

Page Personnel

Short summary of its operations and how long they have been operating in Portugal, including number of local employees.

Being present in Portugal since 2007, Page Personnel is a specialist company in the recruitment and selection of middle management and supporting technical functions, for both permanent and temporary projects.

Q: Tell us about your company's involvement in social responsibility and how your company and/or the community has benefited.

Page Personnel is aware of the importance of giving back to society, so we are involved in several social responsibility. We try to use our specialized knowledge in recruitment to provide professionals with the best employment search techniques. We have participated in workshops organized for students, young graduates, unemployed candidates and for professionals with a specific disease. We also organize coaching interviews, helping the professional to fight his/her weaknesses.

But our social responsibility isn't limited to actions that require our specialized knowledge. We also pay for our employees participation in races, which raised money is donated to charity and we organize food collecting events next to our employees.

Q: What do you hope your team will gain through their participation as mentors in Connect to Success' Corporate Mentoring Program?

We believe we can always learn from others so we expect to learn a lot from our mentee, who will certainly help us think outside the box. The mentor will, certainly, experience some kind of professional and personal growth from this process, learning to work with a new person and experiencing something that is not common on her daily work and that will demand that she steps outside her comfort zone. This is also a great opportunity for networking and to expose our company to new businesses and contacts.

Q: What do you hope the mentee(s) selected by your company to participate in the program will achieve at the conclusion of his/her/their participation?

We hope we can help our mentee to grow professionally and personally, giving her some new tools to face her daily challenges. Being a specialized recruitment consultancy, we have a wide knowledge of the market, companies and human resources so we have a great base to pass some useful knowledge to our mentee. We can give really useful insights about the challenges the Portuguese market faces and on how our mentee can face them successfully.
