

**ENTRY/EXIT REQUIREMENTS:** As of July 1, 2013, a valid passport, visa, and evidence of yellow-fever vaccination are required for entry into Senegal. A meningitis vaccination is highly recommended if the traveler is arriving from or has recently traveled to an endemic area. Travelers unable to provide proof of vaccinations may be required to pay for and receive vaccinations at the Dakar airport.

The official website for purchasing the visa can be found [here](#). Since the visa is biometric, U.S. citizens wishing to travel to Senegal must first pay the visa fees (approximately \$67) before appearing in person to be fingerprinted. This can be accomplished at either the Senegalese Embassy (Washington D.C.) or the Senegalese Consulate (New York City) prior to travel. Travelers may also retrieve their visas at Leopold Sedar Senghor Airport (Dakar) or other posts along the Senegalese border. You may be denied entry if you lack the proper documentation before arriving in Senegal.

Travelers should obtain the latest information on entry requirements from the Embassy of Senegal, 2031 Florida Avenue NW, Washington, DC 20009, telephone (202) 234-0540. Overseas inquiries should be made at the nearest Senegalese embassy or consulate.

The U.S. Department of State is unaware of any HIV/AIDS entry restrictions for visitors to or foreign residents of Senegal.

Information about [dual nationality](#) or the [prevention of international child abduction](#) can be found on our website. For further information about customs regulations, please read our [Customs Information page](#).
