“LOOKING AHEAD: CLIMATE CHANGE PREVENTION”

NOVEMBER 2011

ARTICLES & REPORTS

“Climate Change Reconsidered: 2011 Interim Report”

Craig D. Idso, et al. Science and Environmental Policy Project and Center for the Study of Carbon Dioxide and Global Change, September 2011, 432 pages.

How convinced are you that climate change poses a very serious and dangerous threat to humanity? This report examines the effects global warming on human health and the natural environment including the economic effects of global warming in the twentieth century.

Full text currently available at: <http://goo.gl/H7fsR>

“Cities and Climate Change”

Daniel Hoornweg, et al. The World Bank, December 2010, No. 10, 92 pages.

The authors discuss the link between climate change and cities; why cities should be concerned about climate change and adopt early preventative policies, and how the World Bank and other organizations can provide further support to cities on climate change issues.

WEB RESOURCES

The Brookings Institution

<http://www.brookings.edu/topics/climate-change.aspx>

The Brookings Institution is a private nonprofit organization devoted to independent research and innovative policy solutions. For more than 90 years, Brookings has analyzed current and emerging issues and produced new ideas that matter—for the nation and the world.

The Yale Project on Climate Change Communication

<http://environment.yale.edu/climate/>

The mission of the Yale Project on Climate Change Communication works to advance public understanding and engagement with climate change science and solutions and catalyze action by the general public and leaders of government, business, academia, and the media through improved knowledge and understanding.

United Nations Framework Convention on Climate Change

<http://unfccc.int>

The Convention on Climate Change sets an overall framework for intergovernmental efforts to tackle the challenge posed by climate change. It recognizes that the climate system is a shared resource whose stability can be affected by industrial and other emissions of carbon dioxide and other greenhouse gases.
