REQUEST FOR QUOTATIONS - CONSTRUCTION

A. PRICE

The Contractor shall complete all work, including furnishing all labor, material, equipment and services required under this purchase order for the following firm fixed price and within the time specified. This price shall include all labor, materials, all insurances, overhead and profit.

Total Price (including all labor, materials, overhead and profit)	
VAT	
Total	

A.1 VALUE ADDED TAX

VALUE ADDED TAX (VAT). The Contractor shall include VAT as a separate charge on the Invoice and as a separate line item in Section B.

B. SCOPE OF WORK

The character and scope of the work are set forth in the contract. The Contractor shall furnish and install all materials required by this contract.

In case of differences between small and large-scale drawings, the latter will govern. Where a portion of the work is drawn in detail and the remainder of the work is indicated in outline, the parts drawn in detail shall apply also to all other portions of the work.

Provide the installation of the generator set (genset) OLYMPIAN GEP65-9 and all equipment specified in the Generator Specification (Attachment 2. – “Gen Set specs”) including all necessary construction work and modification of the existing wiring at the residence to make the genset fully operational. All work and material shall be as specified but not limited to the items specified herein.

See the Attachment 1 – “Installations Specifications”, for further specifications.

C. PACKAGING AND MARKING

N/A

D. INSPECTION AND ACCEPTANCE

The COR, or his/her authorized representatives, will inspect from time to time the services being performed and the supplies furnished to determine whether work is being performed in a satisfactory manner, and that all supplies are of acceptable quality and standards.

The Contractor shall be responsible for any countermeasures or corrective action, within the scope of this contract, which may be required by the Contracting Officer as a result of such inspection.

D.1 SUBSTANTIAL COMPLETION

(a) "*Substantial Completion*" means the stage in the progress of the work as determined and certified by the Contracting Officer in writing to the Contractor, on which the work (or a portion designated by the Government) is sufficiently complete and satisfactory. Substantial completion means that the property may be occupied or used for the purpose for which it is intended, and only minor items such as touch-up, adjustments, and minor replacements or installations remain to be completed or corrected which:

- (1) do not interfere with the intended occupancy or utilization of the work, and
- (2) can be completed or corrected within the time period required for final completion.

(b) The "date of substantial completion" means the date determined by the Contracting Officer or authorized Government representative as of which substantial completion of the work has been achieved.

Use and Possession upon Substantial Completion - The Government shall have the right to take possession of and use the work upon substantial completion. Upon notice by the Contractor that the work is substantially complete (a Request for Substantial Completion) and an inspection by the Contracting Officer or an authorized Government representative (including any required tests), the Contracting Officer shall furnish the Contractor a Certificate of Substantial Completion. The certificate will be accompanied by a Schedule of Defects listing items of work remaining to be performed, completed or corrected before final completion and acceptance. Failure of the Contracting Officer to list any item of work shall not relieve the Contractor of responsibility for complying with the terms of the contract. The Government's possession or use upon substantial completion shall not be deemed an acceptance of any work under the contract.

D.2 FINAL COMPLETION AND ACCEPTANCE

D.2.1 "Final completion and acceptance" means the stage in the progress of the work as determined by the Contracting Officer and confirmed in writing to the Contractor, at which all work required under the contract has been completed in a satisfactory manner, subject to the discovery of defects after final completion, and except for items specifically excluded in the notice of final acceptance.

D.2.2 The "*date of final completion and acceptance*" means the date determined by the Contracting Officer when final completion of the work has been achieved, as indicated by written notice to the Contractor.

D.2.3 FINAL INSPECTION AND TESTS. The Contractor shall give the Contracting Officer at least five (5) days advance written notice of the date when the work will be fully completed and ready for final inspection and tests. Final inspection and tests will be started not later than the date specified in the notice unless the Contracting Officer determines that the work is not ready for final inspection and so informs the Contractor.

D.2.4 FINAL ACCEPTANCE. If the Contracting Officer is satisfied that the work under the contract is complete (with the exception of continuing obligations), the Contracting Officer shall issue to the Contractor a notice of final acceptance and make final payment upon:

- Satisfactory completion of all required tests,
- A final inspection that all items by the Contracting Officer listed in the Schedule of Defects have been completed or corrected and that the work is finally complete (subject to the discovery of defects after final completion), and
 - Submittal by the Contractor of all documents and other items required upon completion of the work, including a final request for payment (Request for Final Acceptance).
 - The final approvals from the local authorities that (confirm or document) that the installation was performed according to the project documentation and that it conforms all building codes and that it is safe and legal to use and operate the generator. After the installation is satisfactory accomplished the Contracting Officer shall approve partial payment except the items 1.2.8.3 and 1.2.9 specified in the Attachment 1.

E. DELIVERIES OR PERFORMANCE

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to:

- (a) commence work under this contract within 10 days calendar days after the date the Contractor receives the notice to proceed,
- (b) prosecute the work diligently, and,
- (c) complete the entire work ready for use not later than 180 days.

The time stated for completion shall include final cleanup of the premises.

[

52.211-11 LIQUIDATED DAMAGES - CONSTRUCTION (SEPT 2000)

(a) If the Contractor fails to complete the work within the time specified in the contract, or any extension, the Contractor shall pay liquidated damages to the Government in the amount of **132.56 €** for each calendar day of delay until the work is completed or accepted.

(b) If the Government terminates the Contractor's right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Default clause.

CONTRACTOR'S SUBMISSION OF CONSTRUCTION SCHEDULES

(a) The time for submission of the schedules referenced in FAR 52.236-15, "Schedules for Construction Contracts", paragraph (a), is hereby modified to reflect the due date for submission as 10 calendar days after receipt of an executed contract".

(b) These schedules shall include the time by which shop drawings, product data, samples and other submittals required by the contract will be submitted for approval.

(c) The Contractor shall revise such schedules (1) to account for the actual progress of the work, (2) to reflect approved adjustments in the performance schedule, and (3) as required by the Contracting Officer to achieve coordination with work by the Government and any separate contractors used by the Government. The Contractor shall submit a schedule, which sequences work so as to minimize disruption at the job site.

(d) All deliverables shall be in the English language and any system of dimensions (English or metric) shown shall be consistent with that used in the contract. No extension of time shall be allowed due to delay by the Government in approving such deliverables if the Contractor has failed to act promptly and responsively in submitting its deliverables. The Contractor shall identify each deliverable as required by the contract.

(e) Acceptance of Schedule: When the Government has accepted any time schedule; it shall be binding upon the Contractor. The completion date is fixed and may be extended only by a written contract modification signed by the Contracting Officer. Acceptance or approval of any schedule or revision thereof by the Government shall not:

- (1) Extend the completion date or obligate the Government to do so,
- (2) Constitute acceptance or approval of any delay, or
- (3) Excuse the Contractor from or relieve the Contractor of its obligation to maintain the progress of the work and achieve final completion by the established completion date.

NOTICE OF DELAY

If the Contractor receives a notice of any change in the work, or if any other conditions arise which are likely to cause or are actually causing delays which the Contractor believes may result in late completion of the project, the Contractor shall notify the Contracting Officer. The Contractor's notice shall state the effect, if any, of such change or other conditions upon the approved schedule, and shall state in what respects, if any, the relevant schedule or the completion date should be revised. The Contractor shall give such notice promptly, not more than ten (10) days after the first event giving rise to the delay or prospective delay. Only the Contracting Officer may make revisions to the approved time schedule.

NOTICE TO PROCEED

(a) After receiving and accepting any bonds or evidence of insurance, the Contracting Officer will provide the Contractor a Notice to Proceed. The Contractor must then prosecute the work, commencing and completing performance not later than the time period established in the contract.

(b) It is possible that the Contracting Officer may elect to issue the Notice to Proceed before receipt and acceptance of any bonds or evidence of insurance. Issuance of a Notice to Proceed by the Government before receipt of the required bonds or insurance certificates or policies shall not be a waiver of the requirement to furnish these documents.

WORKING HOURS

All work shall be performed during working days from 7:45 AM to 5:00 PM. Other hours, if requested by the Contractor, may be approved by the Contracting Officer's Representative (COR). The Contractor shall give 24 hours in advance to COR who will consider any deviation from the hours identified above. Changes in work hours, initiated by the Contractor, will not be a cause for a price increase.

PRECONSTRUCTION CONFERENCE

A preconstruction conference will be held 10 days after contract award at the Chief of Mission Residence, Stara Vinarska 14, Bratislava Slovakia, to discuss the schedule, submittals, notice to proceed, mobilization and other important issues that affect construction progress. See FAR 52.236-26, Preconstruction Conference.

F. ADMINISTRATIVE DATA

652.242-70 CONTRACTING OFFICER'S REPRESENTATIVE (COR) (AUG 1999)

(a) The Contracting Officer may designate in writing one or more Government employees, by name or position title, to take action for the Contracting Officer under this contract. Each designee shall be identified as a Contracting Officer's Representative (COR). Such designation(s) shall specify the scope and limitations of the authority so delegated; provided, that the designee shall not change the terms or conditions of the contract, unless the COR is a warranted Contracting Officer and this authority is delegated in the designation.

(b) The COR for this contract is **Andrej Golias, Facilities Engineer.**

Payment: The Contractor's attention is directed to Section H, 52.232-5, "Payments Under Fixed-Price Construction Contracts". The following elaborates on the information contained in that clause.

Requests for payment may be made no more frequently than monthly. Payment requests shall cover the value of labor and materials completed and in place, including a prorated portion of overhead and profit.

After receipt of the Contractor's request for payment, and on the basis of an inspection of the work, the Contracting Officer shall make a determination as to the amount, which is then due. If the Contracting Officer does not approve payment of the full amount applied for, less the retainage allowed by in 52.232-5, the Contracting Officer shall advise the Contractor as to the reasons.

Under the authority of 52.232-27(a), the 14 day period identified in FAR 52.232-27(a)(1)(i)(A) is hereby changed to 30 days.

**US Embassy/B&F
Hviezdoslavovo nam 4

The Contractor shall show Value Added Tax (VAT) as a separate item on invoices submitted for payment.

G. SPECIAL REQUIREMENTS

G.1.0 PERFORMANCE/PAYMENT PROTECTION N/A

G.2.0 INSURANCE - The Contractor is required by FAR 52.228-5, "Insurance - Work on a Government Installation" to provide whatever insurance is legally necessary. The Contractor shall at its own expense provide and maintain during the entire performance period the following insurance amounts:

G.2.1 GENERAL LIABILITY (includes premises/operations, collapse hazard, products, completed operations, contractual, independent contractors, broad form property damage, personal injury) . The contractor must comply with all locally required insurance policies.

G.2.2 The Contractor shall obtain any other types of insurance required by local law or that are ordinarily or customarily obtained in the location of the work. The limit of such insurance shall be as provided by law or sufficient to meet normal and customary claims.

G.2.3 The Contractor agrees that the Government shall not be responsible for personal injuries or for damages to any property of the Contractor, its officers, agents, servants, and employees, or any other person, arising from and incident to the Contractor's performance of this contract. The Contractor shall hold harmless and indemnify the Government from any and all claims arising therefrom, except in the instance of gross negligence on the part of the Government.

G.2.4 The Contractor shall obtain adequate insurance for damage to, or theft of, materials and equipment in insurance coverage for loose transit to the site or in storage on or off the site.

G.2.5 The general liability policy required of the Contractor shall name "the United States of America, acting by and through the Department of State", as an additional insured with respect to operations performed under this contract.

G.3.0 DOCUMENT DESCRIPTIONS

G.3.1 SUPPLEMENTAL DOCUMENTS: The Contracting Officer shall furnish from time to time such detailed drawings and other information as is considered necessary, in the opinion of the Contracting Officer, to interpret, clarify, supplement, or correct inconsistencies, errors or omissions in the Contract documents, or to describe minor changes in the work not involving an increase in the contract price or extension of the contract time. The Contractor shall comply with the requirements of the supplemental documents, and unless prompt objection is made by the Contractor within 20 days, their issuance shall not provide for any claim for an increase in the Contract price or an extension of contract time.

G.3.1.1. RECORD DOCUMENTS. The Contractor shall maintain at the project site:

- (1) a current marked set of Contract drawings and specifications indicating all interpretations and clarification, contract modifications, change orders, or any other departure from the contract requirements approved by the Contracting Officer; and,
- (2) a complete set of record shop drawings, product data, samples and other submittals as approved by the Contracting Officer.

G.3.1.2. "As-Built" Documents: After final completion of the work, but before final acceptance thereof, the Contractor shall provide:

- (1) a complete set of "as-built" drawings, based upon the record set of drawings, marked to show the details of construction as actually accomplished; and,
- (2) record shop drawings and other submittals, in the number and form as required by the specifications.

G.4.0 LAWS AND REGULATIONS - The Contractor shall, without additional expense to the Government, be responsible for complying with all laws, codes, ordinances, and regulations applicable to the performance of the work, including those of the host country, and with the lawful orders of any governmental authority having jurisdiction. Host country authorities may not enter the construction site without the permission of the Contracting Officer. Unless otherwise directed by the Contracting Officer, the Contractor shall comply with the more stringent of the requirements of such laws, regulations and orders and of the contract. In the event of a conflict between the contract and such laws, regulations and orders, the Contractor shall promptly advise the Contracting Officer of the conflict and of the Contractor's proposed course of action for resolution by the Contracting Officer.

G.4.1 The Contractor shall comply with all local labor laws, regulations, customs and practices pertaining to labor, safety, and similar matters, to the extent that such compliance is not inconsistent with the requirements of this contract.

G.4.2 The Contractor shall give written assurance to the Contracting Officer that all subcontractors and others performing work on or for the project have obtained all requisite licenses and permits.

G.4.3 The Contractor shall submit proper documentation and evidence satisfactory to the Contracting Officer of compliance with this clause.

G.5.0 CONSTRUCTION PERSONNEL - The Contractor shall maintain discipline at the site and at all times take all reasonable precautions to prevent any unlawful, riotous, or disorderly conduct by or among those employed at the site. The Contractor shall ensure the preservation of peace and protection of persons and property in the neighborhood of the project against such action. The Contracting Officer may require, in writing that the Contractor remove from the work any employee that the Contracting Officer deems incompetent, careless, insubordinate or otherwise objectionable, or whose continued employment on the project is

deemed by the Contracting Officer to be contrary to the Government's interests.

G.5.1 If the Contractor has knowledge that any actual or potential labor dispute is delaying or threatens to delay the timely performance of this contract, the Contractor shall immediately give notice, including all relevant information, to the Contracting Officer.

G.5.2 N/A.

G.5.3 The Contractor shall provide an English speaking supervisor on site at all times. This position is considered as key personnel under this purchase order.

G.6.0 Materials and Equipment - All materials and equipment incorporated into the work shall be new and for the purpose intended, unless otherwise specified. All workmanship shall be of good quality and performed in a skillful manner that will withstand inspection by the Contracting Officer.

G.7.0 SPECIAL WARRANTIES

G.7.1 Any special warranties that may be required under the contract shall be subject to the stipulations set forth in 52.246-21, "Warranty of Construction", as long as they are not in conflict.

G.7.2 The Contractor shall obtain and furnish to the Government all information required to make any subcontractor's, manufacturer's, or supplier's guarantee or warranty legally binding and effective. The Contractor shall submit both the information and the guarantee or warranty to the Government in sufficient time to permit the Government to meet any time limit specified in the guarantee or warranty, but not later than completion and acceptance of all work under this contract.

G.8.0 EQUITABLE ADJUSTMENTS

Any circumstance for which the contract provides an equitable adjustment that causes a change within the meaning of paragraph (a) of the "Changes" clause shall be treated as a change under that clause; provided, that the Contractor gives the Contracting Officer prompt written notice (within 20 days) stating:

- (a) the date, circumstances, and applicable contract clause authorizing an equitable adjustment and
- (b) that the Contractor regards the event as a changed condition for which an equitable adjustment is allowed under the contract

The Contractor shall provide written notice of a differing site condition within 10 calendar days of occurrence following FAR 52.236-2, Differing Site Conditions.

G.9.0 ZONING APPROVALS AND PERMITS

The Government shall be responsible for:

- obtaining proper zoning or other land use control approval for the project
- obtaining the approval of the Contracting Drawings and Specifications
- paying fees due for the foregoing; and,
- for obtaining and paying for the initial building permits.

652.229-71 PERSONAL PROPERTY DISPOSITION AT POSTS ABROAD (AUG 1999)

Regulations at 22 CFR Part 136 require that U.S. Government employees and their families do not profit personally from sales or other transactions with persons who are not themselves entitled to exemption from import restrictions, duties, or taxes. Should the Contractor experience importation or tax privileges in a foreign country because of its contractual relationship to the United States Government, the Contractor shall observe the requirements of 22 CFR Part 136 and all policies, rules, and procedures issued by the chief of mission in that foreign country.

(End of clause)

CONTRACTOR IDENTIFICATION (JULY 2008)

Contract performance may require contractor personnel to attend meetings with government personnel and the public, work within government offices, and/or utilize government email.

Contractor personnel must take the following actions to identify themselves as non-federal employees:

- 1) Use an e-mail signature block that shows name, the office being supported and company affiliation (e.g. "John Smith, Office of Human Resources, ACME Corporation Support Contractor");
- 2) Clearly identify themselves and their contractor affiliation in meetings;
- 3) Identify their contractor affiliation in Departmental e-mail and phone listings whenever contractor personnel are included in those listings; and
- 4) Contractor personnel may not utilize Department of State logos or indicia on business cards.

(End of clause)

652.236-70 ACCIDENT PREVENTION (APR 2004)

(a) *General.* The Contractor shall provide and maintain work environments and procedures which will safeguard the public and Government personnel, property, materials, supplies, and equipment exposed to contractor operations and activities; avoid interruptions of Government operations and delays in project completion dates; and, control costs in the performance of this contract. For these purposes, the Contractor shall:

- (1) Provide appropriate safety barricades, signs and signal lights;
- (2) Comply with the standards issued by any local government authority having jurisdiction over occupational health and safety issues; and,
- (3) Ensure that any additional measures the Contracting Officer determines to be reasonably necessary for this purpose are taken.
- (4) For overseas construction projects, the Contracting Officer shall specify in writing additional requirements regarding safety if the work involves:
 - (i) Scaffolding;
 - (ii) Work at heights above two (2) meters;
 - (iii) Trenching or other excavation greater than one (1) meter in depth;
 - (iv) Earth moving equipment;
 - (v) Temporary wiring, use of portable electric tools, or other recognized electrical hazards. Temporary wiring and portable electric tools require the use of a ground fault circuit interrupter (GFCI) in the affected circuits; other electrical hazards may also require the use of a GFCI;
 - (vi) Work in confined spaces (limited exits, potential for oxygen less than 19.5 percent or combustible atmosphere, potential for solid or liquid engulfment, or other hazards considered to be immediately dangerous to life or health such as water tanks, transformer vaults, sewers, cisterns, etc.);
 - (vii) Hazardous materials – a material with a physical or health hazard including but not limited to, flammable, explosive, corrosive, toxic, reactive or unstable, or any operations which creates any kind of contamination inside an occupied building such as dust from demolition activities, paints, solvents, etc.; or
 - (viii) Hazardous noise levels.

(b) *Records.* The Contractor shall maintain an accurate record of exposure data on all accidents incident to work performed under this contract resulting in death, traumatic injury, occupational disease, or damage to or theft of property, materials, supplies, or equipment. The Contractor shall report this data in the manner prescribed by the Contracting Officer.

(c) *Subcontracts.* The Contractor shall be responsible for its subcontractors' compliance with this clause.

(d) *Written program.* Before commencing work, the Contractor shall:

- (1) Submit a written plan to the Contracting Officer for implementing this clause. The plan shall include specific management or technical procedures for effectively controlling hazards associated with the project; and,

(2) Meet with the Contracting Officer to discuss and develop a mutual understanding relative to administration of the overall safety program.

(e) *Notification.* The Contracting Officer shall notify the Contractor of any non-compliance with these requirements and the corrective actions required. This notice, when delivered to the Contractor or the Contractor's representative on site, shall be deemed sufficient notice of the non-compliance and corrective action required. After receiving the notice, the Contractor shall immediately take corrective action. If the Contractor fails or refuses to promptly take corrective action, the Contracting Officer may issue an order suspending all or part of the work until satisfactory corrective action has been taken. The Contractor shall not be entitled to any equitable adjustment of the contract price or extension of the performance schedule on any suspension of work order issued under this clause.

(End of clause)

652.242-73 AUTHORIZATION AND PERFORMANCE (AUG 1999)

(a) The Contractor warrants the following:

(1) That it has obtained authorization to operate and do business in the country or countries in which this contract will be performed;

(2) That it has obtained all necessary licenses and permits required to perform this contract; and,

(3) That it shall comply fully with all laws, decrees, labor standards, and regulations of said country or countries during the performance of this contract.

(b) If the party actually performing the work will be a subcontractor or joint venture partner, then such subcontractor or joint venture partner agrees to the requirements of paragraph (a) of this clause.

(End of clause)

652.243-70 NOTICES (AUG 1999)

Any notice or request relating to this contract given by either party to the other shall be in writing. Said notice or request shall be mailed or delivered by hand to the other party at the address provided in the schedule of the contract. All modifications to the contract must be made in writing by the Contracting Officer.

52.215-1 INSTRUCTIONS TO OFFERORS--COMPETITIVE ACQUISITION
(JAN 2004)

K. EVALUATION CRITERIA

Award will be made to the lowest priced, acceptable, responsible quoter. The Government reserves the right to reject quotations that are unreasonably low or high in price.

The Government will determine acceptability by assessing the offeror's compliance with the terms of the RFQ. The Government will determine responsibility by analyzing whether the apparent successful quoter complies with the requirements of FAR 9.1, including:

- ability to comply with the required performance period, taking into consideration all existing commercial and governmental business commitments;
- satisfactory record of integrity and business ethics;
- necessary organization, experience, and skills or the ability to obtain them;
- necessary equipment and facilities or the ability to obtain them; and
- otherwise, qualified and eligible to receive an award under applicable laws and regulations.

Attachment 1 Installation Specifications

Installation of the generator set at the Chief of Mission Residence, Bratislava, Slovak Republic
S00091 (CMR)

1. Specification

1.1. Description – Provide the installation of the generator set (genset) OLYMPIAN GEP65-9 and all equipment specified in the Generator specification (attachment 1.) including all necessary construction work and modification of the existing wiring at the residence to make the genset fully operational. All work and material shall be as specified but not limited to the items specified herein.

1.2. Construction requirements

1.2.1. Concrete pad - reinforced concrete foundation, concrete class C16/20, dimensions 125cm x 215cm. The foot of the foundation shall be 80 cm deep under the ground level and the top shall be 15cm above the ground. The pad will be treated with 2 layers of water-repellent primer. The minimum clearance around the concrete pad is 120cm. The existing paving stones shall be removed on the spot where the pad will be constructed. All excavation work as well as disposal of removed paving stones and excavated dirt shall be included.

1.2.2. Construction work - mounting the generator on the concrete pad. All excavation work, paving stones removal, walls penetration and all necessary modifications of the existing structures in order to install the wiring from the genset to the automated transfer switch (ATS) and the main electrical panel shall be included. The ATS will be mounted on the wall in the “Gym Room” right by the main electrical panel in the building. Distance between the genset and the ATS will be approx. 5m. Consequently, the paving stones will be placed back, wall penetrations will be filled and repainted and all installed wires will be tucked up.

1.2.3. Wiring - installation of the new wiring from the generator to the ATS and the main electrical panel, modification of the existing electrical wiring and the electrical box in order to connect all wires and make the generator fully operational. Provide all necessary hardware and material for the installation. All wiring shall be made of copper, insulated, following the standard color codes, all pieces of equipment shall be grounded with grounding resistance less than 25 Ohms.

1.2.4. Exhaust - installation of the muffled stainless steel exhaust system from the generator up to the roof level (12 meters high). Exhaust wall anchors distances – 150 cm max. The exhaust pipe shall be equipped with a cap to prevent the water to get inside and with a drain hole in the lowest spot of the exhaust pipe to drain the condensed water. The exhaust pipe must be equipped with a heat shield up to 2.5m from the ground level to minimize the scorch hazard.

1.2.5. External load outlets – provide the outlets to connect the external “load bank” to perform generator test under the simulated load. The capacity of the outlets must exceed the maximum prime rating of the generator (60 kVA) by 30%. The outlets can be installed inside the sound attenuated enclosure of the generator or in the waterproof cabinet on the perimeter wall of the building, 1m above the ground, not further than 5m away from the generator.

1.2.6. Sound attenuating wall – construct a sound attenuating wall parallel to the existing property fence to minimize the noise impact on the neighbor’s property. Provide the concrete base (concrete class C16/20) for the wall, the foot of the foundation will be 70 cm under the ground level minimum. The dimensions of the wall – height 3.5 m, length 7 m. The structure of the sound attenuating wall will be anchored to the existing supporting wall of the upper terrace.

1.2.7. Diesel fuel – provide full tank of diesel fuel (269 Liters). Diesel fuel should meet or exceed the Class-F specs (freezing point lower than -20°C)

1.2.8. Complex project drawings & Documents for the Construction Permit request submission

Provide a file with the design, construction plans, electrical schemes and all necessary documents that will be submitted to the local authorities in order to approve the project and to issue a Construction Permit. All documents shall be as specified but not limited to the items specified herein. All project drawings will be provided in two (2) hard copy sets and on the CD.

1.2.8.1. Provide complex project drawings of the genset installation including all drawings of the construction work and electrical schemes in 1:50 or 1:25 scale, spec sheets and technical data of the generator and equipment. The design and drawings must be drafted by a certified engineer and it must meet all required criteria to be submitted to the local authorities as a part of the Construction Permit request.

1.2.8.2. Provide an “Anticipated Noise Level Analysis” that will verify the anticipated sound power level impact on the environment, adjacent properties and buildings. The analysis must prove that the design and equipment comply with all local building codes and the overall sound power level behind the sound attenuating wall does not exceed the maximum limits.

1.2.8.3. Provide the design, technical data and all relevant necessary documents for an approval by the local environmental authorities in order to submit a request for the Construction Permit. It is the contractor’s responsibility to obtain the Construction Permit and all necessary approvals from all concerned parties.

1.2.9. General contractor duties – acts as an investor (US government) and the landlord’s representative in this project. Provides communication among all interested parties and authorities in this project, submits construction permit request, obtain approvals from all parties and local authorities concerned, documents, files and reports to the investor and the landlord on the overall progress.

1.2.10. Generator test – perform the test to check the functionality of the generator and the overall installation. At a minimum, the following work must be done:

1. Conduct visual check around the generator.
2. Check the battery’s liquids specific gravity, do battery load test, add battery liquid if necessary.
3. Check battery terminals and lugs (apply grease on terminal connections).
4. Check and adjust tension on all V and fan belts, as required.
5. Check fuel tank to make sure it is full.
6. Turn off the generator circuit breaker and run the generator unloaded for 15 minutes. Check the generator for unusual conditions, such as: excessive vibration, excessive black or white smoke. The following indicators also need to be checked while the generator is running: oil pressure gauge, water temperature gauge, fuel pressure gauge, RPM indicator, volts; amps; and frequency indicators. Verify all in normal condition.
7. Start unit and run under load for 30 minutes.
8. Read and record all gauges/meters (adjust/calibrate as required)
9. Check exhaust for excessive black or white smoke. (See manufacture’s manual)
10. Check for vibrations, check for any abnormal noise during operation.
11. Check air box drain tubes for excess fuel or oil blow-by.
12. Check generator bearing for noise and overheating.
13. Check to ensure proper oil flow in sight glass.
14. Check exhaust manifold, muffler, and piping for leaks and secure mountings
15. Check engine fuel pressure gauge
16. Check ATS operations, reset test switch. Observe and record retransfer/cool down time.
17. Test engine auto-shutdown components.
18. Inspect all fuel, oil, and water piping for secure mounting.
19. Check the exhaust piping and muffler insulation.
20. Check all indication lights.
21. Perform any additional tasks that may be recommended in the manufacture’s operations and maintenance manuals before the regular use of the generator.
22. Simulate and check all the alarm codes at the Remote Annunciator panel.
23. Inspect and test run the genset remotely.
24. Fill out Inspection Checklist and Test Report, report deficiencies if any.

2. Time schedule

The following schedule is proximate and may vary according to several factors such as weather conditions or the official schedule at the residence. It is a solely government right to postpone or reschedule any of the following steps as necessary in order to perform the

installation time efficiently. In case of delays the project shall be accomplished by 1/10/2015 latest

- 2.1. Start of the project - the contractor shall start no later than 10 days after the contract is awarded.
- 2.2. Project drawings & documentation - The complex project drawings and all necessary documentation (items 1.2.8.1, 1.2.8.2, 1.2.8.3.) should be finished no later than 40 days after the contract is awarded
- 2.3. Construction Permit request submittal - The submission of the request for the Construction Permit no later than 50 days after the contract is awarded
- 2.4. Construction Permit conferment – The conferment of the permit usually takes up to 30 days. However, if any of parties concerned (e.g. authorities, neighbors, etc...) opposes it, it may take another few weeks until the objections are investigated as relevant or not. In such a case, the construction permit should be conferment no later than 110 days after the contract is awarded
- 2.5. Start of the installation – the installation and all work at the residence should not start later than 120 days after the construction is awarded.
- 2.6. Completion - the installation should be completed no later than 150 days after the contract is awarded.
- 2.7. Final approvals – the final approvals from the authorities that proof that the installation was performed according to the project documentation and that it conforms all building codes and that it is safe and legal to use and operate the generator should be provided no later than 180 days after the installation.

3. Warranty

The contractor shall provide a two-year warranty on labor, parts and all material, which starts from the date of the final acceptance of the project. This requirement shall not modify or change the standard contract warranty agreement.

4. Delivery

All labor and all items specified in “1. Specification” will be performed and delivered at the Chief of Mission Residence, Stara Vinarska 14, 81104 Bratislava, Slovakia. All other equipment that is a subject of the installation (attachment 1.) will be available at the site prior to the start of the project. All work and goods will be considered delivered once all labor and material is received and inspected and when all official approval documents from the Authorities (item 2.7.) are provided to the Receiving Officer or the Contracting Officer Representative at the United States Embassy, Bratislava, Slovakia.

5. Quote format
