Ph: 321 1455 – Public Affairs

**University of
Papua New Guinea**

For 30 years, the elite all-female firefighter Apache 8 unit has protected their reservation and responded to wildfires around the United States. They face gender stereotypes and life on the impoverished Native American reservation.

From director Sande Zeig and executive producer Heather Rae (Cherokee), APACHE 8 shows women who may have initially set out to try and earn a living but quickly discover an inner strength and resilience that speaks to their traditions and beliefs as Native women.
