general installation procedure use purposes. Any equivalent material shall be acceptable on this repair project with prior approval from the COR.
