Producing Topázio brand

**Give a brief description of the company.**

Topázio 1874

Luxury silver Art de la Table, Jewelry & More, handcrafted in Portugal

Topázio's artisans work with flair and dedication to create irresistible pieces. The company was created in 1874 by Manuel Ferreira Marques, and remains today family-owned. The brand crossed history, overcoming all challenges, strong in the silver handcrafting art... and establishing its DNA of quality and perfection in every detail. In 2016, Topázio is focused on the future, working every day to be pioneer and contemporary, without losing its 140 years identity ... and ensuring that your Topázio piece is unique, has a history behind, and never gets old

**What does your business hope to achieve through Connect to Success's MBA/Masters Consulting Program?**

Topázio is looking for fresh ideas on two areas – how to achieve the transition from the 140 years old company to the brand that we aim to be – contemporary without losing its roots and DNA, and how to get the right international partners
