December 1, 2011

World AIDS Day in Red for the staff of US Embassy

Photo Story

PHOTO CAPTION: U.S. Ambassador Teddy Taylor (Center) with staff of the Embassy in red pose for a photo on World Aids Day (December 1, 2011). The United States theme for World Aids Day 2011 is "Leading With Science, Uniting for Action." U.S. Embassy staff pay tribute to more than 34 million people living with HIV/AIDS worldwide and also reflect on the loss of more than 30 million people whose lives have been claimed by AIDS. On this World AIDS Day, it is a hopeful moment in the fight against HIV/AIDS to achieve the goal of an AIDS-free generation.
