Individual purchases shall be documented via a task order.

2. PERIOD OF PERFORMANCE

After contract award and submission of acceptable insurance certificates, the Contracting Officer shall issue a Notice to Proceed. The Notice to Proceed will establish a date (a minimum of ten (10) days from date of contract award unless the Contractor agrees to an earlier date) on which performance shall start.

The performance period of this contract is from the date of contract award and continuing for 12 months, with four (4) one-year options to renew. The initial period of performance includes any transition period authorized under the contract.

4.E. The Government will not consider any claim for any additional compensation unless it has been authorized by the Government in writing in advance. The Government shall not be responsible for any work performed that is not specifically provided for under this contract or authorized by the Government in writing in advance.

5. ORDERS

All requests for shipments or performance of individual jobs under this contract shall be issued via an order placed by the Contracting Officer. This task order will contain the following information:

- (a) Name of Contractor,
- (b) Contract number
- (c) Date of purchase
- (d) Purchase number
- (e) Name of person placing order
- (f) Itemized list of shipment and services furnished
- (g) Quantity, unit price, and total price of each item or service, less applicable discounts

Orders may be placed orally initially, but must be followed up in writing within 48 hours via issuance of a task order. Only a Contracting Officer may place an order, either orally or in writing.

If more than one contractor has received an award for these services, the following procedures shall govern the issuance of individual orders. No work shall be performed without an order being issued to the Contractor by the Contracting Officer.

(1) As the need for services arises, the Government will develop a price estimate. If the estimate does not exceed US \$3,000, the Government will follow the procedures in paragraph (2) below. If the estimate exceeds US \$3,000, the Government will follow the procedures in paragraph (3) below.

(2) Orders not exceeding US \$3,000 - The Government will select a contractor for issuance of the order. This decision will be based on the Government's best interests, which may include factors such as estimated price and past performance record.

(3) Orders exceeding US \$3,000 - Unless one of the exceptions in paragraph (5), below, applies, the Government will follow one of the following two scenarios:

(a) The Government will request each contractor to perform, **AT NO COST TO THE GOVERNMENT**, a pre-shipment survey after which the Contractor will present an estimate to the Government. Whether or not the Contractor is selected for an individual order, the Government shall not be liable for any claim from the Contractor for

the costs of performing the pre-shipment survey. Selection will be based on a combination of estimated price and past performance information; or

(b) If the Contracting Officer can establish which Contractor's prices will result in the lowest price for the individual order without requesting a pre-shipment survey, the Government will make its award selection based upon the prices set forth in the contract and past performance information gained as a result of contractor performance under this contract.

(4) Regardless of whether the procedures in paragraph (2) or (3) above were followed, selection of contractors shall not be protestable to GAO under Subpart 33.1 of the Federal Acquisition Regulation, except on the grounds that the order increases the scope, period, or maximum value of the contract. However, the Department of State does have an Acquisition Ombudsman who will review complaints by contractors to ensure that all contractors are afforded a fair opportunity to be considered for these task orders, pursuant to the procedures for award of task orders established herein.

(5) Exceptions to the procedures in paragraph (3) above:

(a) The agency need for the required services is of such urgency that providing such competitive opportunity would result in unacceptable delays;

(b) The order should be issued on a sole-source basis in the interest of economy and efficiency as a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order.

(c) It is necessary to place an order to satisfy a minimum guarantee.

8. SCHEDULING AND PLANNING SHIPMENT PICKUPS

The COR receives requests from clients for Household Effects pack out dates, and will coordinate the scheduling of shipments with the Contractor. The COR will give the Contractor a completed "Request for Shipment" form which is the notification of scheduling and authority to proceed if "confirmed" is indicated. This form will not be given to the Contractor unless a task order has already been issued by the Contracting Officer. If "tentative" is checked, the Contractor shall contact the COR for information/instructions.

Pre-shipment Survey

Before the UAB, HHE and cargoes are packed, the Contractor shall, in connection with each instance of household effects services in this contract, make an on-site pre-shipment survey of the items to be shipped and/or stored to determine the approximate net weight

of each category. The survey shall be conducted by an approved estimator. The survey must list the major items of furniture, appliances and equipment which are to be included in the shipment and/or storage lot. It must also state the number of cartons and crates necessary to properly protect the loose and fragile items. The Contractor shall give a copy of each survey, signed and dated by the estimator, indicating total estimated net weight of both the export shipment and storage lot to the client within 24 hours of completion of the pre-shipment survey. A pre-shipment survey which deviates more than ten percent, either high or low, in either the export or storage estimates, will be documented by the COR in the Contractor's performance file **and if this excess weight is not reported to the COR by the Contractor, the Contractor shall assume all charges associated with the shipment of the excess weight and shall pay to the Embassy cashier the shipping cost of this excess weight from origin to its final destination.** A pre-shipment survey will not normally be required for shipments other than household effects shipments.

9. DURATION OF PACKING

The contractor shall perform all packing and/or pickup of household goods and personal effects beginning on the date and at the time agreed upon between the contractor and the client or his/her agent. The client shall be any person the COR specifies as the client in the "Request for Shipment" form authorizing service. All services performed shall be completed within three (3) working days, which includes packing, crating and picking up on workdays between the hours of 09:00hrs and 18:00hrs. Services may only be performed at the residence before 09:00hrs or after 18:00hrs on normal workdays, or other than normal workdays with the mutual agreement of the parties. This agreement shall create no liability on the part of the Government for overtime or premium pay or other charges to be paid to the Contractor's employees. If the packing and/or pickup crews arrive more than two hours later than the scheduled time agreed upon, the contractor shall notify both the client and the COR in advance. Authorization for any changes in date and time must be authorized by the COR.

10. WEIGHT

Tare Weight Limitation

Whether for official shipments or for household effects, the tare weight shall not exceed 30% of the net weight of the articles packed. If it appears that the 30% limitation will be exceeded, the Contractor shall obtain advance approval of the COR before proceeding with the packing. The tare weight and cube of each shipment shall be the minimum that will afford adequate protection to the items being packed. Contractor shall weigh containers before packing in order to calculate net weight.

Shipping Weight

The Contractor will be advised in writing by the COR as to the maximum weight allowance to be shipped and/or stored. The Contractor shall not exceed these weights

without the COR's consent. If the shipment portion exceeds the maximum authorized weight, the COR must be informed. The Contractor shall remove items specified by the COR at no additional cost to the Government or employee. If a shipment is forwarded which exceeds the maximum weight designated in writing by the COR, the Contractor shall be responsible for all costs on that portion of the shipment which exceeds the maximum weight designated.

All exceptions as to the condition of goods listed on the Inventory List must be brought to the client's attention before goods are removed from the government-leased premises. The Inventory List must be signed by the client and the Contractor's Team Leader, both certifying to the correctness of the Inventory List.

The Inventory List shall show the number and contents of each carton, listed by the correct name in English AND Spanish; the date of shipment; lot number; name of Contractor; container (lift van); and, an explanation of the condition symbols used. The Contractor shall give a copy of the Inventory List to the client. Care in the preparation of the initial inventory will assist in protecting the owner of the property and the Contractor in the event of loss and/or damage. When there are two or more shipments, each shipment shall have a separate inventory and lot number. Copies of all Inventory Lists shall be provided to the COR by the Contractor.

Non-availability of suitable vehicles shall not constitute acceptable justification for late pickup or delivery, or for additional costs to the Government.

19. COMPUTATION OF WEIGHTS

Gross Weight - see "Definitions," paragraph 2.

Net Weight - See "Definitions," paragraph 2.

Gross Weight is calculated by adding the Net Weight of the contents to the weight of the shipping container and any bracing material used to secure articles in the container. The contractor shall designate and the COR shall approve a scale to be used for determination of shipment weights. The scale must be officially certified by INDECOPI – Oficina de Pesos y Medidas as accurate and must continually display documentation in testimony thereof. All official certificates of accuracy must be periodically updated and recertified to ensure there is no lapse of certification.

The COR or an appointed representative may be present at the scale site when any shipment weight is taken to witness the accuracy of the reading. The Contractor shall submit to the COR with each invoice a weight certificate, signed by the Government employees for whom services were rendered, and the name of any Government employee who witnessed the weight reading.

When the Net Weight of a shipment has not been determined by actual measurement before shipment occurs, for payment purposes the Net Weight shall be defined as two thirds of the Gross Weight of the shipment. With the invoice for each shipment, the

Contractor shall submit a written justification describing why the shipment could not be weighed before it was shipped.

20. QUALITY ASSURANCE AND SURVEILLANCE PLAN (QASP)

This plan provides an effective method to promote satisfactory contractor performance. The QASP provides a method for the Contracting Officer's Representative (COR) to monitor Contractor performance, advise the Contractor of unsatisfactory performance, and notify the Contracting Officer of continued unsatisfactory performance. The Contractor, not the Government, is responsible for management and quality control to meet the terms of the contract. The role of the Government is to monitor quality to ensure that contract standards are achieved.

Performance Objective	Scope of Work Para	Performance Threshold

Monitoring Performance

Standard

The performance standard is that the Government receives no more than one (1) customer complaint per month. The COR shall notify the Contracting Officer of the complaints so that the Contracting Officer may take appropriate action to enforce the inspection clause, FAR 52.212-4 Contract Terms and Conditions-Commercial Items, if any of the services exceed the standard.

21. PROCEDURES

ATTACHMENT 2
PACKING SPECIFICATIONS

1. CONTAINER SPECIFICATION

(a) Containers to be used for export shipments of effects under this contract must be soundly constructed of waterproof plywood, lined with a waterproof barrier, and reinforced with an inside framework. Wooden containers must be heat treated or fumigated based on the requirements of the destination country. ***Effective September 16, 2005, all solid wood packing material (SWPM) entering the United States must be either heat treated or fumigated with methyl bromide, in accordance with the Guidelines on 7 CFR 319.40 and marked with an approved international mark certifying treatment. Heat treatment is preferred. For a complete list of affected countries with similar wood importation restrictions and the effective date of the restrictions, visit the USDA website. Because similar wood restrictions are already in place in the European Union, shipments destined or transiting through our storage facility in ELSO Antwerp should also be heat treated or fumigated with methyl bromide. If the fumigation method is chosen, post needs to take precautions to ensure only the wood products are fumigated. Do not, repeat do not, fumigate a crate or container with personal effects inside.*** Containers shall be designed to eliminate damage to the effect from exposure to inclement weather, salt water, salt atmosphere, and possible violent external forces incident to ocean and/or inland transportation and rough handling, so as to insure safe and undamaged arrival of the effects at the destination. The top of the container shall have metal roofing for shipments transiting areas of heavy rain or snowfall. Caulking compound must be used when wooden container panels are assembled to insure watertight joints.

Containerization will be in water-proof and specially designed containers. All containers, regardless of size and type, will be banded with proper steel banding material (4 bands). In this manner, the containers will be specially protected against water perforation and the possibility of pilferage. All containers will be pre-addressed and numbered as per Embassy specifications which are provided in the Embassy's letter requesting services. Shipping addresses are to be placed on containers before their removal from clients' residence. All containers should have security seals on each door. Containerization will take place at the client's residence in all cases except when prohibited by circumstances beyond contractor's control, or by special request of the U.S. Government client.

a. Air Containers.- All air shipments must be crated in new containers. Containers shall be constructed as follows:

- Walls constructed of 4 mm. seasoned plywood using ¾-inch x 3-inch wooden supporting members.
- Roofs constructed of 4 mm. seasoned plywood using ¾-inch x 3-inch wooden supporting members. The top of the containers shall have a metal roofing cover. The metal roofing cover must consist of one piece to cover the

container roof completely or, if it is more than one piece, the pieces must be welded together.

- Flooring to be constructed of 1-inch x 6-inch wooden planks. Wooden blocks of approximately 4 inches in thickness must be incorporated into the flooring of the containers to keep the containers off the ground and to facilitate forklift handling. All corners and joining members must be reinforced using specially designed reinforcement devices.
- b. Sea Containers.- Containers to be used for export shipments of effects under this contract must be soundly constructed of waterproof plywood, lined with a waterproof barrier, and reinforced with an inside framework. Full consideration should be given to eliminating damage from the effects of exposure to inclement weather, salt water, salt atmosphere, and possible violent external forces incident to ocean and/or inland transportation and rough handling, so as to insure safe and undamaged arrival of effects at the destination. The top of the container shall have metal roofing for shipments transiting areas of heavy rain or snow fall. Caulking compound must be used when the wooden container panels are assembled to insure watertight joints.

Containers shall be constructed as follows:

- Walls constructed of 8 mm. seasoned plywood using ¾-inch x 3-inch wooden supporting members.
- Roofs constructed of 8 mm. seasoned plywood using ¾-inch x 3-inch wooden supporting members. The top of the containers shall have a metal roof. The metal roof must consist of one piece to cover the container roof completely or, if it is more than one piece, the pieces must be welded together.

The percentage of humidity for the wood used on frames, crates, wardrobes, lift vans, etc., must not exceed 15%.

A hydrometer provided by the Contractor must be used by Embassy COR to certify the percentage of humidity in every shipment. The percentage of humidity for cartons, carton boxes, corrugates carton and news print must not exceed 13 %.

- Flooring to be constructed of 1-inch x 6-inch wooden planks. Incorporated in the flooring of the containers will be wooden blocks of approximately 4 inches in thickness to keep the containers off the ground and to facilitate forklift handling. All corners and joining members are to be reinforced using specially designed reinforcement devices.
- Entire interior of lift-vans must be lined with clear plastic sheets of at least 6 “micras” thickness.

A Dehumidifier product such as Absorpole must be used inside of the maritime containers: 6 units for a 20' feet container and 10 units for a 40' feet container.

Dehumidifier products such as silicagel must be used in each lift-van. Four (4) kilos of new silicagel in cloth bags of approximately 100 grams each. must be placed in different areas between the packages and boxes inside each lift-van.

(b) When container shipping services are available, the containers shall be shipped and stowed inside the ship's containers; therefore, the containers shall be of the cubic measurements designed to take maximum advantage of the inside measurements of the ship's containers.

(c) The modular containers provided by the Government used under this contract are the sole property of the Government, and shall be handled carefully to allow subsequent reuse with minimal repair or refurbishing.

(d) When the Government specifies use of a used modular container in export shipment of household effects under this contract, the Contractor shall offer in its invoice an equitable discount from the applicable contract rate. The amount of such discount will vary according to the extent of repair needed, or other conditions of the used containers, and shall be determined on an individual case basis upon mutual appraisal by the Contractor and the COR.

2. STANDARDS FOR PACKING HOUSEHOLD EFFECTS (HHE) AND UNACCOMPANIED AIR BAGGAGE (UAB)

3. WRAPPING AND PACKING

The Contractor shall wrap all articles subject to breakage, denting, scratching, marring, soiling, chafing, or damage at the specified pickup site, using wrapping material to prevent such damage. The Contractor shall use the following guidelines:

- (h) Legs or other articles removed from furniture shall be properly wrapped, bundled together, identified (such as "dining room table legs, 6 each") and listed separately on the Inventory List indicating the items on the Inventory List to which they belong. Ensure all screws and all other hardware which may be removed from any articles of furniture or other items, are properly identified and marked accordingly in addition to being bundled together with the items they should accompany.
- (i) Make a note of the articles requiring special handling and assure that these items are packed, handled and containers marked accordingly.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689).* (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) Are, or are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, or have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) Are, or are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) Have, or have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products (Executive Order 13126)*.
