**The Smithsonian Entrepreneur Incubator** training series offered by **The American Center** in association with **HATCH!** offers participants unique experiences to learn key skills to start their businesses the right way.

Participants will complete personal pre-work, dynamic workshops with visiting subject-matter experts, and monthly field trips to visit real entrepreneurs and their startups, plus discover a community of Vietnam's best entrepreneur and startup resources.

The facilitator is **Aaron James Everhart, MBA**. He's the founder of HATCH!, a life-long entrepreneur, investor and mentor to over 30 startups. In 2016, he was awarded top 3% best mentors in Founder Institute. He came to Vietnam in 2005, after a ten-year early career in San Francisco California.
