### **HIRED. The Summer Job Experience** *EJ|USA, U.S. Department of State | Vol. 18 | No. 02 August 2013*

What do students and young adults in the USA do in the summer? Many of them, international and American, look for ways to gain experience by working or volunteering. Whether it's for something new or in a chosen field, the summer work experience can provide immediate and future rewards.

In this issue of EJ | USA, we find out what kind of work several visitors to the United States did last summer. Their experiences include work in lifeguarding, television, technology, professional music and more. Working during summer isn't just for students. You'll also read about why Americans don't take more vacation time from their jobs. Finally, a look back at the 1963 March on Washington explores the link between holding a job and holding freedom.
