

Contracting Opportunity - Maintenance service on an existing central UPS system

I. GENERAL INFORMATION:

The United States Consulate in Shanghai requires professional services and contractor cost proposals to perform semi-annual and annual preventive maintenance service on an existing central UPS system located at the U.S. Consulate. This is a base year, plus two-option year contract term.

II. PROJECT REQUIREMENTS:

DESCRIPTION OF EQUIPMENT - UNIT LOCATION & NAMEPLATE:

Location:	Shanghai
Equipment:	UPS
Manufacturer:	Power Systems and Controls
Quantity:	One Module
Output KVA:	75 KVA
Model No.:	Series MC-75 Rotary UPS
Serial No.:	PSCMC75
Output:	220/380 VAC wye, 50/60Hz

III. GENERAL REQUIREMENTS:

All proposals will be evaluated based on Lowest Priced, Technically Acceptable. Technical acceptance will be based on vendor credentials and work plan. Contractors must submit with their proposals any copies of applicable training certificates or a letter from that bidding company supporting the ability of their UPS technician(s). This letter must be on company letterhead and signed by a company executive. Do not send a copy of an individual's resume.

Additional information will be required, per instructions in the solicitation documents.

To receive a copy of the solicitation documents, please send an email to cumminske@state.gov.

Proposals will be due by Friday, September 21st, 2012 at noon.
