I. FUNDING OPPORTUNITY DESCRIPTION

Background

Research from the World Bank, the International Budget Partnership, the Millennium Challenge Corporation, and others has demonstrated the benefits of transparent, accountable, participatory governance not only for greater economic efficiency, improved service delivery, and protection of fundamental rights, but also for sustained and stable transitions to democracy. For their part, citizens of the Middle East and North Africa (MENA) have demonstrated strong demand for openness from governments across the region and a more direct relationship between citizen and government.

The space for citizen-led accountability efforts remains constrained in a number of countries, necessitating support for efforts to advocate and mobilize public calls for reform. In countries in the midst of transition, governments have grown more alert, to varying degrees, to citizens' calls for accountability and transparency, as evidenced by the increasing number of national dialogues and commitments made under initiatives such as the Deauville Partnership for Arab Countries in Transition and the Open Government Partnership. However, even in these environments, support for citizen-led accountability efforts remains important and necessary. In this regional context, the U.S.-Middle East Partnership Initiative (MEPI) is committed to supporting programming for a range of citizen-led efforts to improve government transparency, responsiveness, and accountability at the national and local level.

Program Description

MEPI seeks a single grantee (i.e., the applicant) with at least three other U.S. or foreign-based partners to establish and lead a consortium that will manage and implement projects under a regional umbrella mechanism in support of citizen-led accountability and transparency efforts across the MENA region. The grantee, as the lead organization within the consortium, will coordinate activities and projects with consortium partners and MEPI, and will be ultimately responsible for the management, monitoring, and evaluation of the consortium and umbrella mechanism.

The umbrella mechanism should be designed to respond to a range of identified needs in the region and, where possible, build on transition-related opportunities and international and multilateral commitments that governments have made. Through this mechanism, the grantee and consortium partners will execute regional and country-specific projects that quickly respond to these emerging opportunities and needs, which could include, but are not limited to: new government accountability or transparency initiatives; national citizen-government dialogues; incidents of corruption, neglect of constituents’ needs, or inefficient use of public resources; debates on legislation concerning fundamental freedoms; parliamentary votes affecting geographically isolated populations or ethnic and religious minority group interests; gaps in service provision; deficits of trust and understanding between citizens and municipal or national governments; and citizen concerns over specific policy implementation or service delivery issues.
MEPI envisions a consortium that is capable and experienced, and that demonstrates a record of success, in implementing a broad spectrum of activities, particularly in the areas of access to information, new media, developing accountability networks, and promoting citizen participation and monitoring of government decision-making and performance. Drawing on the strengths, expertise, and networks of its members, the consortium will develop and propose potential activities and projects to MEPI to implement under the umbrella mechanism that respond to a range of emerging opportunities and needs in the MENA region, as well as formulate activities based on proposals generated by MEPI. Specific activities the consortium could support may include, but are not limited to, the following:

- Assisting civil society, political organizations, and other non-governmental groups to hold governments accountable for implementation of specific and announced reform commitments via the development of citizen campaigns, targeted advocacy efforts, and/or media engagement;
- Supporting civic education around draft or existing laws pertaining to fundamental freedoms (association, expression, assembly) and their significance for citizens, and holding dialogues with civil society, media, and government representatives to inform and influence the outcomes;
- Facilitating the creation of networks between civil society organizations (CSOs), journalists, and other stakeholders within the same region or cross-country to monitor the performance of local or national government officials;
- Assisting CSOs to develop community initiatives that advance local-level development action plans or extend social and public services to marginalized communities in partnership with local government;
- Monitoring and publicizing the implementation of open government initiatives, including tracking progress on Action Plans under the Open Government Partnership, Deauville Partnership, or other national or multilateral agreements;
- Supporting CSOs to advocate that their government publish existing budget documents, produce a citizens’ budget, or use available budget data to develop advocacy campaigns for social or basic infrastructure projects;
- Crowd-sourcing data from citizens on whether and where government programs are being administered, and generating progress reports on government program implementation;
- Utilizing Short Messaging Service (SMS), social media, and other electronic tools to disseminate information and aggregate views on government policy implementation, performance, or budget allocations; including designing and implementing applications (apps) utilizing major, commercially available IT platforms;
- Facilitating knowledge sharing between civil society activists across the MENA region or sub-regions on strategies for improving citizen-government collaboration, addressing corruption, and promoting accountability and transparency;
- Supporting or creating new accountability and watchdog mechanisms and practices, including at the municipal and/or national level; and/or
- Assisting CSOs in developing legislative proposals for legal reforms and advocating for their consideration and implementation.
Once the consortium and mechanism are established, the grantee and its consortium partners may propose projects and activities in the following countries: Algeria, Bahrain, Egypt, Iraq, Israel, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Qatar, Saudi Arabia, Syria, Tunisia, United Arab Emirates, West Bank or Gaza, and Yemen. Regional and multi-country projects may include Iraqi participants, but we currently do not fund Iraq-specific projects. Applicants may propose potential activities in their submissions, but these activities will only be reviewed as examples of the consortium’s proposed approach.

The grantee’s operation of this program will include substantial involvement from MEPI. As such, MEPI will work closely with the grantee on targets of potential assistance, including but not limited to, the selection of projects, sub-award mechanisms, and design of project work plans and objectives. In addition, the grantee and consortium partners will be expected to propose possible projects and sub-award mechanisms under this initiative. The grantee will be responsible for overseeing the implementation of all sub-grants and contracts to ensure complementarity of efforts, completion of activities, institutional strengthening, and financial propriety.

Submission Instructions

Applicants should assemble and lead a consortium consisting of the applicant and at least three other implementing organizations. More information about the requirements for these partners can be found at B.3 Consortium below. In their submissions, applicants should outline how the consortium will manage projects under the umbrella mechanism and describe the division of labor among the consortium partners; the organizational capacity and functional expertise of each consortium member; provide examples of successful activities completed by each consortium member that reflect the objectives outlined in the program description; demonstrate each consortium member’s experience and existing networks in the MENA region; and describe a strategy and capacity for carrying out assessments for regional, national, and local-level projects. Applicants may propose potential activities as examples of the consortium’s approach, but activities will be considered and approved separately once the consortium and mechanism are established.

Submissions must demonstrate that the consortium collectively:

- Has experience in the design and management of citizen-led accountability projects and activities outlined above. Applicants should provide examples of successful projects in these areas.
- Has the capacity and presents a strategy for carrying out assessments and analysis for potential projects in the area of citizen-led accountability and transparency.
- Has previous experience and established relationships with CSOs in the MENA region. In particular, each organization in the consortium should have experience implementing multi-country projects or country-specific projects in multiple countries across the region.
- Has experience in the following areas: access to information, new media, developing accountability networks, and promoting citizen participation and monitoring of government decision-making and performance. Collectively, the consortium must have experience in each of these areas.
In addition, the lead organization (i.e., applicant) must demonstrate:

- How the mechanism will be flexible and respond to emerging opportunities and needs.
- The capacity to operate a large assistance management program of multiple and diverse activities across the MENA region, either through the management of projects directly, or by sub-grants or fixed-price contracts to third parties.
- How activities and projects will be coordinated with their consortium partners and with MEPI.
- How the mechanism will be managed, monitored, and evaluated to ensure compliance with the project objectives and Federal regulations. This information should be demonstrated in both the program and budget narrative. (The lead organization will be responsible for overseeing the implementation of all sub-grants, contracts, and/or other direct assistance to ensure completion of activities, programmatic efficacy, institutional strengthening, and financial propriety.)

Please notify MEPI via nea-grants@state.gov by July 31, 2013 if you intend to submit a proposal to this opportunity. We are requesting this information for our planning purposes only and a response does not constitute a commitment.

**B. REVIEW AND SELECTION PROCESS**

The Office of the U.S.-Middle East Partnership Initiative is committed to ensuring a competitive and standardized process for awarding Economic Support Funds grants. Applications will be screened initially by MEPI to determine whether applicants meet the requirements and priorities outlined in Part I; meet the eligibility requirements outlined in Part III; and submitted the required documents outlined in Part IV. Applications that do not meet these requirements will not advance to the Technical Review stage.

All applications that proceed to Technical Review will be evaluated by U.S. Government and non-governmental subject-matter and/or country-specific experts and will be rated on a 100-point scale. Point values for individual elements of the application are presented in Part V, Section A. Technical Reviewers’ ratings, and any resulting recommendations, are advisory.
Final award decision will be influenced by whether the application meets MEPI’s programmatic goals and objectives, how it supports the Department’s overarching foreign policy priorities, and the geographic distribution of the top-ranking applications. All final grant award decisions will be made by the Deputy Assistant Secretary.

VI. ADMINISTRATION INFORMATION

A. AWARD NOTICES

Five days after the closing of the announcement, applicants will be notified via email that their application was received. This notification will include an application log number that applicants must use to track their applications. This notification does not signify that the application advanced to the Technical Review Stage.

Applicants who do not advance to the Technical Review stage will be notified 30 days after the closing of the announcement. The authorized representative and program point of contact listed on the SF-424 will receive the notification via email. If an applicant does not receive such a notification, their submission was put forward for review.

MEPI expects to notify applicants, who advanced to the Technical Review stage, about the status of their application by September 30, 2013. The authorized representative and program point of contact listed on the SF-424 will receive such a notification via email. MEPI reserves the right to award funding to applicants under this announcement for a period of up to two years after the announcement’s close date.

B. APPLICANT VETTING AS A CONDITION OF AWARD

Applicants proposing activities in Lebanon are advised that successful passing of vetting to evaluate the risk that funds may benefit terrorists or their supporters is a condition of award. Applicants may be asked to submit information required by DS Form 4184, Risk Analysis Information about their company and its principal personnel. Vetting information is also required for all sub-award performance on assistance awards identified by DOS as presenting a risk of terrorist financing. When vetting information is requested by the Grants Officer, information may be submitted on the secure web portal at https://ramportal.state.gov, via Email to RAM@state.gov, or hardcopy to the Grants Officer. Questions on the form may be emailed to RAM@state.gov. Failure to submit information when requested, or failure to pass vetting, may be grounds for rejecting an application for award.

C. RESULTS-ORIENTED MONITORING AND ASSESSMENT PLAN

The applicant selected for this funding and its consortium partners will be required to submit a Results-Oriented Monitoring and Assessment (ROMA) plan for each project funded under this mechanism. The ROMA plan describes the measures to capture and demonstrate progress towards achieving the objectives of a project.
All ROMA Plans will include the following elements:

- **Realistic project objectives**: What results are achievable during the period of the project?
- **Qualitative indicators**: How and what will you measure to show the project’s results based on outcomes (impact) as well as outputs (raw numbers)?
- **Data collection and analysis**: How will you collect and present indicator data and analysis to show progress toward the project objectives?
- **Monitoring and reporting**: How will you monitor and assess results during the implementation of the project to adapt to changes on the ground and maintain progress?

MEPI will evaluate the quality and feasibility of the proposed ROMA when considering project proposals under the mechanism, and will negotiate changes to the ROMA with consortium partners as necessary. A template for this plan will be provided at the time of award.

**D. BRANDING AND MARKING REQUIREMENTS FOR GRANTEES**

GENERAL GUIDANCE

It is strongly recommended that applicants submit grant applications using Microsoft Office products. If applicants do not have access to Microsoft Office products, PDF files may be submitted. If an applicant uses a file format other than Microsoft Office or PDF, the application may be unreadable.

The required font is 12-point Times New Roman. The application must be single spaced, with all margins (left, right, top, bottom) being at least one inch each. Also, applicants should ensure all pages in the application are numbered consecutively and meet the page limit requirements outlined in the announcement. If the application exceeds the page limit, the extra pages will be removed from the application package. In addition, it is strongly recommended that applicants include a Table of Contents.

REQUIRED APPLICATION DOCUMENTS

NOTE: The documents discussed below are what MEPI commonly requests in their program announcements. Before preparing a submission, applicants should carefully review the announcement to confirm what documents are required.
MEPI Application Cover Sheet

The Cover Sheet provides summary detail about the applicant and their proposed activities and is a separate attachment in your electronic submission. A sample template can be found with the announcement and a fill-able template is available for download online. **If using the template, the information in blue text should be deleted prior to submitting this document. NOTE:** Applicants are strongly encouraged to use the same format as found in the sample template. If the applicant does not use the template, the applicant must ensure that their submission includes all elements outlined in the sample.

If using the sample template, the Cover Sheet should be filled out in its entirety. Under the Executive Summary header, please provide a mandatory synopsis of the proposed project (e.g., The project will…). The Cover Sheet can be no more than one-page.

Applicant Organization Information

The Applicant Organizational Information document provides MEPI with information about the organization’s structure and policies; and allows MEPI to assess the organization’s ability to manage Federal funds. It is a separate attachment in your electronic submission. A sample template can be found with the announcement and a fill-able template is available for download online. **NOTE:** Applicants are strongly encouraged to use the same format as found in the sample. If the applicant does not use the template, the applicant must ensure that their submission includes all elements outlined in the sample.

SF-424B—Assurances—Non-Construction Programs

The SF-424B—Assurances—Non-Construction Programs sets forth compliance requirements an application must certify if awarded a grant. The form should be reviewed and signed online by the Authorized Organization Representative.

Program Narrative

The Program Narrative provides detailed information about the proposed project, and is reviewed to determine if a project will be considered for funding. Typically, applicants will address a project’s results and benefits, approach, and organizational capacity in this section of their application. The Narrative is a separate attachment in the electronic submission and may not exceed the page limit specified in the announcement (extra pages will be removed from the application package).

Before preparing your Program Narrative, applicants should carefully review the announcement to confirm information should be provided. Below are some of the items that, depending on the announcement, you will want to address in your Program Narrative:
Results and Benefits
- Clearly explain and specify the proposed project’s objectives.
- Describe realistic results to be accomplished with the timeframe of the proposed award.
- Clearly identify the anticipated beneficiaries and explain how the project’s objectives will positively affect them.
- Provide realistic milestones to indicate progress toward MEPI goals and objectives as described in the program announcement.
- Explain how monitoring and evaluation activities will be carried out and who will be responsible for them. Applicants are encouraged to propose a midterm or final evaluation.

Approach:
- Clearly describe how each proposed project activity will address the objectives outlined in the announcement or requested priority area.
- Describe how the proposed project design is innovative and original, as well as feasible.
- Address how the project will engage or obtain support from relevant stakeholders and identify local partners.
- Propose activities that are interactive, practical, and/or experiential in nature.
- Explain how participants will be selected (e.g. criteria for selection, selection process).
- Acknowledges if activities similar to those proposed are already taking or have taken place previously, and provide an explanation as to how proposed new activities will not duplicate or merely add to existing/recent activities.
- Articulates potential challenges to project implementation and propose contingency plans.
- Describe the division of labor among the applicant and any partners.
- Identify and address support for marginalized populations in all proposed activities and objectives and provides specific means for their inclusion.

Organizational Capacity:
- Demonstrate experience (e.g. has previously worked and/or has established contacts/partners) in the proposed country/territory/region.
- Demonstrate an institutional record of successful programs in the content area proposed (e.g. local government skills training).
- Demonstrate capacity for responsible fiscal management of donor funding (e.g. successful management of a previous sub-award or grant).
- Demonstrate the capacity to manage the proposed project, including having adequate staffing.

Budget Narrative

The Budget Narrative is used to determine if costs are reasonable and permissible. All proposed costs funded by Federal and Non-Federal contributions must be reasonable, necessary to achieve...
Preparing an Application for Funding

- project objectives, permissible in accordance with applicable Federal cost principles, auditable, and incurred during the project period. **Before developing a project budget, applicants should carefully review information below. All figures must be in U.S. Dollars and rounded to the nearest dollar.**

The Budget Narrative is a separate attachment in the electronic submission and there is no page limit for this section of the application. A sample template can be found with the announcement and a fill-able template is available for download online. **NOTE: Applicants are strongly encouraged to use the same format as found in the sample templates.** If the applicant does not use the template, the applicant must ensure that their submission includes all elements outlined in the sample. **All budgets must be structured so that they print in a readable format.**

**Budget Definitions**

**Authorized Organization Representative (AOR):** The individual authorized to act on behalf of the applicant and assume the obligations imposed by Federal laws, regulations, requirements, and conditions that apply to grant applications and/or awards. This person will be the signatory on the SF-424 and SF-424B forms.

**Consultant:** An individual or organization who provides professional advice and/or services for a fee and is not a direct hire employee of a grantee’s organization. Typically a consultant performs a one-time activity. All consultants require prior approval from MEPI.

**Contract:** A contract under a grant may be awarded for two purposes: 1) goods or services needed to support the grantee’s performance of the project or 2) an award to a third party for performance of substantive programmatic work. The first category is termed “vendor relationship,” and is described in more detail below under “Vendor.” The second category is termed “sub-recipient relationship” and may be in the form of a contract under the grant or, in some cases, a sub-award. More detail on the “sub-recipient” relationship is detailed below under “Sub-Award, Sub-Recipient, or Sub-Grantee.” The relationship rather than the terminology drives the governing requirements for these two relationships.

**Direct Costs:** Project related costs used for salaries, travel, equipment, supplies, contractual arrangements, and tangible goods or services.

**Indirect Costs:** Costs that cannot be identified readily and specifically with a particular project or activity, but are necessary to the operation of the organization (e.g., overhead, facility maintenance). These costs require a negotiated indirect cost rate (NICRA); otherwise, they must be charged directly and justified in detail.

**Project Costs:** The total allowable costs incurred by a recipient and charged to the award during a budget period. Project costs may include expenses provided for through Federal and Non-Federal contributions.
Preparing an Application for Funding

- 10 -

Sub-Recipient or Sub-Awardee or Sub-Grantee: A third-party individual or organization who receives an award for the performance of certain programmatic work. All sub-recipients require prior approval from MEPI. The receiving organization (sub-recipient):

- Has its performance measured against whether the objectives of the grantee’s project are met;
- Has responsibility for programmatic decision making (to the extent specified in its contract/sub-award);
- Has responsibility for adherence to applicable grant compliance requirements; and
- Uses their awarded federal funds in conjunction with a program of the organization as compared to providing goods or services for a program of the pass-through entity.

Vendor: An organization who receives funding from the grantee for the procurement of a good or service needed to support the grantee’s performance of the project. A vendor relationship is one under which the receiving organization (vendor):

- Provides the goods and services within normal business operations or to many different purchasers;
- Operates in a competitive environment;
- Provides goods or services that are supplementary to the operation of the grantee’s project; and
- Is not subject to federal programmatic compliance requirements.

When a grantee obtains routine goods and services necessary for performance of the grant-supported project, it may be through activities chargeable to indirect costs (e.g., acquisition of audit services) or, as appropriate, through a direct charge (i.e., contractual).

Cost Category Guidelines

All budgets must include an estimate of the costs projected tasks and activities, based on budget categories identified on the Budget Information Form (SF 424a). Applicants are encouraged to use the following checklist below to ensure that the budget provides all the necessary information.

1. Personnel
   - Are the key personnel for this project identified?
     - Key personnel are defined as individuals who contribute to the programmatic development or execution of the project in a substantive, measurable way, whether or not they receive salaries or other compensation under the grant.
     - Key personnel should include a Program Director and or Program Coordinator.
   - Is each position identified by title or responsibility?
     - **Program Director:** The individual who will provide daily oversight of the grant, including fiscal and personnel management, community relations, and project implementation and evaluation during the project period.
     - **Program Coordinator:** The individual who will coordinate coalition services and MEPI project activities, including training, coalition communication, data collection, and information dissemination.
Preparing an Application for Funding
- 11 -

- Financial or Business Official: The person who handles the financial components of the grant.
  - Is the identified position occupied, if so is the name of the employee identified?
  - Is the basis for determining each employee’s compensation described (annual salary and % time devoted)?
  - Are time commitments and the amount of compensation stated and reasonable?
  - Are salary increases anticipated during the grant period and are they justified (cost of living allowance, etc.)?
  - Are any personnel costs unallowable? (e.g., does the level of effort of the employee exceed 100% of all work on all projects or positions? Is the person identified a Federal Employee?)

2. Fringe Benefits
  - Is each type of benefit indicated separately or does the organization have an approved fringe benefit rate (NICRA)?
  - Are fringe increases anticipated during the grant period and are they justified?

3. Travel
  - Is the travel necessary for the purpose of the program?
  - Are travel costs separately identifiable and reasonable (transportation, hotel, meals, and mileage)?
  - Is the basis for computation provided?
  - Does the organization travel policy follow the Federal guidelines (e.g., Fly America, per diem rates, etc.)?

4. Equipment
  - Does the equipment have a useful life of more than one year and an acquisition cost of $5,000 or more?
  - Is the request necessary and reasonable for the purpose of the project?
  - Are equipment items specified by unit and cost?
  - Are purchases distinguishable from rentals or leases (vehicles, large items of equipment)?

5. Supplies
  - Are supplies listed separately?
  - Are costs per unit identified and detailed?
  - Is the basis for the cost reasonable?

6. Contractual
  - Is the type of service to be rendered described?
  - Are the consultant(s) or contractor(s)’ named, if known?
  - Is the total amount for any contract in excess of $100,000?
  - Is a separate budget for sub-recipients or contracts provided?

7. Construction
  - Construction costs are not allowable and should not be included
8. Other
- Are items grouped by type (space rental, printing, phone, maintenance, sub-award, etc.)?
- Are all costs justified and allowable?
- Is each sub-award (or sub-grant) described (i.e., description of activities to be performed, method of selection, type of agreement, budget with narrative) and the amount of award included?

**Budget Narrative Sample Template**

The Budget Narrative Sample Template provides examples of possible costs. Applicants should revise the template to reflect the costs associated with their proposed activities. In addition, applicants should remove any descriptions within the document and replace it with their cost justifications.

When completing the template, applicants should ensure the following:
- Provide details of calculations including estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated;
- Funding should not duplicate on-going activities;
- Budget categories should be clearly labeled and identified;
- The use of "miscellaneous expenses" or any similar term as a budget item is unacceptable; and
- The document should be structured so that it will print in a readable format.

**Sustainability Plan**

The sustainability plan outlines how the proposed project will be sustained beyond the initial award period. **The plan should be attached as a separate attachment in your electronic submission and may not exceed two pages.** The plan should address each of the areas listed below:
- Discuss how sustainability will be integrated into project planning and implementation from the beginning.
- Describe how project activities and results will create sustainable impact through local ownership.
- Identify the results and outcomes that can be realistically sustained after MEPI funding ends.
- Present a plan to secure the resources needed to sustain the aforementioned results after MEPI funding ends.
- Identify potential partners that will play a role in sustaining the project past the scheduled end date and explain the role they will play.

More information about preparing this Plan can be found in Part III of the program announcement.
Results-Oriented Monitoring and Assessment Plan

A Results-Oriented Monitoring and Assessment (ROMA) Plan describes the measures proposed by an applicant to capture and demonstrate progress towards achieving the objectives of the proposed project. The plan should be attached as a separate attachment in your submission and may not exceed three pages.

The ROMA Plan should include the following elements:

- **Realistic project objectives.** What results are achievable during the period of the grant?
- **Qualitative indicators.** How and what will you measure to show the project’s results based on outcomes (impact) as well as outputs (raw numbers)?
- **Data collection and analysis.** How will you collect and present indicator data and analysis to show progress toward the project objectives?
- **Monitoring and reporting.** How will you monitor and assess results during the implementation of the project to adapt to changes on the ground and maintain progress?

More information about preparing this Plan can be found in Part III of the announcement and a fill-able sample template is available for download online.

**OPTIONAL DOCUMENTS**

Documents not included in the program and budget narratives may be included as attachments or appendices, and may not exceed the page limit specified in the announcement. If it exceeds the page limit, the extra pages will be removed from the application package. Examples of attachments to be included in this section of your application are:

- **Biographical Sketch or Job Descriptions for key personnel and partners:** This information may be included within the project narrative or as a separate document included in the optional documents of the application. If these items are not included, applicants will be scored lower under Staff and Position Specifications review criteria outlined in Part V, Section A of the announcement.
- **Letters of Agreement or Letters of Intent** from proposed partners
- **Organizational Chart** outlining clear lines of responsibility and authority in the applicant organization.
