SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

C.1 INTRODUCTION

C.1.1 GENERAL - The U.S. Embassy, Moscow requires a security upgrade contractor to perform task orders on US Government owned and leased properties. The contractor shall furnish managerial, administrative and direct operational personnel to accomplish all work as required.

C.1.2. PERSONNEL - The contractor shall be responsible for providing qualified technicians for each trade with relevant experience to perform make-ready services for task orders issued under this contract. Helper positions do not need to meet the experience requirement.

C.2 DESCRIPTION OF WORKS

C.2.1 SUMMARY OF WORKS – INTERIOR & EXTERIOR DOORS

The carpentry work shall consist of replacing hollow-core doors with solid-core wood or hollow-core steel doors. In addition, at some locations, the contractor to make changes to interior doors so the door swings outwards instead of inward. Upon replacing a door or changing the swing, the contractor must ensure the hinges are re-installed and fastened to prevent removal. The door must be trimmed as necessary to allow ease of opening and closing. The contractor shall install a privacy/security thumb lock and a door viewer. **Door models and all hardware must be vetted by the Embassy Security Official prior to installation.**

Alternatively, and subject to availability the Embassy might provide installation hardware i.e. sliding deadbolt 181 or Yale locks and door viewers to the contractor to install. Upon completion of the installation, both door locks must be operational so the occupant can easily lock the door from the inside.

Identified interior doors are located in the apartments at locations in the city. The addresses for the apartments will be provided to the contractor upon award of the contract.

C.2.1.1 City Apartments:

1. Replace a bedroom door and frame with an approved hard-core wood or hollow-core steel door (selected door model should be of a basic design with no decorations or moldings; hard-core wood door finish can be white painted, stained and lacquered or laminated; hollow-core steel door should be painted white). The new door must open outwards and the hinges must be secured to prevent easy removal; or can be tack-welded.
2. Install a door viewer with at least 180 degree vision angle on the new door. The door viewer is furnished by the contractor.
3. Install a new privacy lockset on the new door; the new lockset must be approved by an Embassy Security official.
4. Install a privacy thumb-turn lock with a minimum 1 inch (25 mm) flange or a slide deadbolt on the inside of the new door. The new door lockset and deadbolt lock must

be adjusted properly to allow both locks to operate easily.

Note: Interior doors differ by apartment complex; most are hollow-core wood or plastic vinyl. The contractor shall take his own measurements of the door openings and provide the door frame and door to fit the existing door opening. It is strongly recommended for the contractor to use one apartment as a prototype for inspection and acceptance by the Embassy security official before proceeding to the next apartment within one building complex.

5. In summary, the new replacement door has to open outwards, and the hinges must be secured or tack-welded to prevent removal. Each door shall have a door viewer to allow 180 degrees wide angle and the new door must have a privacy thumb-lock with a minimum 1 inch (25 mm) flange or a slide deadbolt on the inside of the new door. All new locks must be approved by the Embassy security officer.

C.2.1.2. Entrance Door at City Apartments:

1. On the main entrance door, the contractor shall provide and install a door viewer capable of allowing at least 180 degrees vision angle.
2. On the main entrance door, the contractor shall provide and install a privacy/security lock. Note: The contractor shall install a heavy-duty privacy/auxiliary thumb-turn lock with a minimum 1 inch (25 mm) flange or a slide deadbolt on the inside of the existing entrance door. The contractor is required to assess each main entrance door because not all apartments require additional locks. At least two apartments (DP) have two entrance doors that require the installation of privacy locks. In addition, entrance door quality differs by apartment complex and the Embassy will provide a list of apartments and entrance door descriptions to their best knowledge.
3. Alternatively, on the main entrance door, the contractor shall install the Embassy provided deadbolt, as identified and instructed by the Embassy Security Official/COR.

C.2.1.3 Grilled Gates and Windows and Emergency Release Devices

Where residences are equipped with window grilles, at least one grille must be equipped with an emergency release device in each bedroom and other rooms, as necessary.

For bedrooms, or other rooms used for sleeping, where no acceptable secondary egress is available, at least one grille over an operable window in each room should be equipped with an emergency release device as a secondary means of egress to permit emergency exit. The emergency release device installed on the grill gate (and window) must not require the use of a key, tool or special knowledge, and the force to operate should be minimal.

The fundamental to each approach is to equip grilles with hinges and to install a latching device that is easy to operate from the protected side, while protected from external manipulation. Below is a basic example of emergency release device.

C.3. U.S. GOVERNMENT PROVIDED MATERIALS

"Registered in the **SAM** database" means that-

- (1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the SAM database;
- (2) The Contractor's CAGE code is in the **SAM** database; and

The Contractor will be required to provide consent for TIN Attachment, Page 1 of 4 validation to the Government as a part of the **SAM** registration process.

"System for Award Management (SAM)" means the primary Government repository for prospective federal awardee information and the centralized Government system for certain contracting, grants, and other assistance related processes. It includes-

(2) The **SAM** registration shall be for the same name and address identified on the contract, with its associated CAGE code and DUNS or DUNS+4.

(3) If indicated by the Government during performance, registration in an alternate system may be required in lieu of SAM.

(c) If the Contractor does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) A contractor may obtain a DUNS number-

To remain registered in the **SAM** database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the **SAM** database to ensure it is current, accurate and complete. Updating information in the **SAM** does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g) (1)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer sufficient documentation to support the legally changed name with a minimum of one business day's written notification of its intention to-

I.16 652.225-71 SECTION 8(A) OF THE EXPORT ADMINISTRATION ACT OF 1979, AS AMENDED (AUG 1999)

(a) Section 8(a) of the U.S. Export Administration Act of 1979, as amended (50 U.S.C. 2407(a)), prohibits compliance by U.S. persons with any boycott fostered by a foreign country against a country which is friendly to the United States and which is not itself the object of any form of boycott pursuant to United States law or regulation. GRILLES

The forced entry window grilles may be locally fabricated and can be installed on the interior or the exterior of the window opening. The Department encourages creativity in the design of grilles, which should be fashioned with consideration to local architecture. All grille designs must be based on the following interim criteria:

- (1) Minimum bar diameter: 1/2 in. (14 mm) round or square bars;
- (2) Maximum horizontal spacing: 6 in. (150 mm) on center (o.c.);
- (3) Maximum vertical spacing: 6 in. (150 mm) o.c.

Weld the bar grid to the continuous 2-3/8 in. x 2-3/8 in. x 3/16 in. (60 x 60 x 4 mm hard metric equivalent; for this design only) steel angles. The bars should overlap the frame assembly by a minimum of 1-15/16 in. (50 mm).

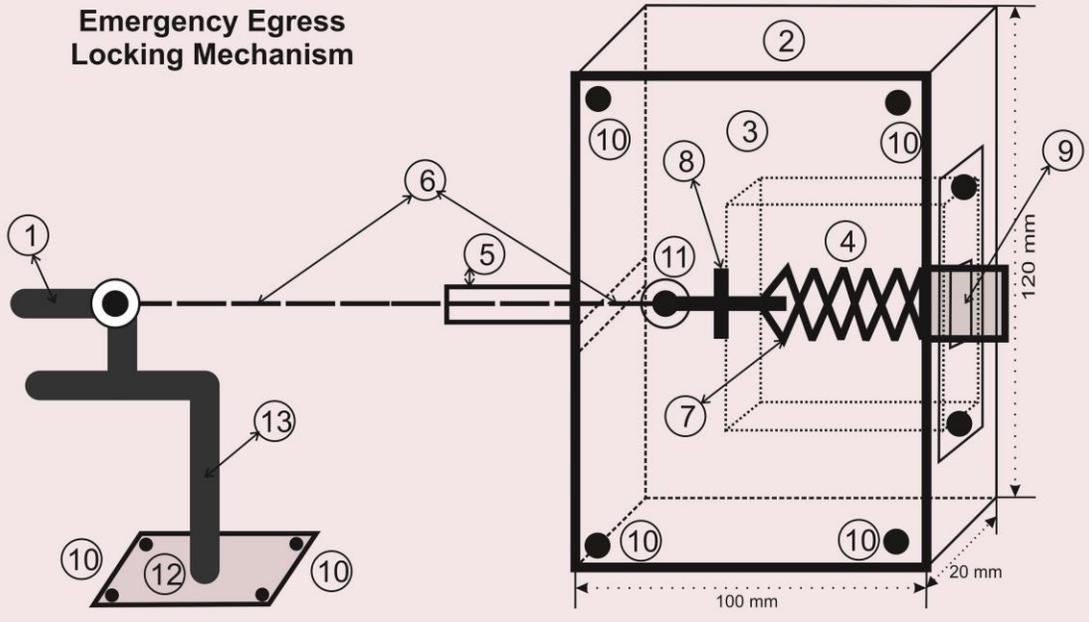

Window grille frames should be anchored using 3/8 in. x 3-1/2 in. (10 x 90 mm) (minimum) drop-in expansion anchors, 9 in. (230 mm) o.c. (maximum) for concrete, 3/8 in. - 16NC x 1 in. socket head cap screws at 9 in. (230 mm) o.c. for steel and 3/8 in. x 6 in. (10 x 150 mm) (minimum) Hilti C-20 or equivalent at 18 in. (460 mm) o.c. for masonry. Anchor/bolt heads should be welded to the frame.

Consideration should be given to the fact that grilles may provide a platform which can be used to access windows and/or balconies located above the grilles. Where this situation exists, the designer may be required to compensate for this vulnerability in one or more of the following ways:

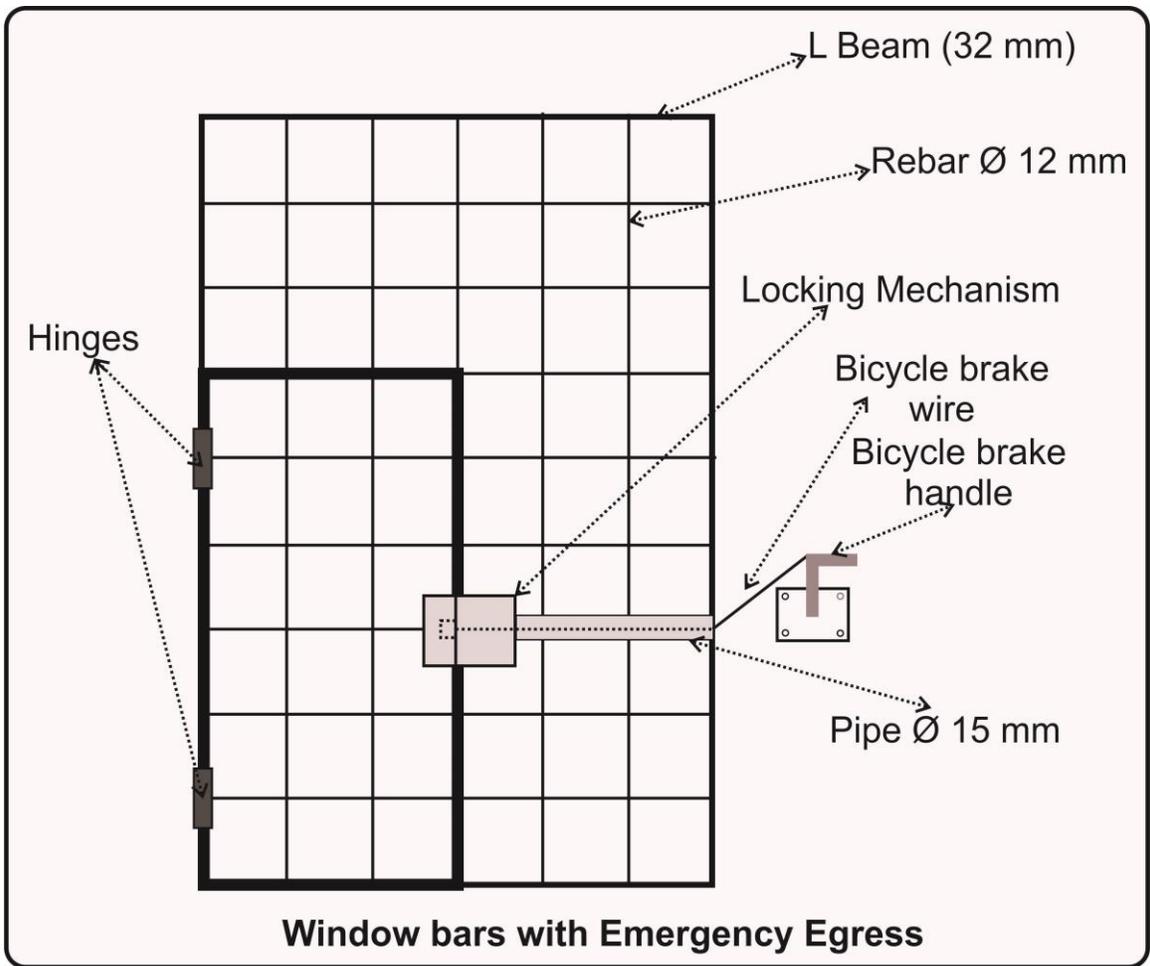

- (1) Reduce the spacing of the vertical bars;
- (2) Recess the grilles in the window opening;
- (3) Install the grilles inside the window.

The designer is encouraged to develop innovative solutions to this vulnerability.

Solid Core Wooden Door

Solid core doors are made of particleboard or steel centers and covered with wood or fiberglass veneer to give a durable finish. They are made differently than solid wood doors, but replicate their weight and feel. They are also a more affordable alternative to high-end, expensive solid wood doors. Also, similar to solid wood doors, they are not made of one piece of material. They are constructed of several layers of materials bonded together or nonbonded, but instead pressed together under high temperatures and pressure.

K.5 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (APR 2010)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are o are not o presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have o have not o, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks “have”, the offeror shall also see [52.209-7](#), if included in this solicitation);

(C) Are o are not o presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have o, have not o, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax

court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has or has not, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies

available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.
