The anticipated start date for this activity is October 1, 2015, and three to four awards are anticipated as a result of this NOFO.

This funding will 1) support the strengthening of civil society and democracy through projects that educate and empower local populations to better understand, accept, and utilize Panama's new accusatory justice system; or 2) strengthen the rule of law and aid the development of Panamanian government institutions through projects that develop juvenile rehabilitation programs and crime prevention programs; or 3) provide job skills training and facilitating economic opportunities for underserved youth and at-risk communities as an alternative to illegal activities. U.S. Embassy Panama encourages projects to include the Darien and/or Guna Yala regions, or indigenous populations wherever appropriate. Projects may focus on one or more of the objectives and must fulfill at least one sub-objective of the corresponding objectives.

U.S. Embassy Panama reserves the right to fund any or none of the applications submitted and will determine the resulting level of funding for the award. The authority for this NOFO is found in the Foreign Assistance Act of 1961, as amended.

## **SECTION I – FUNDING OPPORTUNITY DESCRIPTION**

### **BACKGROUND**

Since 2011, the Government of Panama has been transitioning to an entirely new system of justice based on the accusatory system common in most western nations. The new system provides more rights for the accused and manages justice cases more efficiently than in the past. Many members of the justice sector have been trained on the new system and it has been implemented in remote, lightly populated areas of the country. However, relatively little educational outreach has occurred to ensure the population in these areas understand their rights and responsibilities in the new system.

In addition, lack of economic opportunities for youth in marginalized communities of Panama combined with the dearth of government presence and accountability in regions outside of Panama City, particularly in the indigenous areas (comarcas), contribute to high levels of crime and corruption in Panama.

Through the Central America Regional Security Initiative (CARSI) the U.S. Government provides broad-based security assistance to the region to respond to threats to citizen security. The desired objective of CARSI is to produce a safer and more secure region where criminal organizations no longer wield the power to destabilize governments or threaten national and regional security and public safety, as well as to prevent the entry and spread of illicit drugs, violence, and transnational threats to countries throughout the region and to the United States. The five goals of CARSI are:

1. Create safe streets for the citizens of the region;
2. Disrupt the movement of criminals and contraband within and among the nations of Central America;
3. Support the development of strong, capable and accountable Central American Governments;
4. Re-establish effective state presence and security in communities at risk; and
5. Foster enhanced levels of security and rule of law coordination and cooperation among the nations of the region.

U.S. Embassy Panama has supported numerous projects to strengthen civil society, democracy, the rule of law, and government institutions and to provide opportunities for vulnerable youth in at-risk communities.

To support further progress in Panama, the U.S. Department of State has allocated up to \$900,000 in FY 2014 Economic Support Funds to focus on Goals 1, 3, and 4 of CARSI.

### **PROJECT OBJECTIVE**

Successful grant proposals will pursue objectives that reinforce a democratic, secure, and prosperous Panama by: 1) supporting the strengthening of civil society and democracy; 2) strengthening the rule of law and aiding the development of Panamanian government institutions; or 3) providing opportunities to underserved youth and at-risk communities. U.S. Embassy

Panama encourages projects to include the Darien and/or Guna Yala regions, or indigenous populations wherever appropriate.

## **PROJECT DESCRIPTION**

Ideally, projects may focus on one and preferably no more than two of the objectives and must fulfill at least one sub-objective of the following NOFO project objectives:

**Objective 1- Civil Society and Democracy:** Support the strengthening of civil society and democracy through projects that educate and empower local populations to better understand, accept, and utilize Panama's new accusatory justice system.

Local populations have inadequate understanding and knowledge of the new accusatory justice system being implemented throughout Panama.

Sub-objective 1:

Recipient will partner with Government of Panama officials to build a public information campaign intended to ensure populations in Panama understand the new accusatory justice system being implemented throughout Panama, in all of the provinces where the system has already been implemented. Ensure the populations in those regions understand and can act upon the new system, their rights under it, and the responsibilities of all justice sector actors.

Sub-objective 2:

Recipient will partner with the Government of Panama officials to build a public information campaign intended to ensure people in all of the provinces where implementation is still planned, including Panama City and Colon, have sufficient information to accept the new system, and understand and act upon their rights and the obligations of all justice sector actors.

**Objective 2- Rule of Law and Government Institutions:** Strengthen the rule of law and aid the development of Panamanian government institutions through projects that develop juvenile rehabilitation and reintegration programs.

Panama's prison system lacks sufficient means to rehabilitate and reinsert juvenile delinquents into society; Panama also lacks strong crime prevention programs that promote citizen security.

Sub-objective 1:

In partnership with the Panamanian government's juvenile corrections authority (*Instituto de Estudios Interdisciplinarios*), the recipient will develop vocational and/or academic projects to provide job skills to juvenile criminal offenders that will support their rehabilitation and social reinsertion. Projects should assist participants in securing employment at the completion of the project, but funds cannot be used to directly support employment or benefits. Projects should target youth who have been released from

detention, put on probation, or sentenced to other social re-education measures. Projects will be executed in collaboration with the juvenile corrections authority in support of its mandate to rehabilitate youth.

Sub-objective 2:

In partnership with the Panamanian government's *Oficina de Seguridad Integral* (OSEGI), the recipient will develop and implement crime prevention pilot projects that promote citizen security. These projects should be scalable and intended to demonstrate the viability of a crime prevention approach so that the Government of Panama can later replicate and expand them as appropriate. Projects will be executed in collaboration with the OSEGI.

**Objective 3- Opportunities for Youth and Marginalized Communities:** Provide job skills training and facilitate economic opportunities for underserved youth and at-risk communities as an alternative to illegal activities.

Despite Panama's rapid economic growth and low overall unemployment levels, high levels of income inequality persist, especially in areas like the Darien and Colon. Many residents in these areas lack the skills to take advantage of economic opportunities and are at high risk for engaging in illegal activities.

Sub-objective 1:

In collaboration with the Panamanian Government and the Municipality of Colon, the recipient will develop and implement projects in areas such as vocational training, workplace skills, and business development to enable at-risk individuals to avoid illicit activities and become contributing members of society. Project must demonstrate clear linkages to CARSI security goals.

Sub-objective 2:

In collaboration with the Panamanian government's Darien Development Secretariat (SEPRODACAN) and other Government of Panama ministries, as appropriate, the recipient will develop and implement projects in areas such as small business development, and sustainable agriculture that enable the generation of income in marginalized communities, particularly in the Darien and comarcas areas. Project funds may not be used to directly subsidize employment of participants. Project must demonstrate clear linkages to CARSI security goals.

## **CROSS-CUTTING AND ADDITIONAL ACTIVITIES**

### **Project Expansion**

In the event of a successful project, U.S. Embassy Panama will consider the option of expanding the project to other areas of countries in the region, subject to availability of future funding. Applicants may include in their proposal a brief section outlining how additional funds could potentially be used to expand work into further activities or additional countries in future years.

Applicants are strongly encouraged to demonstrate how their project might leverage funding through other organizations.

**DESIRED RESULTS AND INDICATORS**

The recipient will develop a project-level Performance Monitoring plan (PMP) with annual and end-of- project targets and results anticipated for key performance indicators. The following tables show indicators that will be measured, as well as illustrative targets, upon which the recipient will be responsible for monitoring and reporting during and after the project. In addition, U.S. Embassy Panama will regularly monitor the project’s performance to assess whether project activities are on track and targets are being achieved.

Outcome indicators for the projects are provided below. The recipient is expected to identify targets for these indicators based on what it can reasonably achieve within the performance period of the project, and based on the expected overall project results described above.

**For Objective 1, Civil Society and Democracy:** By the end of the two years of the project, surveys of populations nationwide targeted by the assistance should show that 75% of adults understand the new system, understand it and can accurately describe their rights as well as the obligations of justice sector actors. Applicant should provide output and outcome indicators that will be used to measure progress

<i>Example/Illustrative Outcome Indicators</i>	<i>Illustrative targets:</i>
Percent of treated community X reporting increased knowledge of and familiarity with their judicial system.	TBD

**Objective 2, Rule of Law & Government Institutions:** By the end of the two years of the project, 70% all juveniles benefitting from the project will have successfully been reinserted into society after departing the juvenile justice system, either through employment or continuing education. With regard to crime prevention projects, no more than 15% of participants will have committed a crime after departing the juvenile justice system.

<i>Example/Illustrative Outcome Indicators</i>	<i>Illustrative targets:</i>
Rate of recidivism of participating youth.	TBD
Percent of at-risk youth that report increased confidence in expressing a leadership role in their community.	TBD

Output indicators are provided below. The recipient should review these and propose targets, as appropriate.

<i>Example/Illustrative Output Indicators</i>	<i>Illustrative targets:</i>
Number of after-school projects targeting at-risk youth implemented.	TBD
Number of at-risk youth who received X weeks of tutoring in after-school projects.	TBD

Number of at-risk youth placed in apprenticeship positions.	TBD
---	-----

**Objective 3, Opportunities for Youth in Marginalized Communities:** By the end of two years of the project, projects will have a graduation/completion rate of 70% and 50% of project graduates will be successfully employed in areas related to their training. Project graduates should be demonstrably less likely than non-graduates to be arrested.

<b><i>Required Output Indicators for Objective 3</i></b>	<b><i>Illustrative targets:</i></b>
Number of at risk youth who received X weeks of vocational skills training.	TBD
Number of project graduates who are employed in skilled-labor positions within 6 months of completing the project.	TBD
Number of at-risk youth placed in apprenticeship positions.	TBD

The recipient may propose additional outputs, indicators, and/or targets as appropriate. The recipient will be required to collect baseline data for all the PMP indicators during the first year of the project. In addition, applicants should define certain terms included in the outcomes and indicators at the very beginning of the project so that it is possible to measure the change during and at the end of the project. Examples of such are “capacity,” “spread effect,” etc. Such baseline information will be critical for both monitoring and evaluation of project progress and results.

**[END OF SECTION I]**

  - a) the target country(ies),
  - b) name and contact information for the project's main point of contact,
  - c) a statement of work or synopsis of the project, including a concise breakdown of the project's objectives, activities, and expected results,

4. Proposal Narrative (not to exceed ten [10] pages in Microsoft Word). Please note the ten-page limit does not include the Table of Contents, Executive Summary, Attachments, Detailed Budget, Budget Narrative, or NICRA. Applicants are encouraged to submit multiple documents in a single

Microsoft Word, (i.e., Table of Contents, Executive Summary, Proposal Narrative, and Budget Narrative in one file).

**5.** Budget Narrative (preferably in Microsoft Word) that includes an explanation and justification for each line item in the detailed budget spreadsheet, as well as the source and a description of all cost-share offered. For ease of review, U.S. Embassy Panama recommends applicants order the budget narrative as presented in the detailed budget. Personnel costs should include a clarification of the roles and responsibilities of key staff and percentage of time devoted to the project. The budget narrative should communicate to U.S. Embassy Panama any information that might not be readily apparent in the budget, not simply repeat with words what is stated numerically in the budget.

**6.** Detailed Line-Item Budget (preferably in Microsoft Excel) that includes three [3] columns including the request to U.S. Embassy Panama, any cost sharing contribution, and total budget (see below for more information on budget format). A summary budget should also be included using the OMB approved budget categories (see SF-424 as a sample). Costs must be in U.S. dollars.

c) Page 4: Timeline of the overall proposal. Components should include activities, evaluation efforts, and project closeout.

d) Page 5-7: Additional optional attachments. Attachments may include further timeline information, letters of support, memoranda of understanding (MOU)/agreement, etc. For applicants with a large number of letters/MOUs, it may be useful to provide a list of the organizations or government agencies that support the project rather than the actual documentation.

**8.** If your organization has a negotiated indirect cost rate agreement (NICRA) and will include NICRA charges in the budget, your latest NICRA must be included as a .pdf file. This document will not be reviewed by the panelists, but rather used by project and grant staff if the submission is recommended for funding and therefore does not count against the submission page limitations, as described above. If your proposal involves subgrants to organizations charging indirect costs, please submit the applicable NICRA also as a .pdf file (see below for more information on indirect cost rates). Specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs.

Note: U.S. Embassy Panama retains the right to request additional documentation for those items not included on this form.

## **INFORMATION ON STANDARD FORMS**

Please see Tab D for instructions for completion of Standard Forms 424, 424A, and 424B.

## **OFFICE OF MANAGEMENT AND BUDGET (OMB) CIRCULARS**

For a copy of the OMB circular cited, please contact Government Publications or download from [http://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200\\_main\\_02.tpl](http://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl). Overseas-based nonprofit organizations are legally required to comply with 2 CFR 200. Public international organizations retain their privileges and immunities as such, but are encouraged to address this OMB Circular.

## **AUDITS**

### **The recipient's proposal should include the cost of an audit that:**

- 1) Complies with the requirements of 2 CFR 200 Subpart F "Audit Requirements;"
- 2) Complies with the requirements of American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) No. 92-9, "Audits of Not-for-Profit Organizations Receiving Federal Awards;"
- 3) Complies with AICPA Codification of Statements on Auditing Standards AU Section 551, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents," where applicable. When the U.S. Department of State is the largest direct source of Federal financial assistance (i.e., the cognizant Federal Agency) and indirect costs are charged to Federal grants, a supplemental schedule of indirect cost computation is required;
- 4) A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or project-specific audit conducted for that year in accordance with the provisions of 2 CFR 200 subpart F.

*The audit costs shall be identified by 2 CFR 200.425.*

## **INDIRECT COST-RATE**

An organization with a negotiated indirect cost rate agreement (NICRA) negotiated with a cognizant federal government agency other than the U.S. Department of State must include a copy of the cost-rate agreement. Applicants should indicate in the proposal budget how the rate is applied and if any of the rate will be cost-shared. Per 2 CFR 200.414. any non-Federal entity that has never received a negotiated indirect cost rate, except for those non-Federal entities described in Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals, paragraph D.1.b, may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely. As described in 2 CFR 200.403, factors affecting allowability of costs, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time.

**TAB A: PROPOSAL GUIDELINES**

**Proposals should include the following components:**

- Introduction and Problem Statement
- Planned Activities
- Indicators

**Problem Statement and Rationale:** Describe the problem and how the project will achieve or contribute to achieving a sustainable solution and a measurable outcome. The applicant should explain the extent of existing assistance within the particular geographic area, and how the proposed intervention may complement (or differ from) other similar interventions. The implementer should also explain, as necessary, the particular experience and qualifications they bring to the project. The rationale should also reflect understanding of the priorities and policies of the bureau/post or program with which this agreement is associated.

**Planned Activities and Indicators:** Describe the planned activities, and relevant stakeholders for implementation. The implementer should highlight key stakeholders and their expected role in the project, along with any contingencies. The implementer should list assumptions that are dependent on the ultimate success of the project. This could include elements like geographic location, coordination efforts with other international organizations, or political will from host governments, private sector, and NGOs. As appropriate, limited contingency possibilities should be included in the proposal, in case the initial planning assumptions are not met. Example of a planned activity and contingency:

Planned Activity	Contingency
<i>Energy efficiency workshops in collaboration with the government of Mexico and other representatives from the Latin America region, focused on raising awareness of energy efficiency standards.</i>	<i>If government of Mexico does not engage at the expected level, project team will look to other regional stakeholders, such as the OAS, to assist in convening key stakeholders.</i>

In the proposal, there should be a clearly defined link between each of the following elements as delineated:

Problem Statement → Planned Activities/Inputs → Process Indicators → Output Indicators → Outcome Indicators → Impact
--

**Process Indicators** measure the activity that has been completed. Please delineate the specific activities to be conducted, such as workshops, roundtables, trainings, forums, exchanges, policy dialogues, etc. All indicators must include targets. Example of a process indicator:

<b>Process Indicator</b>	<i>50 women trained in energy efficiency standards</i>
--------------------------	--

**Output Indicators**, otherwise known as deliverables associated with the agreement, should be included. Unlike process indicators, outputs are what is produced, and are often tangible. At this level, it is the measurement of ability, knowledge, skills, or access. All indicators must include

targets. Example of an output indicator involving the same participants:

<b>Output Indicator</b>	<i>80 percent of participants demonstrate at least 75 percent cognizance of efficiency standards</i>
-------------------------	--

**Outcome Indicators** measure the change in system, behavior, or practice. Expected outcomes are the results that come from a series of activities that are necessary to achieve impact. All indicators must include targets. Example of an outcome indicator:

<b>Outcome Indicator</b>	<i>30 percent of efficiency standards being implemented in a participant's country because of participant's participation.</i>
--------------------------	--

All indicators **must** include measurable, numerical targets, which should serve as the foundation for monitoring and evaluation efforts. Ultimately, proposed activities and achievement of indicator targets will lead to impact.

## **TAB B: PROGRAM MONITORING AND EVALUATION PLAN**

U.S. Embassy Panama will work with recipient organizations to implement the appropriate monitoring and evaluation plan that meets both the needs of U.S. Embassy Panama and the implementing partner. Incorporating a well-designed monitoring and evaluation component into a project is one of the most efficient methods of documenting the progress and potential success of a project. Successful monitoring and evaluation depend on the following:

- Setting objectives that are specific, measurable, attainable, results-focused, and placed in a reasonable time frame (SMART);
- Linking project activities to stated objectives;
- Developing key performance indicators that measure realistic progress towards the objectives.

U.S. Embassy Panama expects implementing organizations will track participants or partners as appropriate and be able to respond to key evaluation questions, including satisfaction with the project/training, information learned as a result of the project/training, changes in attitude and behavior as a result of the project, and effects of the project on institutions in which participants work or partner with. Applicants should include the monitoring and evaluation process in their timeline.

Recipients will be required to provide reports with an analysis and summary of their findings, both quantitative and qualitative, in their regular progress reports to U.S. Embassy Panama.

The monitoring and evaluation plan should include, at a minimum, the following elements:

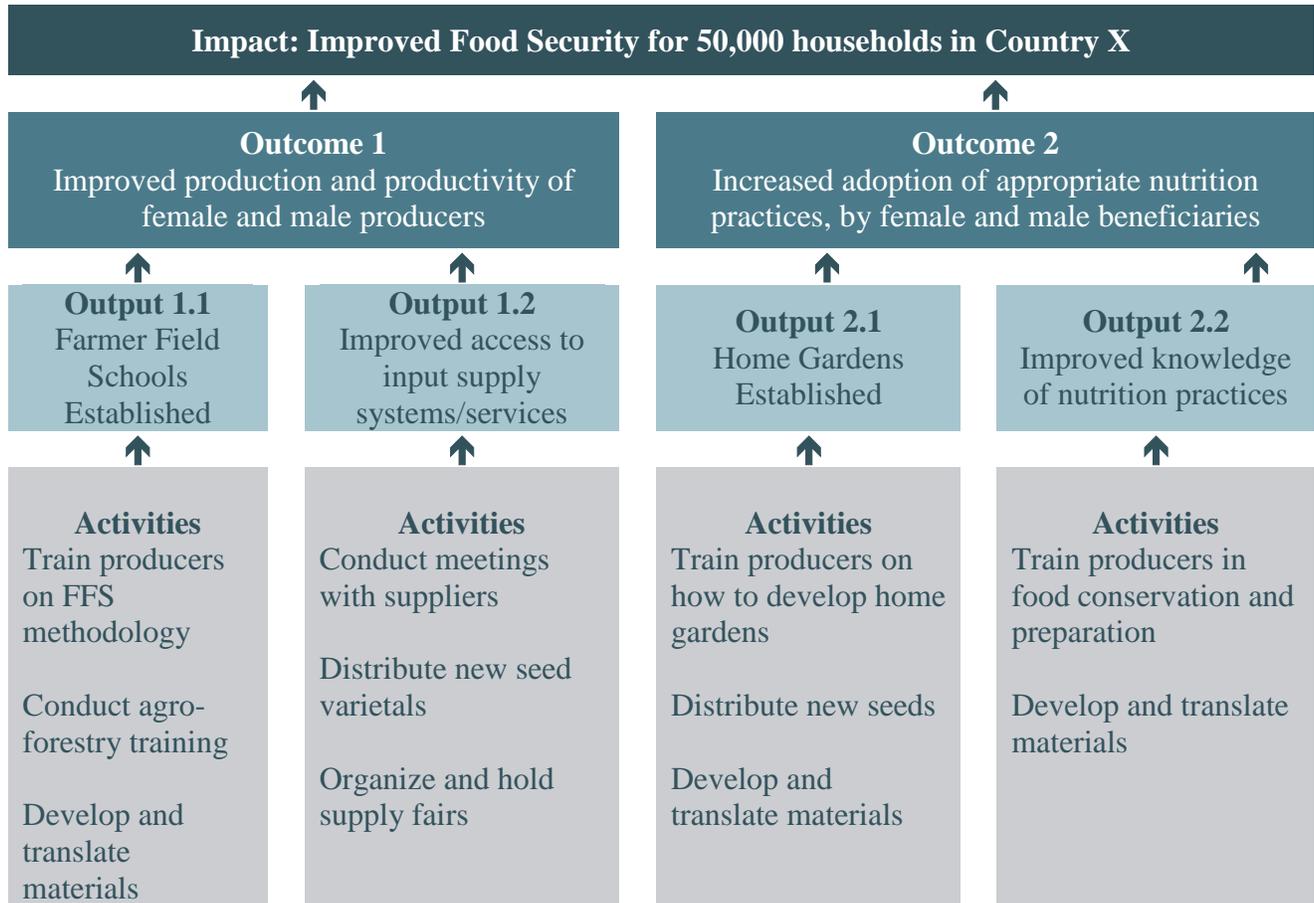

- A results “Logic Model” planning document (see sample)
- Indicators, as described in Tab A, as well as details on how each indicator will be measured, frequency of the measurements, units of measure, etc. Provide indicators at the output and outcome levels. Monitoring and evaluation plans should include a chart component that clearly delineates indicators and targets. All indicators must include measurable, numerical targets.
- Establish, where possible, performance baseline data and expected performance targets for each indicator/outcome. In some cases, the baseline may be zero.
- Describe monitoring and evaluation tools, such as rapid assessment surveys, site visits, key stakeholder interviews, etc., that will be used.
- Plans should describe how the project’s impact and effectiveness would be monitored and evaluated throughout the project.

### Sample “Logic Model” Planning Tool

Note: Outcomes, outputs, and activities should include numerical, measurable targets. A Logic Model is a useful tool for planning and utilized when designing monitoring and evaluation methodology and frameworks.

**TAB C: BUDGET GUIDELINES**

Complete budgets will provide a detailed line-item budget outlining specific cost requirements for proposed activities. A minimum of three columns should be used to delineate the bureau funding request, cost-share by applicant, and total project funding. Complete applications will include a budget narrative to clarify and justify individual line-items (i.e. calculations of how the costs were derived per month or year, their necessity, and overall contribution to the project’s cost-effectiveness).

The three-column proposal line item budget should include the following components, in the suggested format below:

**Note: This budget is designed to serve as an example of the format for complete budget submissions and is NOT exhaustive.** Individual line items included in each applicant's budget should reflect specific project activities. (pax = participants)

**Before grants are awarded, the Embassy reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of the Embassy's program and availability of funds.**

As mentioned above, the detailed budget should also include an accompanying budget notes document that explains and justifies each line item, in the suggested format below:

**LINE-ITEM BUDGET –**

**A. Personnel** – Identify staffing requirements by each position title and brief description of duties. For clarity, please list the annual salary of each position, percentage of time and number of months devoted to the project. (e.g., Administrative Director: \$30,000/year x 25% x 8.5 months;

calculation:  $\$30,000/12 = \$2,500 \times 25\% \times 8.5 \text{ months} = \$5,312.$

**B. Fringe Benefits** - State benefit costs separately from salary costs and explain how benefits are computed for each category of employee - specify type and rate.

**C. Travel** - Staff and any participant travel:

- 1) international airfare
- 2) in-country travel
- 3) domestic travel in Country X., if any
- 4) per diem/maintenance: includes lodging, meals and incidentals for both participant and staff travel. Rates of maximum allowances for U.S. and foreign travel are available from the following website: <http://www.policyworks.gov/>. Per diem rates may not exceed the published U.S. government allowance rates; however, institutions may use per diem rates lower than official government rates.
- 5) staff refers to grantee staff only, and not sub-grantee staff or contractors

**D. Equipment** – please provide justification for any equipment purchase/rental, defined as tangible personal property having a useful life of more than one year and an acquisition cost of \$5000 or more.

**E. Supplies** - list items separately using unit costs (and the percentage of each unit cost being charged to the grant) for photocopying, postage, telephone/fax, printing, and office supplies (e.g., Telephone:  $\$50/\text{month} \times 50\% = \$25/\text{month} \times 12 \text{ months}$ ).

**F. Contractual** –

**a) Subgrants.** For each subgrant/contract, please provide a detailed line-item budget breakdown explaining specific services. Please provide a subgrant budget using the approved OMB budget format. (See Tab C: Budget Guidelines, above.)

**b) Consultant Fees.** For example, lecture fees, honoraria, travel, and per diem for outside speakers or independent evaluators: list number of people and rates per day (e.g.,  $2 \times \$150/\text{day} \times 2 \text{ days}$ ).

**G. Other** - these will vary depending on the nature of the project. The inclusion of each should be justified in the budget narrative. All costs must be allowable, allocable, and reasonable, and consistent with OMB guidelines. Line items such as “Miscellaneous,” “Contingency Fund,” and “Reserve Fund” are not permitted.

**H. Indirect Charges** - See 2 CFR 200.414, "Indirect Costs"

1) If your organization has an indirect cost-rate agreement with the U.S. Government, please include a copy of this agreement. Please specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs. This does not count against submission page limitations.

2) If your organization is charging an indirect rate, please indicate how the rate is applied--to direct administrative expenses, to all direct costs, to wages and salaries only, etc.

3) Do not include indirect costs against participant expenses in the Bureau budget, as it generally does not pay for these costs.

**Cost Share/Cost-Effectiveness** – Cost sharing is not required. Explanation of contributions

should be included, whether cash or in-kind. Assign a monetary value in U.S. dollars to each in-kind contribution. If the proposed project is a component of a larger program, identify other funding sources for the proposal and indicate the specific funding amount to be provided by those sources. In addition, it is recommended that budget narratives address the overall cost-effectiveness of the proposal, including leveraging of institutional or other resources. Cost sharing or matching refers to a portion of project or program cost that is not borne by the Federal Government. Grantees must follow cost sharing or matching policy as stipulated in 2 CFR 200.306. For example, the fair market value for donated equipment, third party in-kind donations, and volunteer services must be documented. Cost sharing amounts proposed will be incorporated as part of the allowable budget items. If selected for an award, your organization will have to provide the minimum amount of cost sharing as stipulated in the budget approved by the Grants Officer. If your organization does not meet its cost share amount stipulated in the approved budget by the end of the period of performance the Embassy will have the option to (1) reduce its contribution in proportion to your organization's contribution in the event that you do not provide the minimum amount of cost sharing stipulated in the budget or (2) hold your organization accountable for the amount specified in the approved budget.

#### **BUDGET CONDITIONS AND RESTRICTIONS:**

The Embassy does not pay for the following:

- Publication of materials for distribution within the U.S.;
- Administration of a project that will make a profit;
- Expenses incurred before or after the specified dates of award period of performance (unless prior written approval received);
- Projects designed to advocate policy views or positions of foreign governments or views of a particular political faction;
- Alcoholic beverages;
- Costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized either in the approved budget for the Federal award or with prior written approval of the Federal awarding agency;
- Land;
- Construction.

The Embassy may make conditions and recommendations on proposals to enhance proposed projects. Conditions and recommendations are to be addressed by the applicant before approval of the award. To ensure effective use of U.S. Embassy Panama's funds, conditions or recommendations may include requests to increase, decrease, clarify, and/or justify costs.

## **SECTION V – APPLICATION REVIEW INFORMATION**

The technical applications will be evaluated in accordance with the Technical Evaluation Criteria set forth below. Applicants shall organize the narrative sections of their technical applications in the same order as the selection criteria. Technical evaluation of applications will be based on the extent and appropriateness of proposed approaches and feasibility of achieving the strategic objectives, in accordance with the following criteria.

If award is not made on the initial applications, U.S. Embassy Panama may request clarification and supplemental materials from applicants whose applications have a reasonable chance of being selected for award. The entry into discussion is to be viewed as part of the evaluation process and shall not be deemed by U.S. Embassy Panama or the applicants as indicative of a decision or commitment upon the part of U.S. Embassy Panama to make an award to the applicants with whom discussions are being held.

### **I. TECHNICAL EVALUATION CRITERIA**

A technical evaluation committee, using the criteria shown in this Section, will evaluate the technical applications. The various functional elements of the technical criteria are assigned weighted scores, so that the applicants will know which areas require emphasis in the preparation of applications.

Where technical applications are considered essentially equal, cost may be the determining factor. Applicants should note that these criteria serve as the standard against which all applications will be evaluated and serve to identify the significant matters which applicants should address in their applications.

The relative importance of each criterion is indicated by the number of points assigned. A total of 100 points is possible.

#### **Quality of Program Idea Rating (Total Possible 25) – Rating:**

1. Responsive to the solicitation (5 points)
2. Appropriate in the country/regional context (5)
3. Exhibits originality, substance, and precision (5)
4. Prioritizes innovation but is feasible (5)
5. In countries where similar activities are already taking place, provides an explanation as to how new activities will not duplicate or merely add to existing activities (5)

#### **Program Planning/Ability to Achieve Objectives Rating (Total Possible 25) – Rating:**

- Includes a clear articulation of how the proposed project activities contribute to the overall program objectives (3)
- Each activity is clearly developed and detailed (3)

- Describes the division of labor among the direct applicant, any partners and any potential subgrantees (2)
- Proposal clearly articulates understanding of the security situation/operating environment and plans for ensuring safety of participants (2)
- Includes contingency plans for potential difficulties in executing the original work plan (6)

**Cost Effectiveness (Total Possible 15) - Rating:**

- The overhead and administration of the proposal, including salaries and honoraria, are explained and justified for the work involved (5)
- All budget items are necessary, appropriate and linked to project objectives (5)
- Personnel costs are reasonable for the work involved (5)
- NOTE: Cost share is not required. Applicants may offer cost share, however cost share will not be considered or factored in when proposals are reviewed.

**Program Monitoring and Evaluation (Total Possible 15) - Rating:**

- The Monitoring and Evaluation (M&E) Plan includes:
- Narrative explaining how monitoring and evaluation will be carried out and who will be responsible for monitoring and evaluation activities (5)

  - demonstrates capacity for responsible fiscal management
  - illustrates success in similar sized projects

**COST EVALUATION**

Cost will be evaluated for realism, reasonableness, allowability, allocability, and cost

effectiveness. The pre-award evaluation of cost effectiveness will include an examination of the application's budget detail to ensure it is a realistic financial expression of the proposed project and does not contain estimated costs that may be unallocable, unreasonable, or unallowable. Applications that have more efficient operational systems that reduce operation costs will be favorably considered.

Applications that maximize direct activity costs including cost sharing and that minimize administrative costs are encouraged. Other considerations are the completeness of the application, adequacy of budget detail and consistency with elements of the technical application. In addition, the organization must demonstrate adequate financial management capability, to be measured by a responsibility determination.
