## We build English skills and increase students' knowledge.

VOA Learning English provides tools that students can use to build their English comprehension and listening skills while they engage with cognitively rich content about the world they live in. We focus on news, information, and language skills that students can use to prepare for their careers or study abroad. Join our learning community on Facebook and Twitter or access our materials on radio, television, online, mobile and YouTube.

## English learning with a global reach.

Our audience can be found in countries around the world, and we have worked hard to make sure our products are accessible to students in the media of their choice.
