

A few interesting ideas to save our planet

In order to save our planet we must apply a bit of efforts and make an effort to utilize domestic wastes. But our garbage can be sometimes useful. For example, from plastic bottles it is possible to make a quite good decoration, original chandelier or support for napkins. From an old lamp it is possible to make a beautiful new-year toy, and from wine corks - board of bulletins. So, that there would be fantasy and desire and from garbage it is possible to make many interesting things, original, useful and enthralling.

Board of bulletins

New-year toy

Support for napkins

Original chandelier
